Students must remember to plan their program of study carefully. It is imperative that they ensure they are registering for only those courses that are a major part of their Master's or Ph.D. program. If any courses are not part of a student's major program, they should be added through the student's department/unit office as an Auxiliary course "X", Audit course "A" or an Occasional course "O". Questions about these classifications can be directed to your supervisor. Students are cautioned not to register for more courses than their program allows because they may be assessed extra fees at the time of graduation.

As per Section 2: Academic Performance, FGS Academic Guide:

"Students are responsible for ensuring that they meet all degree and program requirements. *The advisor (and if appropriate co-advisor), advisory committee, and department/unit must ensure that each student follows Faculty of Graduate Studies and department/unit guidelines and meets all program requirements. The Faculty of Graduate Studies performs a final check of Faculty of Graduate Studies minimum requirements for each student just prior to graduation. Students are cautioned, therefore, to periodically check all regulations with respect to their degree requirements. Failure to meet all the requirements will render a student ineligible to graduate."*
