- **Final official transcripts** from any university or college attended other than University of Manitoba are required. Student copies or photocopies are not acceptable. Transcripts become the property of University of Manitoba and will not be returned.

  **Note:** It is the applicant’s responsibility to inform the Admissions Office in writing of any deferred exams or grade changes. All final grades, including grade changes, must be submitted to the Admissions Office by the document deadline in order for them to be included in the final selection process.

- **Immigration documents** are required if born outside of Canada.

- **Name change documentation** is required if name change has occurred as a result of marriage, divorce or other reason.

Please send all application documentation to the following address:

**Admission for Education**

University of Manitoba, Winnipeg, MB R3T 2N2

**D. Post-Acceptance Documentation**

All successful applicants to the Faculty of Education are required to submit the following:

**Criminal Records Check (including Vulnerable Sector Screening), Child Abuse Registry, and Self Declaration forms**

These forms are accessed on your offer of admission. All successful applicants will be conditionally admitted pending clearance of the Child Abuse Registry and Statement of Criminal Records Self-Declaration. No registration will be permitted until such documentation and clearance has been received. **Clearances must be dated after April 1, 2017.**

Applicants should note that only Criminal Records must be disclosed and that the existence of such a record will **not** automatically exclude the applicants from the program. Any applicant declaring a criminal record will have the offence reviewed by a sub-committee of the Faculty of Education. The Faculty reserves the right, based on its findings, to declare an applicant ineligible for admission. Decisions on all cases will be held in strictest confidence. The sub-committee may elect to interview applicants or request further information.

**NOTE:**

Applicants not providing these documents by August 17, 2017 will be required to attend Winter Term only as a Part Time student and not eligible to enroll in the practicum and co-requisite courses for the 2017-2018 academic year. Failure to clear or failure to provide these
documents may result in the offer of admission being revoked.

Section 4: Selection Process

Applicants satisfying the minimum eligibility requirements (see Section 2: Eligibility Requirements) are eligible for consideration; however, selection is competitive and remains at the discretion of the Faculty of Education. Students will be admitted on the basis of an annual competition. Each year’s admission cycle is a separate process, and there is no carryover from one year to the next. The quota and composite score used for selection are determined yearly.

The Faculty of Education will assess applicants on the basis of their Adjusted Grade Point Average as outlined in Section 2: Eligibility Requirements and on the Writing Skills score as described in this section, taking into consideration referee reports.

A. Selection by Composite Score

Applicants will be considered within their stream competitions based on composite score and taking the referee reports into consideration. Admission will be offered to the top ranked applicants as determined by Composite Score for that Stream or Major/Minor. The selection process is explained further in the paragraphs below.

1. GPA Assessment (forty-five points)

Each applicant will be assessed as outlined in Section 2: Eligibility Requirements. A maximum of forty-five points will be awarded for the Adjusted Grade Point Average. Any student who has an Adjusted Grade Point Average of less than 2.50 will be deemed ineligible for admission. An applicant who is on probation or on suspension will also be considered ineligible for admission.

Calculation of the Adjusted Grade Point Average (AGPA)

The Grade Point Average (GPA) is calculated on the most recent 30 credit hours completed by February 1, 2017. Your most recent 30 credit hours is calculated by going back term by term until 30 credit hours for which an alpha/numeric grade has been assigned, has been reached. The most recent coursework does not need to include teachable and/or breadth courses. Full session courses count as part of Winter term grades. If the last term selected contains more credit hours than required to reach 30 credit hours we will use the Term GPA and apply it to the required amount to reach 30. For example, if the last term selected has 18 credit hours with a term GPA of 2.68 and only 6 credit hours are required, then 6 credit hours will be used with a grade of 2.68. If it is not possible to clearly identify coursework by term (former U of M reporting system) a Sessional GPA will be applied to the number of credit hours required. All coursework within the most recent 30 credit hours will be included. This includes both repeated and failed coursework.

NOTE: It is the applicant’s responsibility to inform the Admissions Office in writing of any deferred exams or grade changes. All final grades, including grade changes must be submitted to the Admissions Office by the document deadline in order for them to be included in the final selection process. Grade changes will not be accepted after the documentation deadline date. If a grade is not available by the documentation deadline date, an ‘F’ grade will be used in the final admission determination and calculation.

Courses graded ‘Satisfactory’, ‘Pass’, or International Baccalaureate (IB) and Advanced Placement (AP) courses that have been awarded as transfer of credit will be used within the teachable courses, but excluded from the GPA calculation.

Courses completed as part of a graduate program may be used to fulfill teachable requirements where grades are available by February 1, 2017. These grades will also be included in the GPA calculation.

In recent years, the admission process has been increasingly competitive and therefore, applicants should strive for a Grade Point Average higher than the minimum 2.50 required.

2. Writing Skills (twenty points)

All applicants are required to attend a writing session. Students can receive up to a maximum of twenty points towards their composite score (see Section 2: Eligibility Requirements).

B. Selection by Stream

Final selection will be determined independently in each stream by composite score. The following will reflect the process for each stream:
**Early & Middle Years**

Applicants will compete equally for a position within their preferred stream regardless of their teachable subject areas.

**Senior Years**

Applicants are sub-categorized by teachable subject area within their major and minor. Each sub-category is considered in a separate and independent competition. Please note the number of positions available in each teachable subject will vary from year to year.

**C. Diversity Category**

Up to 45% of all available positions will be awarded on the basis of highest admissions scores for those who voluntarily self-identify in one or more of the five Diversity Categories.

- All unfilled spaces within each Diversity category will be redistributed across diversity categories. Unfilled spaces at that point will then be allocated to the General category.
- The remainder of all positions in each stream will be awarded on the basis of highest admission score.

**D. Tie Breaking Procedure for Offers**

In the event of a tie, the following procedure will be used:

1. Increase the number of significant figures used in the calculation.

2. Where a tie still exists, the application that was received first will be used to break the tie. All completed applications are time stamped upon submission; in the case of a paper application, these applications will be time stamped after they have been entered into the system by a University of Manitoba Admissions Office staff member.

**E. Notification of Decision**

Once a decision has been made, all applicants will receive an email notifying them to log into their application portal to view the decision. Students that are offered admission will be required to confirm their acceptance and pay a deposit online. If you do not accept the offer and pay the required deposit by the deadline date indicated in the letter, the offer will lapse. Lapsed offers will be considered a declined response. It is imperative that your email account remains current and that you check it regularly or arrange for someone to check it in your absence.

Successful applicants are required to confirm their acceptance to the program by paying a non-refundable deposit of $200.00 by the stated deadline. The deposit will be applied directly to the applicant’s tuition. Failure to submit the deposit by the deadline given will result in the cancellation of the offer of admission.

**Section 5: Reconsideration & Appeals**

Individuals who wish to have their applications reconsidered should first meet with an Academic Advisor. If required, they can then submit their request in writing to the Coordinator of Admissions. Past experience has shown that most inquiries can be resolved at this level without further reference. Persons wishing reconsideration of the decision shall direct their request to the Coordinator of Admissions within ten (10) days of the posted decision date.

Should the student wish to pursue the reconsideration decision, such an appeal will be made in accordance with the Senate Committee on Admission Appeals Procedures.

http://umanitoba.ca/admin/governance/governing_documents/students/admission_appeals.html

Applicants are advised that appeals of reconsideration decisions by the Senate Admissions Appeal Committee focus on questions of correct adherence to published policies and procedures used during selection and NOT on subjective issues or the relative merits of the application.

**Section 6: Counselling of Applicants**

The Faculty of Education and Admissions Office are able to assist applicants who seek counselling regarding admission to the Faculty of Education. However, it is policy not to instruct applicants as to a specific course of action they should follow, but rather to provide the information needed for applicants to make their own choice with respect to the alternatives available. The following points require special attention:

1. Applicants are encouraged to discuss their plans with all who can usefully advise them, but they should be aware that second and third hand information about admission policies may not be accurate.
2. No official at the university can guarantee the admission of any applicant. Admission is determined on the basis of an annual competition.

3. All applicants are advised to supplement any personal enquiries with a written request so that an official written response can be made. It is only these written responses which will be considered as evidence of any advice given (see Section 7: Contact Information).
