

# Student awards ceremony and presentations

**November 19, 2021 | 2–4 pm**

**Meeting via WebEx. Registration required for meeting.**

---

Join us as we recognize the Centre on Aging student award and the Alzheimer Society of Manitoba Fellowship recipients at a special presentation.

The award recipients will be provided with time to give a short presentation about their research. Immediately following the awards, members of the Students Targeting Aging Research (STAR) group will briefly present their current aging research. Support our students by joining us online and learning about their research!

Registration details are available on the Centre's [Speaker Series web page](#).
