NEW STUDENT GUIDE
JANUARY 2018

Revised December, 2017

Please bring this guide with you when you attend the MANDATORY
New Student Orientation Sessions on January 3rd and 4th, 2018
WELCOME AND CONGRATULATIONS ON YOUR ACCEPTANCE INTO THE COLLEGE OF NURSING!

This package provides important information for your first year in the College of Nursing.

GETTING STARTED

Important information regarding courses, events and notices are regularly posted for students in the College of Nursing throughout the year. Check often for updates in the following locations:

- **UM Learn:** Check all course pages under *College Announcements*.
- **Website:** [www.umanitoba.ca/nursing](http://www.umanitoba.ca/nursing)
- **Email:** This is one of the primary forms of communication used in the College of Nursing. Students should use only their University of Manitoba email account to communicate (send & receive) with Course Leaders, Site Program Leaders, CEF’s, other members of the College of Nursing, and agencies in which students are placed for clinical experiences. *See the [Email Accounts and Communication Policy](http://www.umanitoba.ca/nursing) on the College of Nursing Website.*
- **Facebook:** [https://www.facebook.com/NursingatUofM](https://www.facebook.com/NursingatUofM)
- **Helen Glass Centre for Nursing:** Information may be posted in a number of bulletin boards, depending on the content. Check the bulletin boards across from room 260, across from the stairs in the atrium, and in the student lounge regularly for information that pertains to you.

This package of material is for new students to the College of Nursing and is not intended to be a full representation of all information. Please refer to the [2017-2018 University of Manitoba Academic Calendar](http://www.umanitoba.ca/calendar) on the University of Manitoba website, as well as the [Academic and Clinical Handbook](http://www.umanitoba.ca/nursing) posted on UM Learn. A copy of this handbook will be in your orientation package.

It is your responsibility to:

- familiarize yourselves each year with the University’s academic regulations and policies in general;
- familiarize yourselves with the *Academic and Clinical Handbook* posted in each course on UM Learn;
- familiarize yourselves with the regulations and policies applying specifically to your program;
- familiarize yourselves with the specific graduation requirements of the degree you are seeking; and
- ensure that the courses you have selected are appropriate for your program.

Student Advisors are available to answer any questions you may have in regards to your courses or program requirements. Please contact the reception desk at 204-474-7452 to make an appointment.

In the event of discrepancies between this document and the [2017-2018 University of Manitoba Academic Calendar](http://www.umanitoba.ca/calendar), information in the Academic Calendar shall prevail.

Friday, January 5, 2018 is the first day of classes in Winter Term 2018.

We wish you success with your studies in the College of Nursing!

STUDENT CHECKLIST

What should I do before January 3rd?

☐ Print this Guide. Review it prior to Orientation, including the information provided in the links, and bring it to Orientation.

☐ Familiarize yourself with the Student Resources available at the U of M. Review Appendix A for helpful information.

☐ Ensure you have claimed your ID and enter your UM email address in Aurora. Review the policy at http://umanitoba.ca/faculties/nursing/current/undergrad/policies/email_communication.html

What should I do on January 3rd & 4th?

☐ Attend New Student Orientation – This is MANDATORY!
  When: Registration begins at 0800 on January 3rd and 0830 on January 4th (refer to Appendix B - Agenda).
  Where: 290 Education Building (next to Helen Glass Centre for Nursing)
  Why: To obtain important information about the nursing program, including PHIA (The Personal Health Information Act) training which is a requirement. These mandatory sessions will provide you with information essential to your success in the Nursing program.

☐ Bring your student card to Orientation. Your card will be collected in the morning of January 3rd, encoded and returned to you near the end of the day.

☐ Purchase two uniforms. Student must wear scrubs for all clinical experiences (simulation labs and traditional clinical placements). A variety of scrub styles will be available for fitting and purchase at Orientation on January 4th. Cost: approx. $140-$170

What should I do after January 4th?

☐ Purchase two name tags and crests. Students are required to wear a name tag (first and last name) as identification for all clinical and lab courses, and some theory courses. The University of Manitoba crest must be sewn on the left arm of each uniform. Purchase two name tags and two crests at the Bookstore. Cost: $25

☐ Purchase a stethoscope. A stethoscope is required for first day of practice and can be purchased at the U of M Bookstore. Cost: approx. $105-$205

☐ Attend a “Skills Blitz” in Room 470 HGC on January 5th. Check your Orientation nametag to determine your section:
  • Sections A1, A2 & A4: 0900-1100
  • Sections A3 & B5: 1100-1300
  • Sections B6, B7 & B8: 1330-1530

☐ Select your preferred clinical sites for your first clinical course, NURS 2540 Nursing Practice 1. A letter explaining the process will be in your Orientation folder and on UM Learn.

☐ Access UM Learn sites for your courses.

NURS 0500: Preparation for Professional Practice:

☐ Complete the Preparation for Professional Practice certifications as per the NURS 0500 Winter 2018 Syllabus by February 23, 2018, and submit to Pat Pruden at pat.pruden@umanitoba.ca, 204-272-1602.

☐ Attend the classes scheduled for Manitoba eHealth log-in and Pyxis module training for your assigned group. Schedule details will be in the NURS 0500 Syllabus Winter 2018 and on NURS 0500 UM Learn. Attendance is mandatory.
INFORMATION SESSIONS

All students are required to complete the online Information Session prior to registration for courses. This session will clarify information in this handbook, as well as provide the following information:

- Registration information;
- College of Nursing policies that affect students’ progress in the program;
- Explanation of curriculum; and
- Sequencing of courses.

Students will be given access to the online Information Session in UM Learn. Students who do not complete the session by **November 15th, 2017** will be put on “hold” and prevented from registering until the session has been completed. A two-day processing time is required between completion of the session and removal of the “hold”, so students are advised to complete the session by the deadline in order to prevent difficulty with registration.

MANDATORY NEW STUDENT ORIENTATION

All students admitted to the College of Nursing are **required** to attend the mandatory New Student Orientation Sessions on **January 3rd & 4th**, at **290 Education Building (next to Helen Glass Centre for Nursing)**. These sessions are in addition to the online information sessions referred to above.

The Orientation is designed for newly admitted students to the College of Nursing to:

- Prepare for your first day of practice/classes;
- Receive essential information and preparation which are required prior to your first day of nursing;
- Meet faculty and staff in the College of Nursing;
- Learn what is expected of you;
- Ask questions to assist in your transition to the College of Nursing;
- Have your student cards encoded and sign up for lockers;
- Mix and mingle; and
- Connect with other students and the Nursing Student Association (NSA).

To ensure that you are apprised of any changes to the time and location of the Orientation sessions, please check our website: [www.umanitoba.ca/nursing](http://www.umanitoba.ca/nursing)

STUDENT’S RESPONSIBILITIES

The College wants your student experience here to be positive, fulfilling, and mutually respectful. Being a student at the College of Nursing involves having both rights and responsibilities.

Respectful Behavior and Community Principles

Nurses have a vital role in the promotion of health, safety and well-being of our patients and their families, and it is expected they will perform such roles in a professional and respectful manner with patients, families and colleagues. Therefore, professional and respectful behaviour is required and expected within all settings of the College of Nursing. The following policies reflect the importance of this requirement and should be reviewed carefully:

- [Policy on Respective Work and Learning Environment](http://www.umanitoba.ca/nursing)
- [College of Nursing Community Principles](http://www.umanitoba.ca/nursing)
UNIVERSITY OF MANITOBA POLICIES AND INFORMATION

Students are responsible for adhering to the Policies in the Calendar. Refer to the current University of Manitoba Academic Calendar for important deadlines and University policies and regulations. This document can be accessed at: http://crscalprod1.cc.umanitoba.ca/Catalog/ViewCatalog.aspx

Change of Address/Name - It is your responsibility to ensure your correct contact information is updated in Aurora Student. Change of Name must be reported to the Registrar’s Office, 400 University Centre, and to the College of Nursing.

Bursaries – Students wishing to apply for bursaries or other funding are encouraged to check the Financial Aid and Awards office website for information and bursary application.

Confirmation of Program – Students requiring confirmation of program letters for employment, car purchase, or other, would obtain such letters from the Registrar’s Office at 400 University Centre, phone: 204-474-9420.

Program Requirements - Students are advised to review the Academic Calendar carefully to ensure compliance with degree program requirements and program regulations. Students must ensure the correct courses are selected to satisfy all degree requirements. Final completion of degree requirements is the student’s responsibility.

COLLEGE OF NURSING POLICIES & PROCEDURES

Students are responsible for adhering to the Policies in the Calendar. College-specific information is provided here.

COLLEGE OF NURSING PROGRAM INFORMATION

Students admitted to the program must complete a minimum of three (3) credit hours of course work in the College of Nursing in the Fall Term or Winter Term of their admission year.

Students are expected to maintain contact with the program by registering in at least one Nursing course during each consecutive Fall Term and Winter Term while they are registered in the program.

General Curriculum Information – Refer to the program outline in the Academic Calendar for the list of required courses: http://crscalprod1.cc.umanitoba.ca/Catalog/ViewCatalog.aspx

Advanced Standing – A Nursing Student Advisor will send you an Academic Summary sheet, indicating the courses that will be transferred into the College of Nursing for credit. If an Academic Summary sheet is not included with this package, it will be emailed to you under separate cover. If you have any questions, contact a Nursing Student Advisor or obtain a blank form at: http://umanitoba.ca/faculties/nursing/current/undergrad/media/AcademicSummary_RevisedCurriculum.pdf

Information for LPNs – If you graduated from the Practical Nursing Program at Assiniboine Community College or the Diploma in Practical Nursing Program at the University College of the North, you must make an appointment to meet with a Nursing Student Advisor no later than November 15th, 2017 to discuss advance standing.

LPNs may be required to demonstrate their skills and will be required to successfully complete the calculation test at the beginning of the term before receiving advanced standing in NURS 2530 Nursing Skills I (1).

Prerequisites – All courses from one term are prerequisite to courses in a subsequent term.
Voluntary Withdrawal – Students are allowed only one voluntary withdrawal per nursing course in the College of Nursing. A student who withdraws a second time will be re-registered and will be responsible for the content of any missed classes and for completing all assignments in the course.

Withdrawing from a course during the Registration Revision period is not counted as a voluntary withdrawal. It is only those courses for which a ‘VW’ code appears on the Student History that are considered voluntary withdrawals.

Some courses are pre-requisite or co-requisite to other courses. When students withdraw from the pre/co-requisite course, it is their responsibility to withdraw from the course for which they no longer meet the prerequisite. Failure to do so will result in their removal when it is discovered.

If you are considering withdrawing from a course, please discuss this with a Nursing Student Advisor or the Nursing Registrar as this might significantly impact your program. Immediately inform the Nursing Course Leader, the Clinical Education Facilitator (CEF), and/or the Site Program Leader (if it is a clinical course) when you withdraw. It is the student’s responsibility to withdraw from any course(s) for which they have received a failure in the prerequisite course(s) in a preceding term.

Grades – You must obtain a minimum grade of “C” in each course in the program. In the College of Nursing, a final grade of “D” in any course taken to complete the degree requirement is considered a failure and is not accepted by the College.

Failed Courses – Although Aurora Student may indicate “minimum met” for a grade of “D”, it is a failure in the College of Nursing and must be repeated or replaced. If you fail a required course (receive less than a grade of “C”), you must repeat it. Upon successful completion of the subsequent course, the most recent of the two grades will count in your GPA. Withdrawal from the program will be required following a second failure in the same nursing (NURS XXX0) course or a grade of “Fail” in any two nursing clinical courses. Students who are required to withdraw are ineligible for re-admission to the College of Nursing. If you fail an elective course, you may repeat or replace the course.

Inter-Faculty Option in Aging - Choosing the Option in Aging gives you the opportunity to expand your area of study into six faculties and gain special expertise in age-related fields. See Nursing Sections of the Academic Calendar & Catalog for more details and the website at: http://umanitoba.ca/faculties/nursing/current/undergrad/all/option_aging.html Consult a Nursing Student Advisor as you complete each Option in Aging course to ensure you meet the requirements of the option.

Bison Athletes – If you are a Bison athlete, please make an appointment with the Nursing Registrar as soon as you are admitted to discuss schedule options. It is your responsibility to contact the course leader (Theory, Clinical and Skills Lab courses) to inform them of your schedule so reasonable accommodations can be made.

Concept-Based Curriculum

The Bachelor of Nursing Program introduced a concept-based curriculum in September 2015. A concept is an organizing idea that includes a variety of examples that share common attributes. The focus is on learning to make connections between ideas. Courses fall into four themes: Health & Illness, Client & Context, Professional Foundations, and Skills & Practice.

Year Two courses provide foundational knowledge of pathophysiology, pharmacology and health assessment. Students also study growth and development, caring for the older client, and explore the concepts of human diversity and professional identity. Clinical practice focuses on personal care homes and long term care. Students will also participate in the Simulation Laboratory.

Year Three courses build on the previous year, exploring acute and chronic illness, mental health and palliative and supportive care. The focus is on learning to think like a nurse, incorporating knowledge of health education,
evidence informed practice and law and ethics. Clinical practice takes place in acute care settings, as well as the Simulation Laboratory.

Year Four courses challenge the student to apply previous knowledge to family nursing, reproductive care, and population and community health. Clinical practice enables students to build on knowledge from year two and three, as well as explore community and family nursing. The program culminates in a three month senior practicum, where students are mentored by a Registered Nurse in the practice setting.

Further details regarding the program can be accessed at: http://crscalprod1.cc.umanitoba.ca/Catalog/ViewCatalog.aspx?pageid=viewcatalog&catalogid=300&chapterid=3657&loaduseredits=False

**Learning-Centred Philosophy**

The Bachelor of Nursing program has a learning-centred philosophy. This philosophy assumes that each learner brings different levels of knowledge to the learning experience. Learners take responsibility for their learning and actively develop new attitudes, knowledge and skills that support their progression to entry-level practice.

The learning-centred philosophy means that faculty members facilitate learning, rather than telling students what to memorize for the test. Students are expected to prepare for each class using the class preparation instructions provided by the course leader. Students who don’t prepare will find it difficult to keep up with the pace of learning and put themselves at academic risk. A part of each class will consist of learning activities, with a smaller portion being traditional lecture. Evaluation consists of tests and a variety of assignments.

**REGISTRATION INFORMATION**

Students will be assigned to a cohort and a corresponding timetable. For more detailed registration hints, see Appendix C. Students must register for courses using Aurora Student. If you have any questions, we will assist you. However, you must read the registration information and instructions provided to you.

Consult the Academic Calendar and Aurora Student to ensure that you are aware of the relevant dates for registration, withdrawal, etc. It is your responsibility to know the dates!

Due to publication submission deadlines, information on the time, location, and availability of courses may become updated prior to registration. For current course registration and scheduling information, students should consult the Aurora Student class schedule.

**Time Tickets** – Registration Time Tickets are based on GPA. If your access time is incorrect, contact a Nursing Student Advisor or the Nursing Registrar in the College of Nursing.

**Registration for subsequent years** – Registration in 3rd and 4th year courses is normally held in late June. Check the website and the bulletin board (across from room 260 Helen Glass) in the spring for details.

**Clinical Course Registration Information**

**Last Date to add Clinical Courses (Winter Intake 2018) – December 8th, 2017**

Clinical placements for students are arranged in advance; therefore, students planning to take clinical practice courses must register for these courses by December 8th, 2017. Failure to do so may result in your being unable to register for courses because they are full. The College of Nursing provides clinical experiences in a variety of settings, including hospitals, community agencies and nursing homes. Clinical practice time is not only mandatory, but is valuable to your nursing education. It is an expectation that you are prepared to care for patients safely.
You must keep clinical days available (i.e. do not schedule other classes or personal appointments on these days). The clinical practice time has been arranged for you and, as a nursing student, you must meet the minimum number of hours in practice as required by the College of Registered Nurses of Manitoba (1,450 hours in total).

Please refer to the Course Syllabus and the Academic and Clinical Handbook for theory and clinical practice guidelines, expectations, assignments and evaluation methods. This can be found on UM Learn.

**NURS 2540 Nursing Practice 1**

**Mandatory Clinical Orientation Session for all Year Two students:**
- **WHEN:** January 22, 2018
- **WHERE:** TBA
- **TIME:** 1430 – 1620

**Clinical Start Dates for Winter Term 2018:**
- NURS 2540 Nursing Practice 1 (A02) – Feb 27/28 to Apr 3/4 (Tue/Wed x 6 weeks)
- NURS 2540 Nursing Practice 1 (A01) – Mar 1/2 to Apr 5/6 (Thu/Fri x 6 weeks)

**WORKING AS A HEALTH CARE AIDE**

Once you have completed ALL of the courses in Year Two, you are qualified to work as a Health Care Aide in hospitals within the WRHA (Winnipeg Regional Health Authority). For more information regarding this program, visit [http://www.wrha.mb.ca/professionals/nursing/students.php](http://www.wrha.mb.ca/professionals/nursing/students.php).

**COSTS ASSOCIATED WITH BACHELOR OF NURSING PROGRAM**

These costs are in addition to course registration fees. These costs are estimates only and may change without notice.

### UNIFORMS

On Day 2 (January 4th) of the New Student Orientation, the Nursing Students’ Association (“NSA”) will be providing students with a uniform fitting through UNIMOR. (Refer to Appendix G for more details.) Uniforms must be **navy blue**, with white shoes and white socks. Sweaters, or long-sleeved under shirts are also permitted, and must be navy blue or white. These can be purchased anywhere you choose. We suggest that each student purchase a minimum of two tops and two pants as they must be clean at the start of each clinical day. More information about the Uniform/Dress Code Policy can be found at: [http://umanitoba.ca/faculties/nursing/current/undergrad/policies/uniform.html](http://umanitoba.ca/faculties/nursing/current/undergrad/policies/uniform.html)

**Students will receive a one-time 15% discount on their FIRST purchase from UNIMORE.** This discount will be applied either at the fitting/purchase in the school or at the student’s fitting/purchase at UNIMOR. During the remainder of the program, students will receive a 5% discount on any regular priced item when they show their student card.

UNIMOR Healthwear & Homecare Products
101 - 96 Sherbrook Street

APPENDIX A – con’t

Student Concern Process

Communication Pathway

Student with a Clinical Practice Course Concern in the Undergraduate Programs

1. The general guideline is to discuss the issue and seek a resolution with the individual closest to the situation/issue.

2. At any time, students may discuss the issue with and/or seek advice from a College of Nursing, Student Advisor (204-474-7452) or Student Advocacy (204-474-7423).

Student with a Theory Course Concern in the Undergraduate Programs

1. The general guideline is to discuss the issue and seek a resolution with the individual closest to the situation/issue.

2. At any time, students may discuss the issue with and/or seek advice from a College of Nursing, Student Advisor (204-474-7452) or Student Advocacy (204-474-7423).

### UNIVERSITY OF MANITOBA

#### Student Resources

**Student Accessibility Services**
520 University Centre  
Phone: (204) 474-6213  
Email: student_accessibility@umanitoba.ca  
http://umanitoba.ca/student/saa/accessibility/

*Support and advocacy provided for students with various disabilities: hearing, learning, injury related, mental health, medical, physical or visual. Students with temporary disabilities such as sprains and breaks are also eligible to use these services.*

**Student Advocacy & Resource Centre**
Room 519, University Centre  
Phone: (204) 474-7423  
Email: brandy.usick@ad.umanitoba.ca  
http://umanitoba.ca/student/resource/

*Assists individual students who have been referred to Student Advocacy regarding all student related matters, including providing information on policies/rules, seeking out information regarding the process, obtaining documentation, setting up and attending meetings with students, all forms of communications, assisting with formal appeals, representing students at the appeal hearings.*

**English Language Centre**
520 University Centre  
Phone: (204)-474-9251  
Email: umanitoba.ca/elc  
Web: http://umanitoba.ca/student/elc/

**International Centre for Students**
541 University Centre  
(204) 474-8501  
Email: ics@cc.umanitoba.ca  
Web: http://umanitoba.ca/student/ics/

**Academic Learning Centre**
Room 201, Tier Building  
Phone: (204) 480-1481  
Email: academic_learning@umanitoba.ca  
Web: http://umanitoba.ca/student/academiclearning/

**Financial Aid and Awards Office**
Room 422, University Centre  
Phone: (204) 474-9531  
Email: awards@umanitoba.ca  
Web: http://umanitoba.ca/student/fin_awards/  
*Information and applications re Canada Student Loans, bursaries, awards, & scholarship information.*

**Registrar’s Office**
Room 400, University Centre  
Phone: (204) 474-9420 or Toll free: 1-877-474-9420  
Web: http://umanitoba.ca/student/records/  
*ID cards, General Calendar, holds due to fees, fee assessment.*

**Student Counselling & Career Centre**
Room 474, University Centre  
Phone: (204) 474-8592  
Web: http://umanitoba.ca/student/counselling/

*Personal counselling and career counselling provided. Refer to page 11.*

Tours & Booths in the Atrium |
| 1230 – 1500 | Uniform fittings – 470 Helen Glass Centre                                |
APPENDIX C
Registration Hints for New Nursing Students

- **As soon as it is available**, students will be sent registration information.
- Students will be assigned to one of eight cohorts. **Students will only be able to register in courses within their assigned cohort as a spot has been reserved for you in the assigned cohort.**
- Registration, timetable layouts, and cohort information will be emailed to your U of M email address, **NOT your personal email address**, prior to the initial registration period. These will allow you to visualize how the courses are scheduled.
- As there are often last minute timetable changes, **ALWAYS check Aurora Student for possible updates.** The schedule in Aurora Student is final.

What to expect in your first term:

1. **NURS 0500 Preparation for Professional Practice.** This is a prerequisite for clinical settings and must be completed prior to beginning NURS 2540 Nursing Practice 1. There are six components to this course. Some components are completed during Orientation, some are online, and some are done in workshops, or a combination of those methods. You will receive more information at Orientation and by email:
   - PHIA (Personal Health Information Act);
   - WHMIS (Workplace Hazardous Materials Information System);
   - NVCI (Non-Violent Crisis Intervention);
   - WRHA (Winnipeg Regional Health Authority);
   - PYXIS ES (Medication Administration-Med Station); and
   - EPR (Electronic Patient Record) – completed in Year 3.

2. **NURS 2500 Health and Illness 1: Pathophysiology/Pharmacology/Assessment** is a 3 hour lecture, as well as a small group (B01, B02, etc.) that must be registered in one transaction.

3. **NURS 2510 Client and Context 1: Human Growth and Development** is a 2 hour class, once weekly, for 12 weeks.

4. **NURS 2512 Health and Illness 2: The Older Client** is a 2 hour lecture, twice a week, for 6 weeks.

5. **NURS 2530 Nursing Skills 1** is a 2 hour practice lab once a week. This course also has an additional Skills Blitz on January 5th. Students will get further details at Orientation.

6. **NURS 2540 Nursing Practice 1** is held over 2 consecutive days:
   - Thursday/Friday if in Group A; and
   - Tuesday/Wednesday if in Group B.

   Although clinical is normally limited to 8-12 hours each day, students are expected to keep the entire day/evening available for clinical in the event that clinical must be scheduled over a longer period of time. **Aurora Student** will not permit registration in ANY courses on the evening of clinical days.

7. **You must register for your clinical course, NURS 2540 Nursing Practice 1, by December 8th, 2017.** Please note that it is imperative that you pay your student fees and register for all of your courses on time. Failure to do so may result in not being able to secure space in the clinical course. Should you encounter difficulty registering for all of your courses, contact the Nursing Registrar by email at Stephanie.Kozar@umanitoba.ca. This will also apply in subsequent years. Note that summer registration in subsequent years must be completed by August 8th.
APPENDIX D

Tips for Students: From Faculty/Professors

Welcome to the College of Nursing. We have compiled a number of tips and suggestions for New/2nd year students to assist you as you transition into the College of Nursing.

1. Ensure that you understand what the Course Leader/Professor requires for course assignments. The syllabus is considered a “contract” and it is important for you to review all of the information in each course syllabus. Your Course Leader will provide their contact information.

2. Your Course Leaders/Professors care about your progress. If you are going through a difficult time in your life (e.g. depression, anxiety, family member dying, sick children, divorce) please talk to your Course Leaders and/or a Nursing Student Advisor about the concerns you have. They will also direct you to supports that are available in the College as well as within the University of Manitoba.

3. Practice basic math skills, without using a calculator, especially with decimal points and fractions.

4. Remember that for each hour of class time, you are required to study at least 2 hours. Study with a “buddy” or create small study groups. This will not only help you get through all the material, but will bring you closer to your fellow students.

5. Clinical practice (e.g., hospitals, agencies, nursing homes) requires students to be knowledgeable about their patients and AWAKE while providing patient care. Make sure you get a good night’s sleep and have breakfast before nursing practice. Do not chew gum.

6. Students must develop and demonstrate an understanding of the significance of the concept of “Fitness to Practice” in the context of self-regulation and public protection. Fitness to Practice is defined by the College of Registered Nurses, as: All the qualities and capabilities of an individual relevant to his or her capacity to practice as a registered nurse, including, but not limited to, freedom from any cognitive, physical, psychological or emotional condition, or a dependence on alcohol or drugs, that impairs his or her ability to practice nursing (CRNBC, 2006).

7. Everyone coming to the College of Nursing is an adult. We will not be able to discuss your program with your parents or family.

8. Please come dressed appropriately to class. Plan your schedule appropriately so you are in class when it begins. It is disruptive to everyone in the class when students walk in late or leave early. Contact your Course Leaders and let them know if you will be arriving late or missing class. Leaving the classroom early or arriving late lessens the learning experience for everyone. Remember, attendance in class, skills labs and clinical practice is MANDATORY.

9. Please turn off your cell phones during class and clinical practice. You can check your messages during your break or lunch time.

10. Your textbooks are valuable learning tools. However, you will also learn a lot during class. The interaction and discussion in class is important to your learning; therefore, it is imperative that you come to class prepared and ready to participate and be engaged.

11. Please remember that your nursing courses build on previous learning. The knowledge you have acquired from courses you completed in University I (e.g., Anatomy and Physiology, Microbiology, electives) are important building blocks to the information in second, third and fourth year nursing courses.

12. The College of Nursing’s virtual “Student Suggestion Box” welcomes our students’ constructive suggestions and ideas for improvement. If you wish to send your suggestions and ideas, please visit: http://umanitoba.ca/faculties/nursing/current/suggestion_box.html

13. The College of Nursing has a Facebook page with information, updates and upcoming events that you can find at the following link: https://www.facebook.com/NursingatUofM
APPENDIX E
Tips for Students: From 4th Year Students

1. You will need to purchase **comfortable and workable navy blue scrubs** for all your clinical experiences. A variety of the navy blue scrub styles chosen by the College of Nursing will be available for purchase at Unimor (Unimor offers students making their first purchase a 15% off discount – they are located at 96 Sherbrook Street by the Misericordia Hospital). Sweaters, or long-sleeve under shirts are also permitted, and must be navy blue or white - these can be purchased at any location that you choose. We recommend beginning with a minimum of two sets (two tops, and two pants) and this 15% off is a one-time-only deal so it is best to make use of it now! Shoes must be all white with non-marking soles and comfortable to wear.

2. **Check your email every day.** Your Instructors, Profs, Registrar, CEF, and NSA class rep will send you many important emails. These emails are almost always time sensitive. On the same note, stay up to date with your UM Learn account as some professors will use these programs to communicate information regarding class, assignments and exams with you. Additionally, you will usually be able to find your syllabus and class notes using one of these programs before your first class.

3. It is tempting to sell your textbooks ASAP, but you will find **yourself referring back to your older textbooks throughout your nursing education.** Another thing to keep in mind is that the library usually has a copy or two of books available, which you may borrow or refer to. So, if you think you’ll only need to use a textbook for an essay, for instance, perhaps you should consider sharing a textbook with someone else from your cohort or borrowing it from the library. On the same note – keep the cue/recipe drug cards that you make for clinical and skills lab as they will come in handy again!

4. **You may borrow instruments and assessment equipment from the College of Nursing’s reception desk** to take home to practice with or to use for clinical. Blood pressure cuffs, otoscopes, and many more things are available. Keep the date you need to return the equipment by in mind, otherwise, you will find yourself with a fine.

5. You might feel scared coming into the College of Nursing, but **remember that everyone is going through the same experience.** You will get used to the heavy course load. Creating study groups with your peers in your cohort will help you get through the material and to build friendships.

6. You’re well aware that **you should start studying for your courses as soon as possible.** Exams like the skills peer reviews can creep up on you, so make sure you’re fully using the time available to you in lab. Also, remember that most of your courses are more than 3 credit hours, unlike your prerequisite courses. Some courses will be 6 credit hours in your 3 month semester - that means you’re learning twice as much information in one semester as you would in a normal (3 credit hour) class. Study accordingly and do not wait until the last minute.

7. **Always remember why you wanted to be a nurse.** Remember why you wanted to be a nurse if you ever find yourself with a disappointing test mark, when you feel frustrated with the whole process, and when you are caring for your patients. Consider writing down all of these reasons so you can have a copy to look back to.

8. **Cultivate a strong support group.** Become friends with fellow students (especially in your cohort) and get involved in student activities (e.g., the Nursing Students Association)! This may feel like too much to take on at first, but the support from friends and the student council will help you get through the program. On the same topic - invest in your friends and family. They comfort you through the rough times and help you celebrate the good times and your achievements.

By: Nicole Buchhold and Karina Berezanska
APPENDIX F

Tips for Students: From 3rd Year Students

1. Don’t worry about A+’s! We know how hard you have worked to get into this faculty, but you can take a step back, relax, and take in every minute of this fantastic journey!

2. Do not let yourselves become too overwhelmed by the amount of content being taught. The material is presented in a very "fast and hard" format for some classes, but it IS manageable. Take it one day at a time, and ask LOTS of questions.

3. Go to class prepared! i.e. Do your readings and your self-learning objectives as best as you can before going to class. This will allow you to follow better and truly take advantage of your lectures. Your professors are BRILLIANT people. Soak up as much as you can from them!

4. Make lots of friends! You can combine and conquer the workload together – giving you more time to study later on.

5. Make a Facebook group with your cohort and share study guides!

6. Exams are VERY different! Different from your exams in University 1 and very different from each course in the College of Nursing. Just remember to read the syllabus and study those objectives!

7. If you can avoid it, don't work. You need as much time to study as you can manage. Yes, that might mean that you are penny pinching for the next little bit…but try and think about how much money you will make in 3 years when you have your degree. It's not worth it to fall behind.

8. Use study time between classes effectively. Find your favourite study space and use this time to catch up on your readings or get ahead of the work in class. Sometimes spares also work for getting together with your friends and doing some review on the course material.

9. Make a checklist of things you need to accomplish per week, and specifically per day. However, set realistic and attainable goals.

By: Stephanie Hilmerich and Sheena Nieto
APPENDIX G
Nursing Students' Association

2017-2018 Executive Council:

**Senior Stick/President:**
Stephanie Hilmerich
Email: hilmeris@myumanitoba.ca
Phone: (204)880-6977

**Vice Stick/Vice President:**
Ashlyn Cortvriendt
Email: cortvria@myumanitoba.ca

**Secretary:**
Taylor McKenty
Email: mckentyt@myumanitoba.ca

**Treasurer:**
Rachel Mangiacotti
Email: mangiacr@myumanitoba.ca

**UMSU Rep:**
Megan Bredin
Email: bredinm4@myumanitoba.ca

*Full list of NSA members available on NSA Facebook page.

---

**How to contact NSA:**
- **In person:** 222 Helen Glass Centre for Nursing
- **Email:** Contact any of our NSA Members via email
- **Facebook:** UManitoba Nursing Students’ Association
- **Instagram:** UManitobaNSA

**What NSA does for you:**
The Nursing Students’ Association would like to congratulate you on your acceptance into the College of Nursing! Our purpose is to make sure that your student voice is heard. Our council meets monthly, typically on the first Monday of every month. Getting involved with NSA is a great way to meet other College of Nursing students and faculty members. It is also a great way to sharpen your leadership, team work and professional development skills, and is a great thing to have on your resume! Involvement on the Nursing Students’ Association is added to your co-curricular record too!
NSA throws several social events throughout the year. This gives students the opportunity to mingle about something other than their clinical rotations! Please check our website often as upcoming social and ticket sale dates. Class/Cohort Reps will also give monthly announcements to their respective classes/cohorts regarding upcoming NSA events.

**Student Spaces:**
There are two student lounges located in Helen Glass. One is located in Room 130 in the basement. This student lounge includes couches, microwaves and lockers. These lockers will be available for purchase on the first day of classes in September, 2017. Lockers cost $30 to be used from September 2017 until August 2018. Lockers must be emptied by August 1st, 2018. Please check our social media pages, as locker sale dates will be posted sometime soon. Our new, second student lounge is located in 202 Helen Glass beside the reception desk on our main floor. This lounge has plenty of tables for group work, couches, a microwave, a private bathroom and soon a toaster.

There is a quiet study area that is accessible to students in room 230 in the hallway near the parkade entrance. It offers students study carrels, a sitting area and plenty of outlets for laptops.

Students will need an encoded student card to access all of these spaces. Remember, these spaces are shared by everyone in the College of Nursing, so please be respectful and keep them tidy!

**University of Manitoba Students Union (UMSU):**
Check out www.umsu.ca to keep up to date with what is going on with UMSU. Tanjit Nagra is our current UMSU President for the 2017-2018 year. You can download health and dental forms from this website. You can also find information on how to get your taxes done for free.

**The PULSE:**
This newsletter is created by students, for students. It is a great way to keep informed of current developments within the College of Nursing and health care field. There will be a new edition sent to your email every month. We welcome students to contribute articles! If you would like something published, please contact www.facebook.com/umanitobaNSA, and we will point you in the right direction. Remember to keep it professional. We want your voices heard!

**Computer Lab:**
Your encoded student card will allow you access to the computer labs in the Helen Glass Building (located on the third floor). Print credits are no longer available at the reception desk. Please go to the Copy Centre in University Centre to purchase print credits and print documents. Please be advised that eating and/or drinking in the computer lab are strictly prohibited.

**Card Encoding:**
Faculty/Staff members - Carol Enns and Andrea Friesen - will be collecting student cards during Orientation to have them encoded for you! Make sure to give them a big “thank-you” as you drop off your student card to them! Your card must be encoded in order to have access to student lounges, the quiet study area and computer lab.

**College of Nursing:**
Check out the College of Nursing website at www.umanitoba.ca/nursing. This includes information on faculty, different programs offered, announcement and course/curriculum updates. Skills Lab Videos are also accessible from this website. Here is a quick link: http://umanitoba.ca/faculties/nursing/current/undergrad/4year/course_management.html

**Uniform Guidelines:**
Clinical practice uniforms consist of navy blue scrubs with the UofM crest sewn on the left sleeve, clean solid white shoes (free of logos or any other colour), nametag and a stethoscope. Thanks to former students who changed the colours of the scrubs from white to navy blue.
A variety of the navy blue scrub styles chosen by the College of Nursing will be available for purchase at Unimor (Unimor offers students making their first purchase a 15% off discount – they are located at 96 Sherbrook Street by the Misericordia Health Centre). Be prepared to be fitted, and purchase the specified scrubs following the second day of orientation – please come with cash, cheque, or credit card (All scrubs must be paid at the time of the fitting/prior to Unimor placing the order). Sign-up sheets for 10 minutes time slots will be available to reserve your time during both days of orientation. Students are expected to come to the times that they sign up for. Please be prepared to come early as we may have some students fitted quickly. Unimor or NSA will contact each student when the order is received; NSA will provide you with a time to pick up your scrubs from the NSA office at 222 Helen Glass. More information regarding scrub styles, and pricing will be available prior to. Uniform prices range from $35 to $42 dollars per piece.

Sweaters, or long-sleeve under shirts may also permitted, and must be navy blue or white - these can be purchased at any location that you choose. You may wish to purchase more than one set of scrubs, as they must be clean at the start of each clinical day. We recommend beginning with two sets (two tops, and two pants) to ensure you have clean scrubs for both clinical days each week. Tattoos must be covered during clinical at all times. Jewelry and piercings must be limited to one simple stud earring per ear, a single nose stud, and a simple wedding band. Hoop earrings or nose rings are not permitted.

**Crests and Name Tag**
Crests and nametags will be made available for purchase at the University of Manitoba Bookstores (located in University Centre). Please purchase early as the name tags may take a few weeks to come in.

**CPR**
College of Nursing students must re-certify their CPR every year. NSA provides re-certification courses between the months of April and May. More information will be sent closer to those dates.

**Best of luck throughout your studies in the College of Nursing! We are looking forward to meeting you!**
The Nursing Students’ Association is here for you! Contact us if you have any questions, or pop by the office to see us.
