Master’s Pre-Recital Performance with Advisory Committee

The purpose of a pre-recital performance approximately one month before the recital date is to ensure the eventual success of our Master’s performance candidates. It is an opportunity for the entire committee to hear the program in time to address any concerns and recommend any changes needed. There are three options for the committee:

1. Recommend that the recital proceed on the date planned.
2. Recommend with changes or suggestions which are manageable within the time-frame allowed.
3. Re-schedule recital date to allow for time to accommodate the changes recommended by the committee.
