

The University of Manitoba presents

# CAFÉ SCIENTIFIQUE 2014-15

Want to get the latest in health-related research—right from the experts? Café Scientifique brings together leading U of M researchers with the general public to chat about findings in a relaxed atmosphere. Come and join the discussion!

## KEEPING YOUR HEAD IN THE GAME: HOW CONCUSSIONS AFFECT THE BRAIN

**March 18, 2015 - 7 p.m.**

McNally Robinson Booksellers, 1120 Grant Avenue, Winnipeg

To assist in planning seating RSVP to:  
[Research\\_Communications@umanitoba.ca](mailto:Research_Communications@umanitoba.ca) or 204-474-6689

The management and long-term consequences of concussions has become a major issue in professional sports. The number of concussions in amateur sports is also on the rise, particularly among children. This raises serious concerns for players, coaches, and parents. Join our expert panel to learn how concussions affect the brain, the risks posed by these injuries, and the latest research aimed at preventing and treating them.

### MODERATOR

**Dr. Benedict Albeni**

*Associate Professor, Pharmacology & Therapeutics, College of Medicine, Faculty of Health Sciences; Principal Investigator, Division of Neurodegenerative Disorders, St-Boniface Hospital Research*
