

The Co-operative Education Program Fees

The fee to enroll in the Asper Co-op Program consists of two parts: the co-op program fee and the credit hour fee. This fee is distributed throughout your co-op program and is assessed and due upon registration for each individual work term.

The Co-op Program Fee

The Asper Co-op Office provides year-round facilities, full-time staffing and support for the administration of the program. The Co-op Program receives no funding from the University. Your fees are used for covering the costs directly related to the effective management and promotion of the Asper Co-operative Education Program.

Services Provided

- Extensive pre-employment training and support
- Continuous training as needed during your entire co-op career, including graduation
- Personal consultation in preparing for interviews and presenting yourself professionally
- Marketing the benefits of the program, the strengths of Asper students, and developing relationships with prospective local and national employers
- Development of co-op specific job opportunities through on-going business development activities with prospective and current employers
- Exclusive access to co-op job postings online through the Asper Career Portal
- Coordinating the job application and interview/selection process on behalf of students and employers
- Access to room facilities for interviews; office and administrative support
- Conducting mid-term performance evaluation meetings with your work supervisor
- On-going support during your work terms including assistance in resolving workplace issues

The Credit Hour Fee

Each work term is valued at one credit hour and will be included in your overall GPA. Upon successful completion of all three (3) work terms, a student will receive one (1) Business Option requirement (3 credit hours in total).

The credit hour fee is determined and set by the University of Manitoba and the Asper School of Business (info on UM website - <https://umanitoba.ca/registrar/tuition-fees/undergraduate>).

Your Return on Investment

Asper Co-op Program Costs Co-op Program Fee = *\$849.54 1 Credit Hour Fee = **\$192.66 \$1,042.20 **International Student rate per credit hour is \$736.37	Potential Asper Co-op Earnings Approximate monthly co-op salary = \$3,315 (based on overall hourly wage for co-op student employees)
Total Investment over 5 years \$1,042.20 (3 Co-op Work Terms) x3 = \$3,126.60	Total Return over 5 years \$3,315 (Each 4 month work term) x4 \$13,260 (3 work terms) x3 = \$39,780
Your Return on Investment: \$39,780 - \$3,126.60 = \$36,653 *Subject to tuition fee increases as per all University of Manitoba courses. ** Please note: International students will have a differential credit hour fee. The Co-op Program fee is the same for all students regardless of citizenship.	

Important to Know

It is important to note that the Co-op Program does not guarantee employment during any work term.

The Asper Co-op Office works with you to develop lifelong career management skills that will assist your efforts in securing co-op and post-graduate employment through access to prospective co-op employment opportunities and with resources during your job search. As such, a Co-op Program Fee is required whether the position was obtained from a job posted through the Co-op Office or through your independent networking and job search efforts.

Although we cannot guarantee students a Co-op work term placement, we have found that there is direct correlation between your chances of successfully obtaining a Co-op work term placement and the degree to which you:

- Invest time in writing well-written, professional cover letters and resumes
- Prepare for job interviews through research and practice
- Are proactive and involved in your own job search
- Implement recommendations made to you by your Co-op Coordinator
- Remain in regular contact with your Co-op Coordinator

The Asper Co-op Office markets our program services and students to potential employers to maximize the number of positions available for students; however, there are a number of factors involved in the type and quantity of job postings and the likelihood of you receiving a job offer. These include:

- Current industry demand for students
- Financial and operating status of companies
- Particular skill sets and experience of students
- The level of competition from other University Co-op programs and non-Co-op students
- Your ability to write effective cover letters and resumes
- Your ability to communicate and perform well in an interview
- Your willingness to be flexible and to try various industries

Additional Info - Program Fees/Tuition Details

Disclaimer: Information sourced from the University of Manitoba's website. Current as of June 2023. It is important that each student check their individual Aurora account to view assessed fees each term.

Sample Aurora Account Summaries:

Sample A - Domestic Student

Fall 2023 due October 04, 2023		
Description	Charge	Payment
Endowment Fee	\$25.27	
Fac of Management Tuition	\$192.66

*Note - \$1.25 per term for the Asper Iggy Award	

Other General Fees for 2023-24

Source: <https://umanitoba.ca/registrar/tuition-fees>

Student Service Fees	Fall Term	Winter Term	Summer Term
Registration Fee	\$26.19	\$26.19	\$13.09
Library Fee	\$26.19	\$26.19	\$13.09
Student Services Fee	\$26.19	\$26.19	\$13.09

Sports and Recreation Fee

Source: <https://umanitoba.ca/community/sport-recreation/recreation-services/membership-rates#um-students>

This fee supports the University of Manitoba's commitment to active living, sports and recreation. The Sport and Recreation Fee will be assessed to all University of Manitoba students, excluding those with existing agreements precluding the payment of service fees to the U of M.

- Fall and Winter Terms:
 - \$99.42 per term for Full Time students
 - \$74.55 per term for Part Time students
- Summer Term:
 - \$74.55 per term for Full Time and Part Time students

U-Pass Fee Info

Source: <https://umsu.ca/services-and-support/u-pass/>

The U-Pass is term-based. There is a U-Pass for Fall and Winter terms, but not for Spring/Summer term.

The U-Pass is applied directly to the Aurora accounts of undergraduate students enrolled in a minimum of nine (9) credit hours in a term, and is payable along with tuition. When a student is enrolled in a co-op work term, which is only one (1) credit hour, it will not be automatically assessed. However, a student on co-op work term can OPT-IN with appropriate documentation by visiting the UMSU Service Centre and pay the U-Pass fee in-person.
