SAFETY INITIATIVES

University of Manitoba Security Services provides a variety of programs and services that help make our community safer and more enjoyable for students, staff and visitors. We have implemented many safety initiatives in an effort to better improve safety and security on campus. Many of these initiatives have been spearheaded by the department while others have been made in consultation with many student groups and departments on campus, such as Environmental Health and Safety.

Security Services is continuously assessing the current safety initiatives and examining future plans in an effort to provide the highest quality of safety and security on campus.

UM SAFE APP

UM Safe is an essential tool that sends safety alerts and provides instant access to campus safety resources. The app includes features such as “Work Alone”, “FriendWalk”, as well as a Mobile BlueLight feature similar to the stationary blue lights on our campuses.

Some of the app features involve interaction with Security Services, and some will be optional — while other features have no interaction with Security Services.

Used by hundreds of higher education institutions and millions of students around the globe, the app was developed by App Armor and is custom branded for the U of M.

The free mobile safety app for students, staff, and faculty is available for iPhone (istore) and Android (Play Store) devices.

The Mobile BlueLight button will only contact Security Services when
