E-HEALTH SOLUTIONS
Description, analysis and critique of five mobile health apps for rehabilitation sciences professionals

MAY 22, 2019 · 12:00 - 1:00PM
Apotex Centre, Room 264 · 750 McDermot Ave. · Bannatyne Campus

Speaker: KATIE DYCK
Katie Dyck is a physiotherapy graduate from the University of Manitoba with over 16 years of experience in private practice. In 2009 she started using an electronic medical record (EMR) in her practice and immediately saw the benefits of using digital health tools to improve efficiency, quality of care and patient outcomes. Dyck currently works in the Primary Care Information Systems Office at Digital Health, Shared Health. The long term goal of her work is to better enable physiotherapists in Manitoba to adopt, implement and optimize use of digital health in clinical practice to enhance patient care and support advocacy for physiotherapy services.
