A DAY IN THE LIFE OF A CLINICAL SCIENTIST

TUESDAY, MARCH 20, 2018 | 12:00 - 1:00PM

Frederic Gaspard Theatre · Basic Medical Science Building · Bannatyne Campus

Presenters: Dr. Kristy Wittmeier & Dr. Richard Keijzer, Children’s Hospital Research Institute of Manitoba (CHRIM)

Dr. Kristy Wittmeier
Assistant Professor,
Department of Pediatrics and Child Health,
University of Manitoba

Dr. Richard Keijzer
Associate Professor,
Departments of Surgery, Pediatrics & Child Health and Physiology,
University of Manitoba

The role of the clinician is well understood, as is the role of the researcher. But what about the role of a clinician scientist? Join us to hear how clinical and research roles have been combined in pediatric surgery and rehabilitation, and to learn about funding and mentorship opportunities available to support the next generation of pediatric clinician scientists.
