Course Description

U of M Course Calendar Description

In this area duplicate the content from the U of M course catalogue. It provides continuity for the students who choose to take your course based on the description they read in the calendar. Also, add in any explicit or implicit requirements for the course.

General Course Description

Application of growth and development of herbaceous perennial species, as well as annual species, on the quality and quantity of forage produced for animal intake, biomass production and/or seed productivity. Emphasis will be placed upon the manipulation of plant growth to provide forage (annual or perennial) for a given animal production system (e.g. beef production, dairy production) and biomass production and/or seed production of herbaceous perennial species. A detailed understanding of growth and development of herbaceous perennial plants, including an understanding of the use of growth scales to aid in the assessment of plant stand characteristics as they relate to vegetative and reproductive quantity and quality. A discussion of agronomic practices that may be utilized to affect plant growth and development including fertilization, haying, grazing and other cultural practices will be entered upon.

Course Goals

To understand plant growth and development and how it can be applied to construct an effective feeding program, or a component of a system for animal production, for perennial biomass production and for seed production of herbaceous perennial species.

Course Learning Objectives

To acquire knowledge of plant growth and development to utilize in a bovine feeding system:

- 1) Interspecific differences in growth and development.
- 2) Intraspecific (cultivar or varietal) differences and how they may be utilized to fit production systems.
- 3) Plant development and quality characteristics for biomass quantity, quality and utilization.
- 4) Growth and development scales for quantification of development stage and its relationship to biomass quality.
- 5) Utilization of agronomic practices to manipulate plant development for herbaceous perennial production in an animal feeding regime.
- 6) Impact of phenological development and the impact on end-use (forage, feed, food and fibre).
- 7) Development of methodological parameters to capture phenological development stages.

Textbook, Readings, and Course Materials

Students will be provided papers to read prior to the class which will be discussed with respect to their applicability to the course objectives. Students will bring questions to class to ask with respect to the assigned papers.

Sexual Violence Policies

The UM has several policies and procedures that deal with the rights and responsibilities of the University community with regards to all forms of sexual violence. For a comprehensive list of

policies and associated resources, visit the [Sexual Violence Resource Centre's information page](https://umanitoba.ca/student-supports/sexual-violence-support-and-education/sexual-violence-get-informed) (<https://umanitoba.ca/student-supports/sexual-violence-support-and-education/sexual-violence-get-informed>). Please note that there are many supports available in addition to these policy documents (see UM Learner Supports).

Voluntary Withdrawal

Voluntary withdrawal (VW) is a way for students to leave a class without academic penalty once the Registration Revision Period has ended. If you opt to voluntarily withdraw from a course, you will not be eligible for a refund and, if applicable, will still be required to pay any outstanding tuition fees for the course. On your transcript, the course you have withdrawn from will be listed; however, "VW" will appear in lieu of a grade. If you do not drop a course before the VW deadline, you will receive a final grade in the course on your transcript.

Please note that there are separate deadlines for dropping a course early in a term during the Registration Revision Period. Dropping a course means you are removing that course from your schedule, will not be charged tuition fees for that course, and the course will not appear on your transcript.

The Registrar's Office website, [Withdraw from a Course](https://umanitoba.ca/registrar/withdraw-course) (<https://umanitoba.ca/registrar/withdraw-course>), includes more information on the different ways in which you can withdraw from a course and important dates and deadlines to do so.
