Full Time? YES  
Expected Start Date: May 1st, 2019  
Permanent? YES  
Expected End Date:  

Reporting To:  
Location: MANITOBA  
Evaluation Level: 0000  

Job Description

The Rady Faculty of Health Sciences, University of Manitoba is seeking applicants to be nominated for a Tier 2 Canada Research Chair in the neurosciences in the Department of Pharmacology and Therapeutics. The CRC program enables Canadian universities to foster world-class research excellence. This CRC aligns with the University's strategic research plan. All Chairs are subject to review and final approval by the CRC Secretariat. If successful at obtaining a CRC, this will be a full-time tenured or tenure-track position at Assistant or Associate Professor, beginning April 2018 or as soon as possible thereafter.

Faculty in the Department of Pharmacology and Therapeutics maintain well-funded interdisciplinary research programs. Faculty are members of several University of Manitoba and affiliated research institutes, including the Kleysen Institute for Advanced Medicine (KIAM). This is an exceptional opportunity to participate in interdisciplinary and collaborative research in a department with complementary and diverse skills.

The Rady Faculty of Health Sciences is a major center of interdisciplinary medical education and research, linked to sister institutions throughout Canada and the world. It offers a full range of undergraduate and graduate programs encompassing biomedical sciences, clinical medicine and population health. The Department of Pharmacology and Therapeutics has a rich history of research and education in pharmacology and neuroscience and is committed to providing high quality inter-faculty teaching at the University of Manitoba.

Responsibilities

The recruit is expected to teach and develop a rigorous, independently funded research program. They will integrate into the Neuroscience Research Program in the KIAM. Opened in 2013, the KIAM Neuroscience Research Program is an interdepartmental program with nine full-time faculty and state-of-the-art laboratory, live cell imaging, animal imaging and human PET and MRI facilities.

Qualifications

The successful candidate will have an MD and/or PhD, several years of postdoctoral experience, a highly productive track record of academic output, and a record of mentorship of undergraduate, graduate and/or postdoctoral level trainees. The successful applicant will be nominated for a Tier 2 CRC supported by the Natural Sciences and Engineering Research Council and must develop a research program focused on the natural science of the nervous system. Potential research areas of interest can be broad, including but not limited to cellular and molecular neuroscience, systems neuroscience, cognitive/behavioral neuroscience, computational neuroscience and clinical neuroscience.

The selected candidate must compete successfully for the Tier 2 Chair award that supports the position. This requires applicants to be exceptional emerging scholars with less than 10 years of experience as an active researcher since obtaining their terminal degree at the time of nomination. Tier 2 Chairs are valued at $100,000 per year for 5 years with an option to renew once. Applicants who are more than 10 years from having earned their highest degree (and where career breaks exist, such as maternity, parental or extended sick leave, clinical training, etc.) will have their eligibility for a Tier 2 Chair assessed through the program's Tier 2 justification process. Please contact the UM's strategic research initiative office for more information (http://umanitoba.ca/research/ors/). The Canada Research Chairs website also provides full program information including details on eligibility criteria at:

Additional Information

The University of Manitoba is strongly committed to equity and diversity within its community and especially welcomes
Requisition:  Canada Research Chair (Tier 2) – Neuroscience (Req #01583)

applications from women, racialized persons/persons of colour, Indigenous peoples, persons with disabilities, persons of all sexual orientations and genders, and others who may contribute to the further diversification of ideas. International applicants are encouraged to apply, however, Canadian citizens and permanent residents will be given priority.

Note that application materials may be shared with participating members of the search process. All materials, including reference letters, will be handled in accordance with the Freedom of Information and Protection of Privacy Act (Manitoba). Applications will start to be considered on 1st May 2018 and will continue until the position is filled. It is anticipated the position will begin on 1st May 2019 or as soon as possible, thereafter.

Interested candidates should forward a CV (including details of history of mentorship of trainees), letter of introduction, 5 year research plan and the names of three referees by email to:
