

[PLNT3140 Introductory Cytogenetics](#)

2020 COURSE INFORMATION

INSTRUCTORS

Dr. Brian Fristensky

Office: 330 Agriculture Tel: 474-6085

Email: frist@cc.umanitoba.ca

OFFICE HOURS: 2:30 - 4:30 p.m. Mon. & Wed.

Office hours will be held online using WebEx.

COURSE OBJECTIVE

To provide an introduction to the structure of eukaryotic genomes, from the level of the chromosome down to the level of the gene. Basic cytological techniques including the use of the optical microscope will be covered and supported by laboratory exercises. The lecture course will include the application of cytogenetic and molecular techniques in the study of cell division, karyotyping, chromosomal structure, recombination, changes in chromosome number and structure, physical mapping and chromosome evolution. Prerequisites: [PLNT 2520](#) (or 039.252) or [BIOL 2500](#) or the former BOTN 2460 (or 001.246).

TEXTBOOKS AND LECTURE NOTES

All required readings are online unless announced otherwise.

FALL 2020: All lectures will be held online through WebEx. Baring technical difficulties, lectures will be recorded, and recordings posted on the course web site within 24 hr. WebEx sometimes takes awhile to render recordings, but recordings will be posted when they become available.

WWW SITE

Most course materials can be obtained at our Web site:

<http://home.cc.umanitoba.ca/~frist/PLNT3140>

ACADEMIC INTEGRITY

All work is to be completed independently unless otherwise specified. Students are reminded that academic dishonesty including plagiarism, cheating and examination impersonation is subject to severe academic penalties as described the [University Policies on Academic Integrity](#).

EVALUATION PROCEDURE

Assignments (4 @ 5% each)	20%
Class Participation Based on in-class quizzes, discussions, exercises	5%
Midterm Covers units 1 - 7	20%
Laboratory Lab will be online. See Lab Schedule for details	20%
Final Examination Covers units 8 - 13	35%

Grading is according to the Letter Grade System ([Undergraduate Calendar section 2](#)) ranging from 0 to 4.5 or F to A+. Roughly speaking, a C corresponds to understanding of a large portion of the material, the B range encompasses mastery of most of the material, and the A range indicates original thinking and creativity. Put another way:

Grade Point	Letter Grade	Meaning	comments
4.5 (90 - 100%)	A+	Exceptional	synthesis, ability to put things together from different parts of the course, original and creative thinking
4.0 (80 - 89%)	A	Excellent	
3.5 (70 - 79%)	B+	Very good	learning concepts or inferring them from the context; working with data eg. Given the results of an experiment, what does it tell you? Given an equation, can you use it correctly?
3.0 (60 - 69%)	B	Good	
2.5 (50 - 59%)	C+	Satisfactory	
2.0 (40 - 49%)	C	Adequate	memorization of facts
1.5 (30 - 39%)	D+	Marginal	
1.0 (20 - 29%)	D	Marginal	

This grading rubric should only be taken as a rough guide for how I construct assignment and exam questions. Not all questions and assignments can be precisely broken down in this fashion. How you answer the question is also important. Answers that use complete sentences with precise terminology and organized into coherent paragraphs, will be awarded more points than answers that do not have

an obvious organization or do not express ideas in a clear, precise way. Communication is an important part of the scientific method.

LATE SUBMISSION POLICY

Due dates for assignments will be given for each assignment. Grades on assignments handed in late will be decremented by one point per day late, for a maximum of 5 points. No assignments will be accepted after answers are handed out or discussed in class.

FINAL EXAMINATION TIME AND LOCATION SCHEDULED BY THE UNIVERSITY

MISSED EXAMS OR COURSEWORK DUE TO ILLNESS

Students who are unable to meet a course requirement due to medical circumstances are currently not required to submit medical notes. However, students are required to contact their instructor or academic advisor by email to inform of the missed work and to make arrangements for extensions, deferrals, or make-up assignments. Please follow these guidelines if you are unable to meet an academic requirement for your courses.

- Contact your instructor for term work such as a class, quiz, midterm/test, assignment, lab
- Contact an advisor in your faculty/college/school of registration for a missed final exam (scheduled in the final examination period);
- Inform your instructor/advisor as soon as possible do not delay. Note for final exams, students must contact within 48 hours of the date of the final exam; and
- Email your instructor/advisor from a U of M email address, and include your full name, student number, course number, and academic work that was missed.

Be advised that only the Dean's Office – not individual instructors or Departments – is in a position to grant deferred examinations. No student may write a final examination at a time other than that prescribed by the Registrar's Office without the knowledge of the Dean's Office. This is to protect instructors and ensure fairness among all students.

ACADEMIC INTEGRITY

All work is to be completed independently unless otherwise specified. Students are reminded that academic dishonesty including plagiarism, contracting coursework to someone else, cheating and examination impersonation is subject to severe academic penalties as described in the University [Policy on Academic Integrity](#), in the General Calendar.

Voluntary Withdrawal

Students will have their grades for at least two assignments and the midterm exam before the University VW date. When considering a VW, students should be aware that if you withdraw from a course, you may be given a lower priority in registering for that course in subsequent academic terms.

Student Accessibility Services

If you are a student with a disability, please contact SAS for academic accommodation supports and services such as note-taking, interpreting, assistive technology and exam accommodations. Students who have, or think they may have, a disability (e.g. mental illness, learning, medical, hearing, injury-related, visual) are invited to contact SAS to arrange a confidential consultation.

Policy and Resource Document (Schedule A)

Students should familiarize themselves with University policies regarding academic integrity, student discipline, and respectful learning environment, for example, and on academic and student supports that are available, including a statement regarding mental health with referral information to the Student Counselling Centre and University Health Services. A summary of this information can be found at http://intranet.umanitoba.ca/academic_support/catl/media/Text-for-Schedule-A-ROASS.docx.

Recording Class Lectures

No audio or video recording of lectures or presentations is allowed in any format, openly or surreptitiously, in whole or in part without permission of the Instructor. Course materials (both paper and digital) are for the participant's private study and research.

Copyright

Unless otherwise cited or referenced, all course content is licensed under the Creative Commons License [Attribution Share-Alike 2.5 Canada](https://creativecommons.org/licenses/by-sa/4.0/).

Course Technology

It is the general University of Manitoba policy that all technology resources are to be used in a responsible, efficient, ethical and legal manner. The student can use all technology in classroom setting only for educational purposes approved by instructor and/or the University of Manitoba Student Accessibility Services. Student should not participate in personal direct electronic messaging / posting activities (e-mail, texting, video or voice chat, wikis, blogs, social networking (e.g. Facebook) online and offline "gaming" during scheduled class time. If student is on call (emergency) the student should switch his/her cell phone on vibrate mode and leave the classroom before using it. (©S Kondrashov. Used with permission)
