**WHAT IS GROUP COUNSELLING?**

Group counselling is a form of therapy where people with similar experiences/challenges come together with a professional counsellor. The counsellor runs the group but generally everyone contributes in some way, either by listening to others and/or talking themselves. One of the main benefits from attending a group is that students will not feel alone in facing their problems and can benefit from having a shared experience.

The SCC offers many different groups which have been developed specifically for the needs of University of Manitoba students. Our groups are free and available only to University of Manitoba students. Be one of the many students who experience the benefits of being part of a SCC group.

**MONDAY**

**MANAGING MENTAL HEALTH AND SUBSTANCE USE (1:30 TO 3:30 PM)**

Who is this group for: This closed referral group is for students who are struggling with managing their substance use and identify as having mental health concerns. Students can be referred by a SCC counsellor/UHS physician or UHS Registered Nurse.

The purpose of this group: is to help participants build on their existing strengths, manage distress that can accompany substance use and mental health concerns and provide a supportive environment to share their experiences while learning with other students harm reduction strategies that can enhance their ability to move forward.

Topics include stages of change, self-care, understanding and managing triggers and cravings, understanding and safely managing withdrawal, dealing with difficult thoughts and feeling (shame, guilt, and anxiety), effective communication strategies, identifying support networks and relapse prevention planning.
