Middle Years Year 1 (Term 2) School-based Courses – Winter 2027

*This information is provided on behalf of the Instructors of **EDUB 3054** Introduction to Teaching Mathematics in Middle Years 1 and **EDUB 3060** Teaching Social Studies in Middle Years*

All Year 1, Middle Years students with full-time status in the After-Degree B.Ed. program will be taking two mandatory courses during the winter term. These courses will be primarily taught in the Seven Oaks School Division. You will be working closely with teachers and students in the schools; however, the expectations of these school-based courses are different than the practicum courses.

To help you prepare for these courses, please review the websites for each school and make some tentative plans for how you will travel to each location. The fall meeting and first classes will allow students to discuss car-pooling possibilities.
