The Department of Physical Therapy requires all students to complete an Adult Abuse Registry Check on admission to the program. Completing an Adult Abuse Registry Check is more complicated than completing the Criminal Record Check. Some provinces (e.g. Ontario) will not conduct an Adult Abuse Registry / Vulnerable Persons Check unless a Criminal Record Check raises concerns, while other provinces will only permit an Adult Abuse Registry check to be completed if the student is attending a university in that province. As a result of this variation, students are requested to complete their Adult Abuse Registry Check in Manitoba through Adult and Family Services.

The College of Rehabilitation Sciences is authorized to facilitate the Adult Abuse Registry application for students within the College.

Students will receive the application via email by the end of June 2020. Students must complete the 3-page application form and return to PTclined@umanitoba.ca by July 31, 2020. There will be no charge for the Adult Abuse Registry Check if the College submits the application on your behalf.

Please note that two (2) pieces of government issued identification are required and must be recorded on the application. You must submit scanned copies of the identification used on the Adult Abuse Registry Check application to PTclined@umanitoba.ca to be verified by the coordinator. Acceptable forms of identification include:

- Social Insurance Card
- Band and Status Number
- Passport or Birth Certificate
- Manitoba Health Card
- Driver’s License

If applications and scanned copies of the identification used on your application are not submitted by July 31, 2020, you may be asked to order your registry check directly through Adult and Family Services at your own expense (approx. $20) and the documentation may not arrive in advance of fieldwork.

The registry check will be on file in the office of the Administrative Coordinator. If required, the program will share the documentation with fieldwork sites.

**Note that students MUST be able to present this document at all clinical placement sites they attend while in the program. Students will be required to repeat this process at least once per year while in the program. Some clinical sites require these documents to be less than six months old at the start of the placement, so students may need to complete the application twice in same academic year.**
