SYNOPSIS | Alison Brooks, Principal and Creative Director of Alison Brooks Architects, will discuss her practice philosophy, architectural approach and the ideals of 'authenticity, generosity, civicness and beauty' relating her current and recently completed projects. These include the new Cohen Quadrangle for Exeter College, Oxford University and new models for urban housing such as Ely Court, shortlisted for the 2017 Mies Award for Contemporary European Architecture.

BIO | Alison Brooks, Principal and Creative Director of Alison Brooks Architects, is one of the leading architects of her generation. She has developed an international reputation for a multi-award winning body of work since founding the practice in 1996.

Alison's architectural approach emerges from broad cultural research, with each of her projects expressing a specific response to place, community, and landscape. Named in 2012 by Debrett's as one of 'Britain's 500 Most Influential', Alison Brooks is the only British architect to have won all three of the UK's most prestigious awards for architecture: the RIBA Stirling Prize, Manser Medal and Stephen Lawrence Prize.
