The province of Manitoba has 1 licensed space for every 5 children in the province of Manitoba. The province has more spaces and fewer children waiting per capita than the University.

Manitoba has the 2nd lowest fees nationally due to the high level of provincial government support. Quality of care in children centres is improved with non-profit status as well as training levels. Province ranks #2 nationally in provincial care.

1 licensed space for every 36 children at the University of Manitoba.

100% of centres at the University of Manitoba are not-for-profit.

"Being an observation or practicum site improves quality of care in centres."
