Electrical Engineering Focus Areas

Students wishing to pursue more focused studies in an Electrical Engineering subject/research area have the choice of doing so through a recognized Focus Area. Courses taken towards a Focus Area take the place of some or all of the Technical Electives required in the Electrical Engineering program.

ENGINEERING PHYSICS FOCUS AREA

Requirements:
In the standard Electrical Engineering program, seven (7) Technical Elective courses and one (1) Natural Sciences Elective are required. To complete the Engineering Physics focus area, students are required to take a total of seven (7) courses as indicated below, including the four (4) prescribed Engineering Physics courses. Three (3) further courses must be taken from the list of Engineering Physics Elective courses. To complete the program requirements one (1) additional course must be selected from the elective courses listed in the Electrical Engineering Standard Program.
