The Office of Research Services will be hosting two upcoming NSERC presentations on Friday, March 11th with Eileen Jessop, Portfolio Manager, Research Partnerships, NSERC (Ottawa)***.

1) COLLABORATIVE HEALTH RESEARCH PROJECT PROGRAM (CHRP)

9:00 am - 11:00 am
E3-262 EITC (Senate Chamber), Fort Garry Campus

Presenters:
Eileen Jessop, Portfolio Manager, Research Partnerships
Dr. Nick Pizzi, Faculty of Science and recent CHRP Selection Panel member, and
Dr. Kan-Zhi Liu, Faculty of Medicine and successful CHRP grant holder

CHRP is jointly funded by NSERC and CIHR and supports focused collaborative research project.

This presentation and the question and answer session will provide essential background on this program and important new updates on program changes for all applicants and others thinking about applying to this program in future.

2) COLLABORATIVE RESEARCH AND DEVELOPMENT (CRD) GRANTS AND INDUSTRIAL RESEARCH CHAIRS (IRC) PROGRAM

1:30 pm - 3:30 pm
E3-262 EITC (Senate Chamber), Fort Garry Campus

Presenters:
Eileen Jessop, Portfolio Manager, Research Partnerships
Dr. Peter Rasmussen, Faculty of Engineering, member of NSERC Advisory Committee on University-Industry Grants, and
Andrea Craig, Research Grants Officer, Office of Research Services

The CRD program supports well-defined projects undertaken by university researchers and their private sector partners, while the IRC program takes this partnership to a new level with support provided by industry partners for a major research endeavour in science and engineering of interest to industry.

This presentation and the question and answer session will provide essential guidance in pursuing these two significant funding opportunities.

It is noteworthy that our success rate on CRD applications is high, but find out why and how you can likewise take advantage of this funding opportunity.

***Upon request, Eileen Jessop and Frank Nolan, NSERC Prairie Office, are available to discuss your proposed CHRP project or application or your CRD project or application. Please contact Andrea Craig, Research Grants Office (NSERC and Internal Grants), Office of Research Services at andrea_craig@umanitoba.ca to arrange for a short meeting on March 11th.
