

EdGEO 2013

Rocks, Minerals & the Earth's Crust

Experience activities from **EdGEO**, a nationally acclaimed Earth Science Teacher Workshop Program, coordinated by the **Canadian Geoscience Education Network** (CGEN) of the **Canadian Federation of Earth Sciences** (CFES).

Professional Development for **Grade 4 and 7 Teachers**

The **EdGEO** program is designed to help grades four and seven teachers meet the specific learning outcomes of the Manitoba science curriculum. Whether you're a beginning, novice or experienced teacher, this workshop offers relevant and accurate Earth science resources and "hands-on" activities, ideas and approaches to Earth science education. Teachers will receive a resource package that can be used to deliver workshop activities in their classroom.

Friday, May 24th
Winnipeg Convention Centre

Workshop Team:

- Janice Williams, Mining Matters, Toronto
- John Danko, Argyle School, Winnipeg
- Erica Williams, Riverside Secondary School, Port Coquitlam, B.C.
- Lesley Hymers, Ontario Mining Association
- John Murray, Manitoba Innovation, Energy and Mines
- Godfrey Nowlan, Geological Survey of Canada, Calgary
- Beth Halfkenny, Carleton University
- Charly Bank, University of Toronto

Teacher Resources:

- Teachers receive
- mineral and rock samples and identification kits!
 - Earth science charts, posters and publications!
 - manual of activities!
 - and much more!
