Section 1: General Statement

The purpose of this bulletin is to provide information to prospective applicants to the Direct Entry programs at the University of Manitoba. This document outlines categories of admission, requirements and deadlines. This bulletin is available with, and constitutes part of, the application. It is assumed that all applicants have read and understood it prior to submitting the completed application.

Section 2: Eligibility Requirements

A. Academic Requirements

Direct Entry applicants are those who have not attended a post-secondary institution or have completed fewer than 24 credit hours at a recognized university or college. The table below lists the minimum program-specific admission requirements for Manitoba applicants. Equivalency information for all other Canadian provinces can be found [HERE](#) and information for international curriculum can be found [HERE](#).

In cases where the number of eligible applicants exceeds the available spaces, applicants will require higher averages than stipulated to be successful in the admissions competition.

D. Transfer Credit Information

At the University of Manitoba, all course work from a recognized prior post-secondary institution will be considered as part of the application for admission process for all undergraduate degree and diploma programs.

Courses are evaluated for advanced standing or transfer credit on a course-by-course basis and assigned a University of Manitoba equivalent, where applicable. Where a direct equivalent does not exist, students may receive general (unallocated) credit. The regulations regarding transfer credit are program specific and vary considerably depending on the faculty or school of application. Faculties and schools will only consider external courses completed within the last ten (or fewer) years.

Courses deemed acceptable for transfer credit will be awarded, subject to program approval, up to the maximum allowed under the program of admission, based on the Faculty or School's transfer credit policy and residency requirements (consult the section of the University's Academic Calendar at:

www.umanitoba.ca/calendar for details).

Students may be asked to provide comprehensive and accurate course outlines or syllabi, as issued by their institution of study, for all courses lacking a current evaluation. Course outlines or syllabi should include information on: course objectives, outline of the units studied, textbook(s) used, assignments, and accompanying laboratory information, if applicable, to assist in the transfer credit assessment process. For information on current course evaluations receiving credit, please visit:

www.umanitoba.ca/admissions/tc

While we appreciate that some institutions do not have course information readily available, many students have been able to provide the information requested by contacting the individual departments or instructors at their prior institutions. Students who are unable to provide the requested course information may render themselves ineligible for programs with specific course requirements. In cases where outlines have not been provided, unsuccessful course attempts, including F grades, may be assessed as part of the academic assessment regulations of a student's program of study. Only successful applicants will be notified of transfer credit results.

Additional information related to transfer credit may be found at:

<http://www.umanitoba.ca/student/admissions/application/deadlines/transfer-credit.html>

Section 4: Selection Process

A. Self-Reporting High School Courses and Grades

Canadian applicants currently completing high school studies will be asked to list all senior year (Grade 12) level courses along with the completion date and actual or estimated final grade in each course. This information, along with academic background information, will assist our office in making a preliminary assessment of eligibility for the chosen program. Estimations of final grades should be as realistic as possible, but all final decisions about admission, including any provisional admission, will require official high school transcripts. Applicants do not need to contact the Admissions Office if original estimates were too high or too low.

B. Offers of Admission

Admission decisions for Direct Entry programs will be based on final and/or midterm grades received by the May 1st transcript deadline.

For current high school students, all offers are conditional upon meeting minimum program requirements with final grades.

C. Alternate Choice of Program

If an application for direct entry admission is unsuccessful, it will be automatically considered for admission to University 1. Applicants do not need to reapply for this alternate choice or to pay a second application fee.

If an applicant wishes to be considered for an alternative choice of program other than University 1, an additional application must be submitted and paid for. The second application must be completed by the application deadline. Applicants can choose to apply for a second application before the results of the first application are available.

D. Preference in Admission

In cases where the number of eligible applicants exceeds the available spaces, applicants will require higher averages than stipulated to be successful in the admissions competition.

Due to enrolment limitation, many faculties at the University need to restrict the admission of international students to their programs.

E. Calculation of the Cumulative Grade Point Average (CGPA)

The Cumulative Grade Point Average will be calculated using all recognized post-secondary course work including original grades of repeated courses.

It is the applicant's responsibility to inform the Admission Office in writing of any deferred exams or grade changes. All final grades, including grade changes, must be submitted to the Admissions Office by the document deadline in order for them to be included in the final selection process. Grade changes will not be accepted after the documentation deadline

date. If a grade is not available by the documentation deadline date, an 'F' grade will be used in the final admission determination and calculation.

F. Tie Breaking Procedure for Offers

In the event of a tie, the following procedure will be used:

1. Increase the number of significant figures used in the calculation.
2. Where a tie still exists, the application that was received first will be used to break the tie. All completed applications are time stamped upon submission; in the case of a paper application, these applications will be time stamped after they have been entered into the system by a University of Manitoba Admissions Office staff member.

G. Notification of Decision

Decisions will be posted to the applicant's portal. Applicants must log into their application portal to view the decision and to accept or decline their offer. If you do not accept the offer by the deadline date indicated in the letter, your offer will lapse and you will need to contact our office to discuss the possibility of an extension. It is imperative that email accounts remain current and that emails and application portals are regularly checked.

In addition to accepting the offer of admission, successful applicants to Fine Arts and Engineering will be required to pay an enrolment deposit to hold their offer of admission. Students that are offered admission will be required to confirm their acceptance and pay a deposit online. If the offer is not accepted or the required deposit is not paid by the deadline date indicated, the offer will lapse. Lapsed offers will be considered a declined response. The enrolment deposit for Fine Arts applicants is \$100; the deposit for Engineering is \$250. The deposit is non-refundable but will be applied to tuition fees.

The University reserves the right to rescind any offer of admission if the successful candidate does not indicate they are accepting the offer of admission (and, if need be, paying the enrolment deposit) by the deadline.

Section 5: Reconsideration & Appeals

Individuals who wish to have their applications reconsidered should submit their request in writing to the Admissions Office. Past experience has shown that most inquiries can be satisfied at this level without further reference. Persons wishing reconsideration of the decision shall direct their request to the Admissions Office within ten (10) days of the posted decision date.

Should the student wish to pursue the reconsideration decision of the Selection Committee further, such an appeal will be made in accordance with the Senate Committee on Admission Appeals Procedures.

http://umanitoba.ca/admin/governance/governing_documents/students/admission_appeals.html

Applicants are advised that appeals of reconsideration decisions by the Senate Admissions Appeal Committee focus on questions of correct adherence to published policies and procedures, and NOT on subjective issues or the relative merits of the application.

Section 6: Counselling of Applicants

The Admissions Office is able to assist applicants who seek counselling regarding admission to the University of Manitoba. However, it is policy not to instruct applicants as to a specific course of action they should follow, but rather to provide the information needed for applicants to make their own choice with respect to the alternatives available. The following points require special attention:

1. Applicants are encouraged to discuss their plans with all who can usefully advise them, but they should be aware that second and third hand information about admission policies may not be accurate.
2. No official at the university can guarantee the admission of any applicant. Admission is determined by the Committee on the basis of an annual competition.
3. All applicants are advised to supplement any personal enquiries with a written request so that an official written response can be made. It is only these written responses which will be considered

as evidence of any advice given (see Section 7: Contact Information).

A. Entrance Scholarships

All students that have submitted and paid for an application by March 1, 2018, and who are attending a Canadian High School, will automatically be considered for an entrance scholarship. To be eligible to receive a scholarship, at least five courses are required from the list of eligible scholarship courses, with a minimum average of 85% over the best five eligible courses. The list of eligible courses is provided on the Financial Aid and Awards website (http://www.umanitoba.ca/student/fin_aid/awards/school_entrance/index.html).

B. Entrance Scholarship Deadline for International Applicants

Out-of-Canada qualified high school applicants, who are studying at non-Canadian curriculum high schools

and who apply for admission by March 1, 2018 will be considered for an International Entrance Scholarship. International students studying in Canada, or at a high school abroad that offers the Canadian curriculum, must apply by the March 1, 2018 scholarship deadline.
