

Timeline for Human Research Ethics Delegated Review

REB approval applies to the ethical acceptability of the research and **does not**, in itself, constitute authorization for the research to proceed (TCPS 2, [Article 6.3](#), Application).

Please consider consultations and other approvals that may be required before you start your research. It is strongly suggested that any other approval processes are started before submitting to the REB for ethics review.

See our [website](#) for more information.
