Course Description/Objectives

Calendar Description
Economics of market intervention; trade policy analysis, and agricultural protection, exports, subsidies, tariffs, quotas; intermediate versus final goods; currency exchange rates and agricultural trade policy; trade agreements. Not to be held with ABIZ 3500. Prerequisites: ECON 2010 or the former ECON 2450.

Instructional Methods
Traditional in-class lecture format, complemented by in-class discussion and student presentations.

Course Objectives
The objective of this course is to provide students with an understanding of the motivations for food and agricultural policies and the instruments that governments use to pursue policy goals. The material will be taught at a level that is suitable for policy analysis in the employ of government and business. All students are expected to have solid backgrounds in microeconomic theory.

The primary goal of this course is not to memorize the details of specific government policies. Government policies invariably change every few years, so knowledge of a specific policy is useful only for a limited period of time. This course is intended to provide students with the tools to understand and analyze both current and future food and agricultural policies. There will be a heavy emphasis on the use of economic theory to analyze policies.

Students’ Learning Responsibilities
Students are expected to attend class regularly, read assigned material, participate in classroom discussions, complete assignments, and complete examinations. Students are expected to conduct themselves in a professional manner in class.

University of Manitoba Services and Information

Writing and Learning Support
The Academic Learning Centre (ALC) offers services that may be helpful to you throughout your academic program. Through the ALC, you can meet with a learning specialist to discuss concerns such as time management, learning strategies, and test-taking strategies. The ALC also offers peer supported study groups called Supplemental Instruction (SI) for certain courses that students have typically found difficult. In these study groups, students have opportunities to ask questions, compare notes, discuss content, solve practice problems, and develop new study strategies in a group-learning format.

You can also meet one-to-one with a writing tutor who can give you feedback at any stage of the writing process, whether you are just beginning to work on a written assignment or already have a draft. If you are interested in meeting with a writing tutor, reserve your appointment two to three days in advance of the time you would like to meet. Also, plan to meet with a writing tutor a few days before your paper is due so that you have time to work with the tutor’s feedback.

These Academic Learning Centre services are free for U of M students. For more information, please visit the Academic Learning Centre website at: http://umanitoba.ca/student/academiclearning/. You can also contact the Academic Learning Centre by calling 204-480-1481 or by visiting 201 Tier Building.
