COURSE DESCRIPTION AND OBJECTIVES

The aims of this course are (1) to build students' ability to apply theory and research to the practice of negotiation as an approach to conflict resolution, and (2) to improve students' negotiation ability through practical, hands-on experience.

Over the span of the term, students will take part in a series of experiential exercises ranging from simple buyer-seller bargaining to complex, multiparty, multi-issue negotiation. The course connects these firsthand experiences to readings on the behavioural and social underpinnings of negotiation.

We will cover the fundamentals of distributive and integrative negotiation, and will examine a range of important issues in negotiation, including ethics, multiparty negotiations, technology, and employment negotiation.

The course will provide you with hands-on experience in a range of negotiation situations. Over the course of the term, you will take part in a number of bilateral and multilateral negotiations.

The course will also help you to better understand the social, economic, and psychological mechanisms of negotiation. Each week, you will complete readings and participate in class discussions aimed at helping you generalize from your experience and better understand the fundamental principles of effective negotiation.

These two elements are closely linked. Experience is a necessary but insufficient condition for success in negotiation. Veteran negotiators regularly strike bad deals because they fall victim to various misconceptions and myths about negotiation strategy and tactics. The combination of readings, class discussions and hands-on experience will help you create and claim value in negotiation, and

understand how to apply the principles of negotiation to a wide range of situations you will encounter in your professional lives.

COURSE FORMAT AND HEALTH & SAFETY PROTOCOLS

This course will be taught live in-person, unless there's a different directive from the university or the government. We will observe the health-related protocol mandated by the university. Please check the [COVID-19 Updates](#) webpage of the university and the [COVID-19 health and safety protocols](#) to know what is expected of you for the in-person part of the course.

COURSE ASSESSMENT

Your course grade is made up of five components. The components, and their weighting in the calculation of your grade, are listed below:

Self-Reflection Exercise	10%
In-class Midterm Exam	30%
In-Class Assignments	15%
Class Participation	10%
Final Exam	35%
Total	100%

Student progress will be assessed through:

Self-Reflection Exercise (10%)

Before the start of Class 8, you must complete a "collecting nos" exercise and submit a written reflection.

In-Class Assignments (15%)

To be discussed in class.

Midterm-Exam (30%) and Final Exam (35%)

An open book exam will be conducted on July 5 and July 21. Details on the exam format will be shared in Class 1. Questions will be based on in-class negotiations, lectures, textbook, and assigned readings. Both tests will be administered online during class and two hours in duration.

Final Grades

The anticipated class average will generally be expected to correspond to a GPA of 3.5 (B+), though the details are at the discretion of the MBA Office and/or the Associate Dean of Professional Programs. Any such adjustments will be to the final grades (the relative weighting of each individual course component will remain unchanged).

In the event of a skewed distribution of grades, the total course marks may be curved up or down as necessary (the weighting of each component will remain unchanged).

Class Policy on Regrading

Requests for re-grading must be made in writing. Your written request should be made on a separate email. You must clearly identify the question you wish remarked and provide detailed justification. Please note the instructor reserves the right to remark the entire test or assignment so your mark may go up or down.

NOTE: Class attendance is expected. It is your responsibility to inform your professor in advance of any planned absence and as soon as reasonably possible for any unplanned absences, and provide a legitimate reason for the absence. Given the additional and unpredictable personal and professional demands you are faced with during the pandemic, I am ready to work with you to find solutions if you find yourself unexpectedly ill, caring for others, or face other disruptions.

Specific to this class:

Our negotiation exercises are disrupted when people are unexpectedly absent. If someone has prepared their role and their partner simply doesn't show, it creates a serious problem.

Prior to or during the negotiation, you may not look at anyone else's confidential role information, nor may you show them your own confidential role information. Real negotiations do not have their structure set out for both sides in a pair of tidy point-system tables established by some outside authority. By showing your partner your point sheet, you break the realism of the exercise. You also reduce the educational value of the exercise in terms of improving your own effectiveness in real-world negotiations. (This also holds for seeking out "spoilers" about payoffs/point sheets/role information online).

Your self-assessments, interviews, and class assignments are individual work. You may not share yours (for example, as a "template" or "model") with other students before they have completed their own. Excessive similarities, even in structure or framework alone, may be investigated for issues with academic integrity. Ask the instructor if you need any clarification.

ACADEMIC REGULATIONS AND STUDENT SERVICES

HUMAN ETHICS APPROVAL FOR DATA COLLECTION

As part of coursework, if you will be collecting data from people who are not students in this class, you must obtain Human Ethics approval from the UofM's Research Ethics Board (REB) prior to data collection. This applies to data collection such as surveys, interviews, focus groups, experiments, video recording, etc., where a respondent is solicited for participation.

If the entire class will be working on the same project, your instructor will apply for human ethics approval from the REB. If individuals or small groups of students will be working on different projects, it is the responsibility of the students to obtain approval (only one group member needs to apply). Your instructor will tell you whether s/he will be or you need to. When in doubt, please talk to your instructor.

Instructions and forms to apply for human ethics approval can be found at:

<http://umanitoba.ca/research/orec/ethics/guidelines.html>

In most cases, you will be using the "Protocol Submission Form" which is under the "REB Forms - Fort Garry Campus" heading.

It can take up to six weeks to process human ethics applications and obtain approval. Therefore, plan early. Note that approval must be obtained prior to data collection and cannot be obtained during the data collection phase or retroactively. Violation can get you, your instructor, and the Asper School in serious trouble with the REB.

If you will be collecting data only from other students in the class, you do not need REB approval. If you have any questions, please contact humanethics@umanitoba.ca or your instructor.

UNCLAIMED ASSIGNMENT POLICY

Pursuant to the FIPPA Review Committee's approved recommendations of August 15, 2007, all unclaimed student assignments will become the property of the faculty and will be subject to destruction six months after the completion of any given academic term.

STUDENT SERVICES AND SUPPORTS

ACADEMIC INTEGRITY

I.H. Asper School of Business, The University of Manitoba

It is critical to the reputation of the I. H. Asper School of Business and of our degrees that everyone associated with our faculty behaves with the highest academic integrity. As the faculty that helps create business and government leaders, we have a special obligation to ensure that our ethical standards are beyond reproach. Any misconduct in our academic transactions violates this trust. The University of Manitoba Graduate Calendar addresses the issue of academic misconduct under the heading "Plagiarism and Cheating." Specifically, acts of academic misconduct include, but are not limited to:

- using the exact words of a published or unpublished author without quotation marks and without referencing the source of these words
- duplicating a table, graph or diagram, in whole or in part, without referencing the source
- paraphrasing the conceptual framework, research design, interpretation, or any other ideas of another person, whether written or verbal (e.g., personal communications, ideas from a verbal presentation) without referencing the source
- copying the answers of another student in any test, examination, or take-home assignment
- providing answers to another student in any test, examination, or take-home assignment
- taking any unauthorized materials into an examination or term test (crib notes)
- impersonating another student or allowing another person to impersonate oneself for the purpose of submitting academic work or writing any test or examination
- stealing or mutilating library materials
- accessing tests prior to the time and date of the sitting
- changing name or answer(s) on a test after that test has been graded and returned
- submitting the same paper or portions thereof for more than one assignment, without discussions with the instructors involved.

Many courses in the I. H. Asper School of Business require group projects. Students should be aware that group projects are subject to the same rules regarding academic misconduct. Because of the unique nature of group projects, all group members must exercise extraordinary care to insure that the group project does not violate the policy on Academic Integrity. Should a violation occur on a group project, all group members will be held jointly accountable, no matter what their individual level of involvement in the specific violation.

Some courses, while not requiring group projects, encourage students to work together in groups (or at least do not prohibit it) before submitting individual assignments. Students are encouraged to discuss this issue as it relates to academic integrity with their instructor to avoid violating this policy.

In the I. H. Asper School of Business, all suspected cases of academic misconduct involving a graduate student (i.e. MBA, MFin, MSCM, MSc or PhD student) will be reported directly by the instructor to the Dean of the Faculty of Graduate Studies.
