Tri-Agency Financial Administration Initiative / L’initiative Renouvèlement de l’administration financière des trois organismes

Tri-Agency Financial Administration Initiative

Context

In 2017, the Tri-Agency launched an initiative to streamline and simplify the administration and use of grant funds to:

• Increase trust in the grant recipients and administering institutions;

• Support harmonization efforts within the Tri-Agencies, as highlighted in Canada’s Fundamental Science Review Report, 2017.

This work is in response to feedback received from stakeholders regarding the inefficiencies and unnecessary burden imposed by the Tri-Agency Financial Administration Guide’s (TAFAG) policies and guidelines.
Tri-Agency Financial Administration Initiative

Objectives

• Move to a more client-centric, flexible approach for the administration and use of grant funds;
• Renew the Tri-Agency approach to financial monitoring reviews in partnership with the administering institutions; and
• Reduce burden and increase efficiencies of post-award administration (grant recipients & administering institutions).

What does this mean for me?

• Researchers can continue with your existing grants.
• A grace period will be in place to allow administering institutions time to update their policies and procedures, as needed.
• Support material will be available to support stakeholders when the Guide goes live;
