

Manitoba Materials Conference 2014

May 6, 2014 Engineering & Information Technology Complex Atrium

MMC 2014 is an annual event highlighting research in fields related to Materials Science and Technology. It is an important opportunity for members of the community to learn about current research. The day will include research presentations by Winpak Ltd., Iman Yahyaie (Mitacs), and Dr. Michael Freund (Professor of Chemistry at the University of Manitoba, Tier 1 CRC in Conducting Polymers and Electronic Materials) and a student poster competition with cash awards.

Please fill out the information below indicating your participation in the event. If you indicate appropriately, a boxed lunch will be provided. If you are able to stay later in the day, our networking mixer is an excellent time to interact with other participants while enjoying provided beverages and appetizers. In order to help us prepare, we would appreciate it if you could fill out, save, and return this registration form as an e-mail attachment. If you have filled out an abstract form, please also fill out this registration form.

We hope that you will be able to attend and look forward to your participation. Please fill out the PDF and submit within the form or email the form to the address below. Further details may be found at www.materials.umanitoba.ca.

During this event a photographer will be onsite to document the event and provide the students with images of them with their poster.
