COURSE DETAILS

Course Title & Number: HNSC 4290: Food, Nutrition and Health Policies
Number of Credit Hours: 3.0 credit hours
Class Times & Days of Week: This is an asynchronous, online course
Location for classes/labs/tutorials: UMLearn-Class material and assignments will be managed via the UMLearn portal established for this class
Pre-Requisites: HMEC 2000(or 2050) and HNSC 2130 or 2140 and HNSC 2150 and STAT 2000.
Voluntary withdrawal date: November 23, 2020

Instructor Contact Information

Instructor(s) Name & Preferred Form of Address: Dr. Natalie Riediger
Office Location: 407 Human Ecology
Office Hours or Availability: I will schedule weekly WebEx ‘office’ hours at the beginning of each week when I will be available. Other virtual meetings are by appointment.
Office Phone No. 204-480-1323
Email: Natalie.riediger@umanitoba.ca
Contact: All email communication must conform to the Communicating with Students university policy. Dr. Riediger prefers email communication as with the current circumstances she will rarely be in the office to answer her phone or retrieve messages.
Course Description
Principles and applications of policies, regulations and legislation in the areas of food and health that address nutrition and health issues of populations. Focus will be on the Canadian and Manitoban context.

Course Goals
1) To describe food, nutrition and health policies, including history and related theory, in the Manitoban, Canadian, and international context;
2) To communicate clear and persuasive arguments related to current food, nutrition, or health policies;
3) To identify relevant decision-makers and stakeholders for food, nutrition, and health policies.

Course Learning Objectives
Learning objectives are listed in the course schedule below.

Foundational Knowledge Content Areas for Dietetics Education
This dietetic education program is an accredited program recognized by the Partnership for Dietetics Education and Practice (PDEP) and prepares students for eligibility for registration with a provincial dietetics regulatory. Following are the foundational knowledge areas that this course is designed to meet towards the ICDEP.

<table>

|                                                      | Program planning in public and population health | 2 |

*Highest level achieved: 1 = demonstrate broad knowledge; 2 = demonstrate comprehension; 3 = analyze, interpret and apply knowledge

**Textbook, Readings, and Course Materials**

Readings available through UMLearn with links. All readings are required and are listed with the learning objectives above.

**Using Copyrighted Material**

Please respect copyright. We will use copyrighted content in this course. I have ensured that the content I use is appropriately acknowledged and is copied in accordance with copyright laws and University guidelines. Copyrighted works, including those created by me, are made available for private study and research and must not be distributed in any format without permission. Do not upload copyrighted works to a learning management system (such as UM Learn), or any website, unless an exception to the Copyright Act applies or written permission has been confirmed. For more information, see the University’s Copyright Office website at [http://umanitoba.ca/copyright/](http://umanitoba.ca/copyright/) or contact um.copyright@umanitoba.ca.

**Note regarding assignments:** All unclaimed assignments become the property of the faculty and will become subject to destruction. Students maintain copyright for all of their work, despite notification that the version/copy of the assignment left with their instructors becomes the physical property of the department. If for any reason an instructor wishes to retain a copy of student coursework, they should obtain the written permission of the student to do so.
Course Technology
This course uses UMLearn. To gain access or learn how to navigate in these technologies please use these links:
https://universityofmanitoba.desire2learn.com/d2l/login
https://centre.cc.umanitoba.ca/technology/umlearn/
If you have questions regarding UM Learn, please contact https://centre.cc.umanitoba.ca/

You must have access to Microsoft Office, including PowerPoint and Word.

For the recording of your presentation, you must also have access to a microphone connected to your computer.

It is the general University of Manitoba policy that all technology resources are to be used in a responsible, efficient, ethical and legal manner.

Expectations: I Expect You To
- Check UMLearn for course updates regularly
- Finish all the required assignments
- Complete the required readings on time
- Respect your instructor and the other students

Structure
The asynchronous, online course will be structured to include a combination of lectures, self-directed learning, and peer-to-peer interaction/discussion. Students are required to divide their time based on 1) their own schedules, and 2) the amount of time they believe is necessary to succeed in this course. For these reasons, no requests for extensions for assignments, with the exception of emergent medical issues or compassionate grounds.

Note regarding online learning in this course: This is an independent learning environment. The responsibility for managing your time, the coursework, and checking UMLearn regularly rests with you, the student. Each week there will be either a lecture, assignments, activities, and/or discussion board posts. The purpose of ongoing assignments and assessment is to keep you engaged and also minimize lecture content, which is often more challenging in an online environment. I will have a discussion board dedicated to student questions, which I would prefer students ask questions in this forum rather than email, if the answer may benefit other students. If the question only pertains to you, then please feel free to email.

Class Communication:
Please use your UM email address. Include your last name and the course number in the subject line, and if/as applicable, the component.

For full details of the Electronic Communication with Students please visit:
http://umanitoba.ca/admin/governance/media/Electronic_Communication_with_Students_Policy_-_2013_09_01_RF.pdf
Academic Integrity:

Each student in this course is expected to abide by the University of Manitoba Academic Integrity principles. Always remember to reference the work of others that you have used. Also be advised that you are required to complete your assignments independently unless otherwise specified. If you are encouraged to work in a team, ensure that your project complies with the academic integrity regulations. You must do your own work during exams. Inappropriate collaborative behavior and violation of other Academic Integrity principles, will lead to the serious disciplinary action. Visit the Academic Calendar, Student Advocacy, and Academic Integrity web pages for more information and support.

Refer to specific course requirements for academic integrity for individual and group work such as:

I. Group projects are subject to the rules of academic dishonesty;
II. Group members must ensure that a group project adheres to the principles of academic integrity;
III. Students should also be made aware of any specific instructions concerning study groups and individual assignments;
IV. The limits of collaboration on assignments should be defined as explicitly as possible; and
V. All work should be completed independently unless otherwise specified.

Plagiarism and Cheating

Plagiarism or any other form of cheating in examinations, term tests or academic work is subject to serious academic penalty (e.g. suspension or expulsion from the faculty or university). Cheating in examinations or tests may take the form of copying from another student or bringing unauthorized materials into the exam room (e.g., crib notes, pagers or cell phones).

Exam cheating can also include exam personation. (Please see Exam Personation, found in the Examination Regulations section of the General Academic Regulations). A student found guilty of contributing to cheating in examinations or term assignments is also subject to serious academic penalty.

To plagiarize is to take ideas or words of another person and pass them off as one’s own. In short, it is stealing something intangible rather than an object. Plagiarism applies to any written work, in traditional or electronic format, as well as orally or verbally presented work. Obviously it is not necessary to state the source of well-known or easily verifiable facts, but students are expected to appropriately acknowledge the sources of ideas and expressions they use in their written work, whether quoted directly or paraphrased. This applies to diagrams, statistical tables and the like, as well as to written material, and materials or information from Internet sources.

To provide adequate and correct documentation is not only an indication of academic honesty but is also a courtesy which enables the reader to consult these sources with ease. Failure to provide appropriate citations constitutes plagiarism. It will also be considered plagiarism and/or cheating if a student submits a term paper written in whole or in part by someone other than him/herself, or copies the answer or answers of another student in any test, examination, or take-home assignment.

Working with other students on assignments, laboratory work, take-home tests, or online
tests, when this is not permitted by the instructor, can constitute Inappropriate Collaboration and may be subject to penalty under the Student Discipline By-Law. An assignment which is prepared and submitted for one course should not be used for a different course. This is called “duplicate submission” and represents a form of cheating because course requirements are expected to be fulfilled through original work for each course.

When in doubt about any practice, ask your professor or instructor. The Student Advocacy Office, 519 University Centre, 474-7423, is a resource available to students dealing with Academic Integrity matters.

**Examination Personations**

A student who arranges for another individual to undertake or write any nature of examination for and on his/her behalf, as well as the individual who undertakes or writes the examination, will be subject to discipline under the university’s Student Discipline Bylaw, which could lead to suspension or expulsion from the university. In addition, the Canadian Criminal Code treats the personation of a candidate at a competitive or qualifying examination held at a university as an offence punishable by summary conviction.

**Attendance at Class and Debarment**

Regular attendance is expected of all students in all courses. An instructor may initiate procedures to debar a student from attending classes and from final examinations and/or from receiving credit where unexcused absences exceed those permitted by the faculty or school regulations.

A student may be debarred from class, laboratories, and examinations by action of the dean/director for persistent non-attendance, failure to produce assignments to the satisfaction of the instructor, and/or unsafe clinical practice or practicum. Students so debarred will have failed that course.

**Recording class lectures**

Dr. Riediger and the University of Manitoba hold copyright over the course materials, presentations and lectures which form part of this course. No audio or video recording of lectures or presentations is allowed in any format, openly or surreptitiously, in whole or in part without permission of Dr. Riediger.

**Student Accessibility Services:**

The University of Manitoba is committed to providing an accessible academic community. Students Accessibility Services (SAS) offers academic accommodation supports and services such as note-taking, interpreting, assistive technology and exam accommodations. Students who have, or think they may have, a disability (e.g. mental illness, learning, medical, hearing, injury-related, visual) are invited to contact SAS to arrange a confidential consultation.

Student Accessibility Services  
520 University Centre  
Phone: (204) 474-7423  
Email: Student_accessibility@umanitoba.ca
Expectations: You Can Expect Me To

- Clearly list all my learning objectives
- Assess, record and report on the development, progress and attainment of all students
- Provide guidance and advice to all students on their educational matters related to the course
- Reply to your emails within 2 business days
- Respect all students and will answer all your questions in a timely manner

## ASSIGNMENT DESCRIPTIONS

All assignment instructions and rubrics can be found on UMLearn.

## Referencing Style

## Assignment Feedback

All assignments will be marked using rubrics on UMLearn and communicated in that format. Text-based feedback is built in to the rubrics, though the Teaching Assistant or Instructor may provide additional written feedback. We aim to provide feedback to students in a timely manner for each assignment and activity. Marks for Assignments 1 and 2, as well as Activities 1-3 and at least 5% (out of 15%) of the discussion board grades will be shared with students prior to the Voluntary Withdrawal deadline, provided students submitted assignments on time.

## Assignment Extension and Late Submission Policy

Assignments must be submitted electronically to the instructor by the time noted above. Deduction of 10% per day late, including weekends.

## UNIVERSITY SUPPORT OFFICES & POLICIES

### Writing and Learning Support

The Academic Learning Centre (ALC) offers services that may be helpful to you throughout your academic program. Through the ALC, you can meet with a learning specialist to discuss concerns such as time management, learning strategies, and test-taking strategies. The ALC also offers peer supported study groups called Supplemental Instruction (SI) for certain courses that students have typically found difficult. In these study groups, students have opportunities to ask questions,
compare notes, discuss content, solve practice problems, and develop new study strategies in a
group-learning format.
You can also meet one-to-one with a writing tutor who can give you feedback at any stage of the
writing process, whether you are just beginning to work on a written assignment or already have a
draft. If you are interested in meeting with a writing tutor, reserve your appointment two to three
days in advance of the time you would like to meet. Also, plan to meet with a writing tutor a few
days before your paper is due so that you have time to work with the tutor’s feedback.

These Academic Learning Centre services are free for U of M students. For more information, please
visit the Academic Learning Centre website at: http://umanitoba.ca/student/academiclearning/

You can also contact the Academic Learning Centre by calling 204-480-1481 or by visiting 205 Tier
Building.

University of Manitoba Libraries (UML)

As the primary contact for all research needs, your liaison librarian can play a vital role when
completing academic papers and assignments. Liaisons can answer questions about managing
citations, or locating appropriate resources, and will address any other concerns you may have,
regarding the research process. Liaisons can be contacted by email or phone, and are also available
to meet with you in-person. A complete list of liaison librarians can be found by
is provided in person at 19 University Libraries, located on both the Fort Garry and Bannatyne
campuses, as well as in many Winnipeg hospitals. For a listing of all libraries, please consult the
following: http://bit.ly/1sXe6RA. When working remotely, students can also receive help online, via
the Ask-a-Librarian chat found on the Libraries’ homepage: www.umanitoba.ca/libraries.

For 24/7 mental health support, contact the Mobile Crisis Service at 204-940-1781.

Student Counselling Centre
Contact SCC if you are concerned about any aspect of your mental health, including anxiety,
stress, or depression, or for help with relationships or other life concerns. SCC offers crisis
services as well as individual, couple, and group counselling. Student Counselling Centre:
http://umanitoba.ca/student/counselling/index.html
474 University Centre or S207 Medical Services
(204) 474-8592

Student Support Case Management
Contact the Student Support Case Management team if you are concerned about yourself or
another student and don’t know where to turn. SSCM helps connect students with on and off
campus resources, provides safety planning, and offers other supports, including consultation,
educational workshops, and referral to the STATIS threat assessment team.

University Health Service
Contact UHS for any medical concerns, including mental health problems. UHS offers a full range of medical services to students, including psychiatric consultation.

*University Health Service* [http://umanitoba.ca/student/health/](http://umanitoba.ca/student/health/)
104 University Centre, Fort Garry Campus
(204) 474-8411 (Business hours or after hours/urgent calls)

**Health and Wellness**
Contact our Health and Wellness Educator if you are interested in peer support from *Healthy U* or information on a broad range of health topics, including physical and mental health concerns, alcohol and substance use harms, and sexual assault.

britt.harvey@umanitoba.ca

**Live Well @ UofM**
For comprehensive information about the full range of health and wellness resources available on campus, visit the Live Well @ UofM site: [http://umanitoba.ca/student/livewell/index.html](http://umanitoba.ca/student/livewell/index.html)

**Your Rights and Responsibilities:**
As a student of the University of Manitoba you have rights and responsibilities. It is important for you to know what you can expect from the University as a student and to understand what the University expects from you. Become familiar with the policies and procedures of the University and the regulations that are specific to your faculty, college or school.

The *Academic Calendar* [http://umanitoba.ca/student/records/academiccalendar.html](http://umanitoba.ca/student/records/academiccalendar.html) is one important source of information. View the sections *University Policies and Procedures* and *General Academic Regulations*.

While all of the information contained in these two sections is important, the following information is highlighted.

- If you have questions about your grades, talk to your instructor. There is a process for term work and final grade appeals. Note that you have the right to access your final examination scripts. See the Registrar’s Office website for more information including appeal deadline dates and the appeal form [http://umanitoba.ca/registrar/](http://umanitoba.ca/registrar/)

- You are expected to view the General Academic Regulation section within the Academic Calendar and specifically read the *Academic Integrity* regulation. Consult the course syllabus or ask your instructor for additional information about demonstrating academic integrity in your academic work. Visit the Academic Integrity Site for tools and support [http://umanitoba.ca/academicintegrity/](http://umanitoba.ca/academicintegrity/) View the *Student Academic Misconduct* procedure for more information.

- The University is committed to a respectful work and learning environment. You have the
right to be treated with respect and you are expected conduct yourself in an appropriate respectful manner. Policies governing behavior include the:

**Respectful Work and Learning Environment**
http://umanitoba.ca/admin/governance/governing_documents/community/230.html

**Student Discipline**
http://umanitoba.ca/admin/governance/governing_documents/students/student_discipline.html and,

**Violent or Threatening Behaviour**
http://umanitoba.ca/admin/governance/governing_documents/community/669.html

- If you experience **Sexual Assault** or know a member of the University community who has, it is important to know there is a policy that provides information about the supports available to those who disclose and outlines a process for reporting. The **Sexual Assault** policy may be found at:
  http://umanitoba.ca/admin/governance/governing_documents/community/230.html
  More information and resources can be found by reviewing the Sexual Assault site
  http://umanitoba.ca/student/sexual-assault/

- For information about rights and responsibilities regarding **Intellectual Property** view the policy http://umanitoba.ca/admin/governance/media/Intellectual_Property_Policy_-_2013_10_01.pdf

For information on regulations that are specific to your academic program, read the section in the Academic Calendar and on the respective faculty/college/school web site
http://umanitoba.ca/faculties/

Contact an **Academic Advisor** within our faculty/college or school for questions about your academic program and regulations http://umanitoba.ca/academic-advisors/

**Student Advocacy**

Contact Student Advocacy if you want to know more about your rights and responsibilities as a student, have questions about policies and procedures, and/or want support in dealing with academic or discipline concerns.
