COURSE DETAILS

Course Title & Number: Introduction to Agri-Food Systems (AGRI 1600)

Number of Credit Hours: 3

Class Times & Days of the Week: Lectures are offered from 10:30-11:20 am, Mondays, Wednesdays and Fridays. Labs are offered from 2:30-5:15 pm, Monday through Friday.

Pre-Requisites: None

Instructor Contact Information

Instructor Name & Preferred Form of Address: Marla Riekman (please refer to me as Marla) Instructor

Office Hours or Availability: Students with questions or suggestions are strongly encouraged to ask questions during or immediately after the regular lecture periods (MWF 10:30-11:20). I will also be available for individual appointments, as requested. Please contact me via email and we will mutually agree on an appointment time.

Office Phone No.: 204-918-8440 (cell)

Email: marla.riekman@umanitoba.ca

My preference is that you contact me by email, but I will also respond to text messages. When emailing, please identify the course number and/or lab section in the subject line so I know which class or lab section you are referring to. When texting, please also identify yourself by name so I know who I am responding with!

COURSE DESCRIPTION

U of M Course Calendar Description
This course explores agricultural production systems with special focus on the Canadian Prairies. Students will develop scholarly, social, communication and professional skills that will enable them to be successful in the application of technical knowledge to food production challenges.
General Course Description
This course is an introductory agriculture course that serves as a foundation for more intense study in agriculture. Students entering the Faculty of Agricultural and Food Sciences are required to take this course as it serves as a pre-requisite for PLNT 2500 (Crop Production), ANSC 2500 (Animal Production). In addition, this course is of interest to students that wish to explore the importance of agriculture in their lives.

COURSE GOALS AND LEARNING OBJECTIVES
The goal of this course is to introduce students to crop and livestock production systems in Manitoba and around the world. By the end of this course students should be able to:

- Identify the role of agriculture in the world and be able to describe basic agricultural systems.
- Explain scientific concepts of agricultural production systems situated within a broad understanding of food systems.
- Demonstrate foundational knowledge related to the land resource, and crop and animal production systems, with special focus on the Canadian Prairies.
- Apply critical thinking skills to evaluate knowledge in agricultural sciences to contribute to the betterment of society.
- Evaluate information to solve emerging problems and challenges in food production systems on a local, national, and global scale.
- Demonstrate lifelong learning skills by accessing knowledge and skills to keep abreast in agricultural sciences; demonstrate research and information literacy skills; engage in reflective practice; adapt to change.
- Work effectively and respectfully in multidisciplinary and multicultural teams to successfully accomplish a purpose.
- Be aware of the requirements for achieving appropriate professional designations, and work in inter-professional environments including our ethical and professional responsibilities.

COURSE MATERIALS AND TECHNOLOGY
Students are also expected to regularly access the notices and class material posted on the UMLearn website for this course. There is no required textbook for this course, but you can find a list of Recommended Readings in the Content section for this course on UMLearn.

Summary lecture slides and reference material will be posted on UMLearn. In addition, recordings for online lectures will be available via Webex on UMLearn for streaming for a minimum of one week and a maximum of two weeks after the lecture is given. For more information about accessing UMLearn, go to: https://centre.cc.umanitoba.ca/technology/umlearn/

Students are expected to utilize reliable internet with sufficient capacity to handle online lectures, labs, and exams. Please note that in cases where internet access fails, students will have access to a toll-free dial-in number to support audio-only calls with Webex for teaching and learning. This option will appear automatically when students login to a Webex session.
To participate in lectures and labs via Webex, please follow the following instructions:

- Open Chrome browser (Google Chrome is the preferred browser for use with Webex).
- Log into UM Learn.
- Locate this course in UM Learn and click into the UM Learn home page for the course.
- Click on the “Integrations” tab at the top; click on “Cisco Webex” to see the “Event Calendar”.
- In Webex, click on the appropriate date and time to “Join” the lecture or lab session (The option to “Join” the session will only begin 15 minutes prior to the session start time).
- To ask questions about the course content, type your request in the chat box and make sure your chat is set to "all attendees". If your question is better asked aloud, you may request that the instructor unmute you during or after the lecture.
- If you run into problems on UM Learn, please send an email to the instructor as listed above.

---

**EXPECTATIONS AND POLICIES**

**Expectations for this course:**

- I will treat you with respect and would appreciate the same courtesy in return. University policy on respectful work and learning environments can be found here: [http://umanitoba.ca/admin/governance/governing_documents/community/230.html](http://umanitoba.ca/admin/governance/governing_documents/community/230.html)
- I expect you to participate in lectures from 10:30-11:20 on Mondays, Wednesdays, and Fridays, and your selected weekly lab session from 2:30-5:15, Monday to Friday. This format will facilitate a sustainable pace for learning, plus “live” discussion of students’ questions and assisted work during the lab periods.
- I expect you to actively engage in classroom activities, such as answering iClicker questions and engaging in small group discussions. You will be assigned marks for your participation in class which will count toward your final grade.
- I expect you to be an active member of your assigned lab group to complete weekly assignments.
- You can expect me to respond to questions asked in class, either within the lecture that they were asked, or at the beginning of the next lecture.
- You can also expect me to respond to your emails within 24 hours of receiving them, from Monday to Friday. I may respond to emails over the weekend, but please don’t expect a quick response if emailing on the weekend!

**Class Communication:**

- You are required to obtain and use your University of Manitoba email account for all communication between yourself and the university.
- All communication must comply with the Electronic Communication with Student Policy: [http://umanitoba.ca/admin/governance/governing_documents/community/electronic_communication_with_students_policy.html](http://umanitoba.ca/admin/governance/governing_documents/community/electronic_communication_with_students_policy.html)

**Student Accessibility Services:**

The University of Manitoba is committed to providing an accessible academic community. [Students Accessibility Services (SAS)](http://umanitoba.ca/admin/governance/governing_documents/community/electronic_communication_with_students_policy.html) offers academic accommodation supports and services such as note-taking, interpreting, assistive technology and exam accommodations. Students who have, or think they may
have, a disability (e.g. mental illness, learning, medical, hearing, injury-related, visual) are invited to contact SAS to arrange a confidential consultation.

Student Accessibility Services
520 University Centre
Phone: (204) 474-7423
Email: Student_accessibility@umanitoba.ca

Recording Synchronous Sessions/Online Lectures:
Online lectures will be recorded and available for streaming for a minimum of one week, to a maximum of two weeks. Please note that, when lectures are recorded, both your video feed and any comments typed into the chat box will be recorded as well. Students may choose to utilize or disable their individual video and audio settings during recordings. If you choose to utilize your video and audio, your personal information, in the form of your image and any questions or answers you pose during lectures, may be collected under the authority of The University of Manitoba Act. Recorded lectures will be used by the University for the purpose of providing students with access to lecture content via UM Learn. Your personal information will not be used or disclosed for other purposes, unless permitted by The Freedom of Information and Protection of Privacy Act (FIPPA). If you have any questions about the collection of your personal information, contact the Access & Privacy Office (tel. 204-474-9462), 233 Elizabeth Dafoe Library, University of Manitoba, Winnipeg, MB, R3T 2N2.

Copyright:
Please respect copyright. We will use copyrighted content in this course. I have ensured that the content I use is appropriately acknowledged and is copied in accordance with copyright laws and university guidelines. Copyrighted works, including those created by me, are made available for private study and research and must not be distributed in any format without permission. Do not upload copyrighted works to a learning management system (such as UM Learn), or any website, unless an exception to the Copyright Act applies or written permission has been confirmed. For more information, see the University’s Copyright Office website at http://umanitoba.ca/copyright/ or contact um_copyright@umanitoba.ca.

This material is copyrighted by the University of Manitoba, 2022. No audio or video recording of this material, lectures, or presentations is allowed in any format, openly or surreptitiously, in whole or in part without permission of the University of Manitoba. Course materials (both paper and digital) are for the participant’s private study and research, and must not be shared. Violation of these and other Academic Integrity principles, will lead to serious disciplinary action.

______________________________

LECTURE SCHEDULE

The lecture and lab schedule is subject to change at the discretion of the instructor and/or based on the learning needs of the students but such changes are subject to Section 2.8 of ROASS.

### LAB SCHEDULE

Lab attendance is required for this course. It is important that you attend the lab section for which you are registered. Under exceptional circumstances (ex: illness, medical appointments, etc) that prevent you from attending your regular lab section, you may contact the TA for another lab section to request permission to attend an alternate section. This permission will not be granted on a regular basis. Also let the lab TA for your usual lab section know if you have made alternative arrangements. Attendance is taken in lab each week. If you are sick or you know that you are going to be away, it is courteous to let your lab TA know that you will be missing lab in person or by email.

| Apr 18-22       | **Lab 8**: Debates and Discussion, Part 2                                 |

**Voluntary Withdrawal**

The last day to drop the class and receive 100% refund is February 4, 2022. The last day to withdraw with no refund (VW) is April 25, 2022. Students who do not drop the course by April 25, 2022 will be assigned a final grade. Withdrawn courses will be recorded on your official transcript. Please refer to the Registrar’s Office web page for more information. You can consult with me or a faculty student advisor if you are concerned about your progress in the course in advance of the withdrawal deadline.

**COURSE ASSESSMENT**

To pass this course you will need to: 1) complete all section quizzes and the final assignment, 2) complete the online tutorial and quiz on academic integrity, and 3) obtain a passing grade on the lab portion of the course. The results of the first four section quizzes will be given to students prior to the voluntary withdrawal date.

Your final grade will be determined based on your performance in the following assessments:

- Section Quizzes (six total) 40%
- Lab Assignments 25%
- Participation 5%
- Final Exam 30%

Each section quiz will be available for completion over a three day period at the end of each lecture section. You will have up to 35 minutes from the time the quiz is started to complete it. You will be given up to three attempts to write the section quiz; however, with each additional attempt, your final grade will be reduced by 10 percentage points (i.e. on your first attempt, the maximum grade you can obtain is 100%, on your second attempt the maximum grade you can obtain is 90% and on your third attempt the maximum grade you can obtain is 80%). For example, if you got 85% of the questions correct on your second attempt at a quiz, your final grade would be reduced to 75%, and if it was your third attempt, your final grade would be reduced to 65%. The mark from your last quiz
attempt will be applied to your final grade. Questions on the quiz will be randomly selected from a quiz bank; therefore, each quiz will be different from the other.

Lab assignments will be a mixture of individual and group work. The final group assignment in the lab will be a debate and discussion where your group will debate on an assigned topic. Your individual grade for the group assignment will be assessed based on your group’s performance during the debate, as well as a peer assessment of your contributions to the group while preparing for the debate.

Participation marks will be given based on your activity in the weekly live lecture sessions. You will be required to download the iClicker app (https://news.umanitoba.ca/iclicker-reef-a-new-and-free-mobile-app-for-students/) to your phone or computer and register an account in order to answer questions to obtain participation marks. You will need to use your UofM student email account to register for your iClicker account. The weekly live sessions will be an opportunity for you to interact with your instructor and fellow students, and to engage in thoughtful conversation and broaden your knowledge about agricultural production.

The final exam will be written over a 2-hour period, as scheduled by the University. More information on the style of exam will be given during the course lectures leading up to the final.

Referencing Style

Many different referencing styles are used within the different scientific disciplines studied within the field of agriculture. For this course, you will be expected to use the Council of Science Editors (CSE) style. This involves using both a reference list and in-text citation. A CSE style guide is available on UMLearn and will be reviewed during the library lab sessions. If you have questions about referencing or using style for referencing you can consult the Agriculture Librarian, your lab TA, or your course instructor.

Assignment Extension and Late Submission Policy

Students who are unable to meet a course requirement due to medical circumstances are currently not required to submit medical notes. However, students are required to contact their instructor or academic advisor by email to inform of the missed work and to make arrangements for extensions, deferrals, or make-up assignments. Please follow these guidelines if you are unable to meet an academic requirement for your courses.
- Contact your instructor for term work such as a class, quiz, midterm/test, assignment, lab;
- Contact an advisor in your faculty/college/school of registration for a missed final exam (scheduled in the final examination period);
- Inform your instructor/advisor as soon as possible do not delay. Note for final exams, students must contact within 48 hours of the date of the final exam; and
- Email your instructor/advisor from a U of M email address, and include your full name, student number, course number, and academic work that was missed.

Late Assignments: Assignments must be submitted through UMLearn Assignment Drop Boxes on the date due. A 10% reduction in grade will be applied for every 24-hour period an assignment is late (unless an extension has been granted).

Missed Assignments: Unexcused missed assignments will be given a grade of zero. Where assignments are missed due to illness (see above), evidence of death in the family, or other circumstances that are beyond the control of the student, the student may be given the following options: 1) complete the assignment and receive the late assignment penalty as described above, 2) establish a new due date with the instructor and complete the assignment without penalty when handed in by the new due date, or 3) the final grade will be determined by increasing the value of the final exam by the amount that would have been allocated to the missed assignment. Option three will only be available under extreme circumstances.

Missed Quizzes: Unexcused missed quizzes will be given a grade of zero. Students cannot pass the course unless they complete all section quizzes and submit the final assignment. Where a quiz is missed due to illness, evidence of death in the family, or other circumstances that are beyond the control of the student, the student may be given the following options: 1) re-schedule a date for the quiz with the instructor and complete the quiz at that time (the instructor has the option to set a different quiz), or 2) the final grade will be determined by increasing the value of the final assignment by the amount that would have been allocated to the missed quiz. If the final assignment is missed and an appropriate excuse has been provided, procedures outlined in the University of Manitoba Undergraduate Calendar for deferral will be followed.

**Academic Integrity**

Every student in the course must complete a tutorial and quiz on academic integrity. This tutorial and quiz will be discussed in lab the week of January 31, 2022. The tutorial and quiz will be accessed through your lab section on UMLearn website.

Plagiarism or any other form of cheating in examinations, term tests or academic work is subject to serious academic penalty. Cheating in examinations or tests may take the form of copying from another student or bringing unauthorized materials into the exam room. Exam cheating can also include exam impersonation. A student found guilty of contributing to cheating in examinations or term assignments is also subject to serious academic penalty. Referencing and in-text citation expectations for this course will be reviewed in the Library lab session. Expectations for academic integrity, appropriate collaboration on assignments, and the consequences and process for dealing with cases within the Faculty of Agricultural and Food Sciences will be reviewed during the Academic Integrity and Professionalism lab session.

Students should familiarize themselves with the University’s policy on plagiarism, cheating, exam impersonation and duplicate submission. See the section on Academic Integrity in the University of Manitoba Undergraduate Calendar. Each student in this course is expected to compete their
coursework and programs of study with integrity by making a commitment to the six fundamental values of honesty, trust, fairness, respect, responsibility, and courage. [http://umanitoba.ca/student-supports/academic-supports/academic-integrity](http://umanitoba.ca/student-supports/academic-supports/academic-integrity)

Always remember to reference the work of others that you have used. Also be advised that you are required to complete your assignments independently unless otherwise specified. If you are encouraged to work in a team, ensure that your project is completed with integrity. You must also do your own work during exams. Plagiarism, duplicate submission, cheating on quizzes, tests, and exams, inappropriate collaboration, academic fraud, and personation are in violation of the Student Discipline Bylaw and will lead to the serious disciplinary action. Visit the [Academic Calendar](http://umanitoba.ca/student-advocacy), [Student Advocacy](http://umanitoba.ca/student-advocacy), and [Academic Integrity](http://umanitoba.ca/student-advocacy) web pages for more information and support.

---

**LEARNER SUPPORT**

Additional information on University support services and University Policies for students are available on the UMLearn course website and on the University of Manitoba website. Here are some resources and policies the University of Manitoba would like you to be aware of:

**Writing and Learning Support**

The Academic Learning Centre (ALC) offers writing and learning supports to help you throughout your academic program. These supports are offered online during the Covid-19 pandemic.

Make an appointment with an ALC writing tutor who can give you feedback at any stage of the writing process, whether you are just beginning to work on a written assignment or already have a draft. The ALC also has an English as an Additional Language (EAL) specialist available to work with students on improving their English-language academic writing skills.

Consult an ALC learning specialist or attend an academic skills workshop to improve your time management, learning strategies and test-taking strategies. Get support in select courses by making an appointment with an ALC content tutor. The ALC also offers peer-facilitated study groups called Supplemental Instruction (SI) for certain courses that students have typically found difficult. In SI study groups, students ask questions, compare notes, discuss content, solve practice problems, and develop new study strategies in a group-learning format.

In addition to one-to-one and group sessions, you can also find writing and study tip sheets and videos on the ALC website.

Academic Learning Centre services are free for U of M students. For more information, please visit the Academic Learning Centre website at: [http://umanitoba.ca/student/academiclearning/](http://umanitoba.ca/student/academiclearning/)

Contact the Academic Learning Centre by calling 204-480-1481 or emailing academic_learning@umanitoba.ca. Bannatyne students can contact the Bannatyne Student Services office at 204-272-3190.
University of Manitoba Libraries (UML)
Research begins at UM Libraries. Learn at the Libraries is a great place to start, with information for students on academic writing, how to search the library, evaluating resources, and writing citations. As the primary contact for all research needs, your liaision librarian can play a vital role when completing academic papers and assignments. Liaisons can answer questions about locating appropriate resources or managing citations, and will address any other concerns you may have regarding the research process. Liaisons can be contacted by email or phone, and are also available to meet with you online. When working remotely, students can also receive help online through Ask Us! chat. For further detail about the libraries’ services and collections, visit the Libraries’ web site. Regularly check our COVID-19 Update page for available library services and access to resources for Fall 2020.

For 24/7 mental health support, contact the Mobile Crisis Service at 204-940-1781.

Student Counselling Centre
Contact SCC if you are concerned about any aspect of your mental health, including anxiety, stress, or depression, or for help with relationships or other life concerns. SCC offers crisis services as well as individual, couple, and group counselling. Student Counselling Centre: http://umanitoba.ca/student/counselling/index.html
474 UMSU University Centre or S211 Medical Services Building
(204) 474-8592

Student Support Case Management
Contact the Student Support Case Management team if you are concerned about yourself or another student and don’t know where to turn. SSCM helps connect students with on and off campus resources, provides safety planning, and offers other supports, including consultation, educational workshops, and referral to the STATIS threat assessment team. http://umanitoba.ca/student/case-manager/index.html
520 UMSU University Centre
(204) 474-7423 (Student Support Intake Assistant)

University Health Service
Contact UHS for any medical concerns, including mental health problems. UHS offers a full range of medical services to students, including psychiatric consultation. Note that due to fire displacement, UHS is unable to provide in-person medical care on the Fort Garry Campus until October, 2020.
University Health Service http://umanitoba.ca/student/health/
(204) 474-8411 (Business hours or after hours/urgent calls)

Health and Wellness
Contact our Health and Wellness Educator if you are seeking information on health topics, including physical and mental health concerns, alcohol and substance use harms, or sexual violence. You can also access peer support from a Healthy U peer health educator.
Health and Wellness Educator  
https://umanitoba.ca/student/health-wellness/welcome-about.html

britt.harvey@umanitoba.ca  
469 UMSU University Centre  
(204) 295-9032

Sexual Violence Resource Centre  
Contact SVRC if you have experienced sexual violence or are seeking information about how to help somebody else. SVRC provides inclusive, survivor-centred, trauma-informed services, such as consultation, referrals, safety planning, and a range of on-site supports, including counselling by Klinic.

Sexual Violence Resource Centre  

svrc@umanitoba.ca  
537 UMSU University Centre  
(204) 474-6562 (Sexual Violence Intake and Triage Specialist)

Student Services at Bannatyne Campus  
Contact SS@BC to access a full range of resources and supports for learners at the Rady Faculty of Health Sciences. Services are provided through a one-stop hub that includes a range of supports for personal and academic success, including counselling, mental health consultation, and spiritual care.

Student Services at Bannatyne Campus  
https://umanitoba.ca/student-supports/student-services-bannatyne-campus

(204) 272-3190 (Intake and Triage Specialist)

Copyright:  
All students are required to respect copyright as per Canada’s Copyright Act. Staff and students play a key role in the University’s copyright compliance as we balance user rights for educational purposes with the rights of content creators from around the world. The Copyright Office provides copyright resources and support for all members of the University of Manitoba community.

Visit http://umanitoba.ca/copyright for more information.

University and Unit policies, procedures, and supplemental information available on-line:

Your rights and responsibilities  
As a student of the University of Manitoba you have rights and responsibilities. It is important for you to know what you can expect from the University as a student and to understand what the University expects from you. Become familiar with the policies and procedures of the University and the regulations that are specific to your faculty, college or school.

The Academic Calendar http://umanitoba.ca/student(records/academiccalendar.html is one important
source of information. View the sections University Policies and Procedures and General Academic Regulations.

- If you have questions about your grades, talk to your instructor. There is a process for term work and final grade appeals. Note that you have the right to access your final examination scripts. See the Registrar’s Office website for more information including appeal deadline dates and the appeal form http://umanitoba.ca/registrar/

- You are expected to view the General Academic Regulation section within the Academic Calendar and specifically read the Academic Integrity regulation. Consult the course syllabus or ask your instructor for additional information about demonstrating academic integrity in your academic work. Visit the Academic Integrity Site for tools and support http://umanitoba.ca/academicintegrity/ View the Student Academic Misconduct procedure for more information.

- The University is committed to a respectful work and learning environment. You have the right to be treated with respect and you are expected conduct yourself in an appropriate respectful manner. Policies governing behavior include the:
  
  Respectful Work and Learning Environment
  http://umanitoba.ca/admin/governance/governing_documents/community/230.html
  
  Student Discipline
  http://umanitoba.ca/admin/governance/governing_documents/students/student_discipline.html
  and,
  
  Violent or Threatening Behaviour
  http://umanitoba.ca/admin/governance/governing_documents/community/669.html

- If you experience Sexual Assault or know a member of the University community who has, it is important to know there is a policy that provides information about the supports available to those who disclose and outlines a process for reporting. The Sexual Assault policy may be found at: http://umanitoba.ca/admin/governance/governing_documents/community/230.html More information and resources can be found by reviewing the Sexual Assault site http://umanitoba.ca/student-sexual-assault/

- For information about rights and responsibilities regarding Intellectual Property view the policy: https://umanitoba.ca/admin/governance/governing_documents/community/235.html

- For information on regulations that are specific to your academic program, read the section in the Academic Calendar and on the respective faculty/college/school web site http://umanitoba.ca/faculties/

- Contact an Academic Advisor within our faculty/college or school for questions about your academic program and regulations http://umanitoba.ca/academic-advisors/

Student Advocacy
Contact Student Advocacy if you want to know more about your rights and responsibilities as a student, have questions about policies and procedures, and/or want support in dealing with academic or discipline concerns.
