ABIZ 0710, Agricultural and Food Policy  
Winter 2023  
University of Manitoba  
Tuesdays and Thursdays 1:00-2:15pm  
Agriculture 138

Professor: Ryan Cardwell  
Office: 379 Agriculture  
Telephone: 204-474-9609

Email: all email communication is to be conducted through email tool on the UM Learn course site. Messages will be answered within two business days. Messages sent to the Professor’s U of M email address will not receive responses.

All course-related email correspondence from me will be sent to the address on file with UM Learn.

Course-related materials will be posted to the course webpage (not on UM Learn) at https://ryancardwell.wordpress.com/teaching/abiz-0710-agricultural-and-food-policy/.

Office Hours: Please contact me via UM Learn to set an appointment. We can meet in person or online.

Course Objectives:  
The objective of this course is to provide students with an understanding of the motivations for government policies related to food and agriculture, and the policy instruments that are used to pursue policy objectives. All government policies create winners and losers – we will spend a lot of time discussing how to identify the effects on the winners and the losers of government policies.

The first part of the course introduces motivations for agricultural policies and describes some tools that can be used to target policy goals. The second part provides details on specific policies, with emphasis on Canadian food and agricultural policies. Students are expected to have basic knowledge of microeconomics.

Programmes such as AgriStability are analysed, however it is important to note that the primary goal of this course is not to memorise the details of specific government policies. Government policies change every few years, so knowledge of a specific program is useful only for limited period of time. This course is intended to provide students with the tools to understand and analyse the economics effects of current and future agricultural policies.
Evaluation:
Problem set 5%
Midterm #1 (March 2) 15%
Midterm #2 (March 23) 20%
Project 20%
Final Examination 40%

Reading Material:
There is no required textbook for this course. Lecture material will be drawn from several sources, some of which are listed below. Additional reading material will be assigned throughout the term as needed.

Some useful sources:

1. An Overview of the Canadian Agriculture and Agri-Food System 2017, Agriculture and Agri-Food Canada.

* this text is referred to as Schmitz et al. throughout the rest of the syllabus.

Outline of Topics:

1. Agriculture and Agribusiness in Canada
   Readings:

2. Introduction to Policy Analysis
   Readings:
   a) Schmitz et al., chapters 1 and 2.

3. Income Stabilisation

4. Marketing and Market Regulation
   Readings:

5. Environmental Policy
   Readings:
   Schmitz et al., chapters 14 and 15.

6. International Considerations
   Readings:

7. Other topics
   a) Business risk management
   b) Current events
   c) Other interests
Lecture Slides and Notes
I do not distribute lecture notes. Students are responsible for getting missed notes from classmates.

Important Dates
See the following website for important academic dates:

Students will receive grades on their first midterm exam before the voluntary withdrawal deadline.

Academic Integrity and Other Unpleasantness
• Assignments are subject to a penalty of 20% per day late.
• Missed examinations will be assigned a grade of 0 unless the professor is notified before the start of the missed examination. In the event of notified missed examinations, the points allocated to that exam will be added to the weight of the final exam.
