

## **Postdoctoral Fellow Position in Bioinformatics**

A postdoctoral fellow position in Bioinformatics is available immediately for a project funded by Canadian Breast Cancer Foundation (CBCF) and Manitoba Medical Service Foundation (MMSF). The research focus is to build gene expression biomarker signatures for breast cancer. This is an excellent opportunity to develop bioinformatics, cancer genomics, and next-generation sequencing data analysis experience. Applicants for this position should have a PhD degree in molecular biology, Bioinformatics, Biostatistics, or a related discipline.

Please send Curriculum Vitae, and the names of three references to:

Wayne Xu, Ph.D

Senior Scientist in Bioinformatics, Manitoba Institute of Cell Biology, University of Manitoba

Adjunct Professor, Bioinformatics, College of Pharmacy, University of Manitoba

ON5008 675 McDermot Ave

Winnipeg, Manitoba R3E 0V9

Ph: 204-787-2134
