Students should refer to information in the Academic Calendar.

This flow chart is intended as a guide, and only applies for the current academic year. It should not be used as a guide for subsequent years. Errors may be present in this document. Students should refer to information in the Academic Calendar.

Additional required elective courses which may be completed in any term.

1. The written English requirement is satisfied by completing three (3) credit hours from the list of approved Written English Courses for Engineering Students listed in the Academic Calendar (see Price Faculty of Engineering, Faculty Academic Regulations).

2. Students must take either of:
   - ENS 2030 Engineering Communication: Strategies for the Profession
   - ENS 2040 Written English Course for Engineering Students

3. Students must take one of:
   - ENG 2030 Engineering Communication: Strategies for the Profession
   - ENG 2040 Written English Course for Engineering Students

4. Students must take either of:
   - ENS 2030 Engineering Communication: Strategies for the Profession
   - ENS 2040 Written English Course for Engineering Students

5. Technical Electives:
   - Five (5) technical electives are required to complete the program. Four (4) form part of the Focus Area.
   - At most two (2) of these electives may be selected from the list of approved Electrical Engineering courses.
   - Technical electives may be taken at any time, subject to prerequisites.

1 April 2024, v.1
Computer Engineering Focus Areas

Students wishing to pursue more focused studies in a Computer Engineering subject/research area have the choice of doing so through a recognized Focus Area. Courses taken towards a Focus Area take the place of some of the Technical Electives required in the Computer Engineering program.

SOFTWARE ENGINEERING FOCUS AREA

Requirements:
To complete the Software Engineering Focus the prescribed course must be taken. Three (3) of the eight Software Engineering Technical Elective courses must also be taken. To complete the program requirements, one (1) additional courses must be selected from the elective courses listed in the Computer Engineering Standard Program.

Prescribed Software Engineering Course (required)
COMP 3350  Software Engineering 1

Software Engineering Technical Elective Courses (3 required)
ECE 3750  Systems Engineering Principles 2
ECE 4530  Parallel Processing
COMP 3010  Distributed Computing
COMP 3020  Human-Computer Interaction 1
COMP 3380  Databases: Concepts and Usage
COMP 4350  Software Engineering 2
COMP 4580  Computer Security
COMP 4710  Introduction to Data Mining
