 - You can also add the course in iClicker manually. After RGS sync has been initiated by the instructor, your registration in the course is not affected.
- If your instructor is not using the new iClicker RGS, you can add the courses manually, as shown in [4. Adding Courses in iClicker](#).
- **It is important that you create an iClicker account** so your name will be registered in the iClicker course, and your scores will be transferred to the UM Learn gradebook the next time your instructor syncs the grades.
- If you do not have an iClicker account yet, you will receive an email through iClicker reminding you to create it.
