

Master of Physical Therapy Program

APPLICANT GUIDE

2023-2024 Session

Application Deadline: **November 15, 2022**

Important Note: Applicants are advised to read thoroughly all relevant admissions material prior to completing and submitting an application. In addition to this document, relevant admissions material includes:

- [Physical Therapy \(MPT\) website and on-line application](#)
- [Master of Physical Therapy Supplemental Regulations](#)
- [Faculty of Graduate Studies Academic Calendar](#)
- [Physical Therapy Bona Fide Academic Requirements \(BFAR\)](#)

1. GENERAL INFORMATION

The selection of students for admission to the Master of Physical Therapy (MPT) program follows the Academic Guide of the Faculty of Graduate Studies and the Physical Therapy Supplemental Regulations. The selection process is the responsibility of the Selection Committee, a standing committee of the Master of Physical Therapy Program Committee of the College of Rehabilitation Sciences. Successful applicants are admitted to the Faculty of Graduate Studies.

This guide provides information to applicants holding a previous undergraduate degree who are seeking admission to the Master of Physical Therapy program for 2023-2024. Graduate applications are completed through the Physical Therapy website [here](#). Admission requirements for entrance into the Master of Physical Therapy program can be found on this website and in this applicant guide.

2. STATEMENT OF QUOTA

In the academic year 2023–2024, the University of Manitoba will accept 50 students into the MPT program.

3. ELIGIBILITY REQUIREMENTS

All applicants to the MPT program must meet the following eligibility requirements:

- a) Canadian citizenship or permanent resident status at the time of application.
- b) Successful completion of an accredited 3- or 4-year undergraduate degree recognized by the University of Manitoba. For 2023 admission, degrees must be conferred by the Fall of 2023.
- c) Successful completion of at least 24 credit hours in one regular academic year where a “year” is defined as two consecutive Fall and Winter terms (generally September of one calendar year to April of the following calendar year). For clarity, credit hours taken during a Summer term (generally May to August) are not considered part of a “regular academic year”.
- d) A minimum grade point average (GPA) of 3.25 in the last 60 credit hours of study. Information on GPA calculations and equivalency tables can be found [here](#) on the Faculty of Graduate Studies website.

For MPT admission interview purposes, courses completed up to and including all courses to December 31st of the academic year in which the applicant is applying will be included in the calculation of the GPA. If a student is recommended to the MPT program with outstanding coursework, final official transcripts will be required showing that all coursework has been successfully completed and that the GPA in the most recent 60 credit hours has remained at a 3.25 or higher.

- e) A minimum grade of ‘B’ in each prerequisite course or approved alternate course by December 31, 2022. For a listing of approved prerequisite courses and information on how to request a prerequisite review see the final pages of this guide.

Prerequisite review requests must be received by the MPT Chair of Admissions no later than October 1st in order for pre-assessment prior to the November 15th application deadline.

Potential applicants with course work not previously reviewed by October 1st are encouraged to submit an application before the November 15th deadline and email their course syllabi to CORS.PTprogram@umanitoba.ca at the time of application. If course work is found not equivalent there will be no refund of the application fee.

- f) The prerequisite of Physiology must be completed within **5 years** of application (no earlier than 2018). All other prerequisite courses must be completed within **10 years** of application (no earlier than 2013).

Where evidence of application of the knowledge can be demonstrated, exceptions to the time limit may be considered on a case-by-case basis by the MPT Chair of Admissions. A written request and supporting documentation (ex. transcripts, resume) must be submitted by email to the MPT Chair of Admissions at CORS.PTprogram@umanitoba.ca.

- g) Completion of the **CASPer test**

All applicants to the MPT program at the University of Manitoba for 2023-2024 are required to complete an online assessment, [CASPer](#). Master of Physical Therapy, University of Manitoba test dates can be located for the Canadian Professional Health Sciences (**CSP-10201-Canadian Professional Health Sciences test**) on the CASPer website here [Altus Suite test dates and fees - TakeAltus](#) Casper test dates for applicants to the MPT program for fall 2023 are available

from June 2022 to early December 2022. Applicants must select the *option Masters in Physical Therapy at the University of Manitoba* before the posted Distribution Deadline on the CASPer website. Please contact Altus Suite assessments directly to request accommodations or financial assistance (financial and or disability accommodations). Applicants to the MPT program are not required to complete the snapshot video interview or duet assessment.

- h) Where required, written evidence of English language proficiency scores in keeping with the [Canadian Alliance of Physiotherapy Regulators](#) and the [College of Physiotherapists of Manitoba](#). Students whose education was not in English are required to provide written evidence of English language proficiency scores in keeping with the Canadian Alliance of Physiotherapy Regulators, the administrators of the national Physiotherapy Competency Examination required of all graduates in order to practice in Canada.

Please note that Physical Therapy requires scores above the FGS minimum requirements, as follows:

TEST	Minimum Score required
TOEFL – internet-based	92 with no sub-score < 21
IELTS (academic version)	7, must include all 4 components

For a listing of countries exempt from English language proficiency requirements see the Faculty of Graduate Studies website [here](#).

4. SELECTION CRITERIA AND PROCEDURES

The criterion for selection shall be an **Overall Score** that considers an applicant’s academic standing (based on grade point average of prerequisite courses) and interview performance. Academic standing will constitute 60% of the overall score, while the interview score will account for 40% of the overall score. Students will be rank-ordered in accordance with the Overall Score.

4.1 Calculation of Student Ranking

4.1.1 Academic Standing:

Grade point average for the prerequisite courses (GPAPC) is calculated using the following formula:

$$\frac{\text{Sum of prerequisite courses weighted grade points*}}{\text{Total number of credit hours required through prerequisite courses}}$$

The weighted grade point of a prerequisite course is calculated by multiplying the number of credit hours in the course by the final grade in that course.

Should an applicant repeat a prerequisite course, the higher grade will be considered in calculating the average of the prerequisite courses.

GPAPC for students who have been given credit in Psychology, Biology or English through the International Baccalaureate (IB) or Advanced Placement (AP) programs will be calculated using 24 (rather than 30) total prerequisite credit hours. The Introductory Psychology, Introductory Biology or English Literature course grade will be dropped from the formula. If more than one requirement is met through IB or AP programs, then the GPAPC will be re-calculated accordingly.

Based on curricular topics some candidates need 2 courses to make up a single prerequisite for our program. In the event the candidate has more than 30 credit hours GPAPC may be calculated on 33 or 36 credit hours depending on the courses taken (ex. combination of 6 credit hours for Anatomy and combination of 6 credit hours for Physiology). Where two half courses are being used to meet one prerequisite, the student must have achieved a minimum grade of a B in both courses.

For Example:

A University of Manitoba student with the following course grades and weighted grade points would calculate their GPAPC as follows:

Course Name	Credit Hours	Letter Grade	Grade Point	Weighted Grade Point
Introductory Psychology	6	B+	3.5	21
English Literature	6	B	3.0	18
Introductory Statistics	3	A	4.0	12
Human Anatomy	3	B+	3.5	10.5
Human Physiology	3	A	4.0	12
Child Development	3	A+	4.5	13.5
Aging	3	B	3.0	9
Introductory Biology	3	B	3.0	9
Total	30			105

$$\begin{aligned}
 \text{GPAPC} &= (21 + 18 + 12 + 10.5 + 12 + 13.5 + 9 + 9) / 30 \\
 &= 105 / 30 \\
 &= 3.5
 \end{aligned}$$

4.1.2 Interview:

Applicants with the potential for admission will be interviewed as part of the admissions process. Eligibility alone does not guarantee an interview. Interviews are generally held in early or mid-March every year and take the form of the Multiple Mini-Interview, whereby the applicant will move between six 10-minute-long

stations. The applicant is expected to respond to questions about themselves, the profession, the University of Manitoba Physical Therapy program and specific scenarios.

The interviewers represent the College of Rehabilitation Sciences and the physical therapy clinical community. Interviewers will not have access to academic information.

Applicants will be assessed and an interview score calculated based on responses to a standard set of interview questions. All applicants must pass the interview process to be considered for admission. For more information on the MPT MMI please visit the Physical Therapy website [here](#). MPT MMI dates for 2023 are Saturday, March 11 and Sunday, March 12.

4.1.3 Overall Score:

The grade point average of the prerequisite courses (GPAPC) and the interview score will be converted to standardized z-scores before combining scores (60% GPAPC : 40% Interview Score) to yield an Overall Score using the following formula:

$$(\text{GPAPC} \times 0.6) + (\text{Interview Score} \times 0.4) = \text{Overall Score}$$

Note: Standardization into a z-score is not shown as this calculation depends upon the remainder of the applicant pool.

4.2 Priority for Selection

The Admissions and Selection Committee will consider applicants in the following priority groups.

Canadian Indigenous Peoples Category:

Canadian Indigenous peoples who meet all entry requirements will be given priority for up to 20% of the admission seats. Canadian Indigenous Peoples include First Nations, Métis and Inuit. Proof of Indigenous ancestry is required, such as a photocopy of a Treaty card, a membership card with the Manitoba Métis Federation or a letter of verification from a Band Council.

First Priority: Manitobans

Graduates of the universities within Manitoba who are Canadian citizens or permanent residents and Manitoba residents who are graduates of out-of-province universities will be given first priority.

Second Priority: Canadians Who Reside in Other Provinces or Territories

Up to five spots will be held for competitive out-of-province candidates who are Canadian citizens or permanent residents who are graduates of universities recognized by the University of Manitoba and who are residents of Canadian provinces or territories other than Manitoba.

5. ADDITIONAL INFORMATION REGARDING THE CANADIAN INDIGENOUS APPLICANT CATEGORY

The intent of the Canadian Indigenous priority category is to ensure that Indigenous peoples of Canada have access to health professional education. This priority category is one response to the Reconciliation Call to Action #23, which is to increase the number of Indigenous professionals working in the health-care field, and ensure the retention of Indigenous health-care providers in Indigenous communities. Further, the Department of Physical Therapy recognizes the positive ripple effects of having First Nations, Métis and Inuit rehabilitation professionals directly care for people in their own communities or any health facility in Canada.

First Nations, Métis and Inuit people face large health gaps in accessing health services when compared to the mainstream populations. This is rooted, partly, in historic and current systemic marginalization and disadvantage. The Department of Physical Therapy is committed to addressing disparity in higher education, as well as in the health and social professions.

The Department of Physical Therapy is committed to supporting First Nations, Métis and Inuit students. Most importantly, the Department recognizes positive ripple effects as First Nations, Métis and Inuit students inspire family and community members to pursue their dreams and contribute positively to the health of our province and country. At the same time, First Nations, Métis and Inuit cultures highly values reciprocation of opportunity.

The intent of this stream is to ensure that First Nations, Métis and Inuit students have an opportunity to become rehabilitation professionals and to support students to maintain long-term cultural and social linkages with First Nations, Métis and Inuit communities within this principle of reciprocity.

Applicants who self-identify as First Nations, Métis or Inuit will have their contact information shared with the Senior Lead Indigenous Health Student Affairs, Ongomiizwin Education. The Senior Lead will contact all applicants to begin to develop a relationship that will be a source of support throughout their learning journey.

6. ADVISING OF APPLICANTS TO THE MASTER OF PHYSICAL THERAPY PROGRAM

The Department of Physical Therapy will assist all applicants who seek advising regarding admission to the Master of Physical Therapy program. However, it is the department's policy not to instruct applicants as to the specific course of action that they should follow, but rather to provide the information needed for applicants to make their own decisions. The following points should be noted:

- a) Applicants are encouraged to discuss their plans with all who can usefully advise them, but they should be aware that second-hand information about the department's admissions policies is not considered reliable.
- b) No faculty member of the College of Rehabilitation Sciences can guarantee admission of any applicant.

- c) Applicants are advised to make inquiries in writing to the Chair of Physical Therapy Admissions so that an official written response can be provided.

7. CRIMINAL RECORD, CHILD ABUSE AND ADULT ABUSE REGISTRY CHECKS: THE TWO-STEP PROCESS

Physiotherapy is a self-regulated profession with a mandate to protect the public. These checks are necessary to facilitate completion of the MPT program, they are required for student registration with the College of Physiotherapists of Manitoba (CPM) and to engage in clinical placements throughout the province during the program. The presence of a positive record check could impact a student's ability to complete the program and/or work as a fully licensed Physiotherapist upon completion of the MPT program.

1. On application to the MPT program:

All applicants to the MPT program must self-declare prior adult criminal convictions and listing as an offender on the Child Abuse Registry or Adult Abuse Registry in the application process. Any communications in regards to these self-declarations will be kept in a secure and locked location, where only the Chair of Admissions and Selections will have access. Such communications will be subsequently destroyed for those applicants not admitted. Any fraudulent claims made on the self-declaration will result in immediate dismissal from the program.

2. Following admission to the MPT program:

For those applicants admitted to the program, the self-declaration communications will be destroyed upon the applicant's submission of original, current, official versions of their (a) Criminal Record Check with Vulnerable Sector Search, (b) Child Abuse Registry Check and (c) Adult Abuse Registry Check to the Academic Coordinator of Clinical Education of the MPT program. Documents procured by the student will remain the property of the student. *It is essential that successful applicants obtain and submit each of these documents in strict accordance with the processes and timelines provided by the Department of Physical Therapy. Information on these requirements will be emailed to incoming students near the end of June 2023.*

The implications for the MPT student who has an adult criminal record or who is on the Child Abuse or Adult Abuse Registries as an offender are as follows:

- those individuals identified as offenders on the Child Abuse Registry and/or Adult Abuse Registry are ineligible for admission.
- the student with a criminal record:
 - may not be able to complete the MPT program because of denied access to required clinical education components of the program; or
 - may have conditions placed on their registration status post-graduation or be prevented from registering and working as a physical therapist;

It is important to note that having an adult criminal record will not necessarily result in denial of admission to the MPT program. We encourage any individual who is planning to apply to the MPT program and who has an adult criminal record to:

- a) Contact the Head of the Department of Physical Therapy at the University of Manitoba to discuss potential issues related to his/her individual situation.
- b) Seek information from the regulatory organization in the jurisdiction where they plan to practise upon graduation. For Manitoba, the regulatory organization is the [College of Physiotherapists of Manitoba](#) (CPM).

Once a successful applicant is admitted into the MPT program, the Department of Physical Therapy has a process in place to review, within the context of our professional mandate to protect the public, on a case-by-case basis, the situation of any student who has a criminal record.

The review process by the Department of Physical Therapy is independent of any review processes conducted by clinical sites, regulatory colleges or future employers.

8. ADDITIONAL REQUIRED DOCUMENTS FOR SUCCESSFUL APPLICANTS FOLLOWING ADMISSION TO THE MPT PROGRAM

In addition to the (a) Criminal Record Check with Vulnerable Sector Search, (b) Child Abuse Registry Check and (c) Adult Abuse Registry Check referred to in Section 7 of this guide, successful applicants to the MPT program are also required to submit (d) a completed Immunization Package to ensure all mandatory vaccinations are current for participation in clinical placements, (e) Cardiopulmonary Resuscitation (CPR) certification at the Basic Life Saver (BLS) for Healthcare Provider level (or higher) provided by an instructor certified through the Heart & Stroke Foundation, and (f) N95 mask-fit certification, in order to participate in clinical placements.

Note that the College of Rehabilitation Sciences may provide assistance with the application process and costs associated with the Child and Adult Abuse Registry checks and N95 mask-fit testing. *It is therefore essential that successful applicants carefully read the information provided by the Department of Physical Therapy to ensure they obtain and submit each document in strict accordance with the processes and timelines indicated.*

9. SELECTION COMMITTEE

The Selection Committee consists of:

- The Chairperson of the Committee (shall be a MPT faculty member)
- The Head of the Department of Physical Therapy
- Two faculty representatives from the Department of Physical Therapy
- One student representative from the Department of Physical Therapy
- One representative from the College of Physiotherapists of Manitoba
- One representative from Ongomiizwin

- Such other persons who, from time to time, be deemed appropriate
- The Dean of the College of Rehabilitation Sciences (Ex-Officio)

Once Selections Committee decisions have been made, applicants will receive an email from the Faculty of Graduate Studies notifying them to log into their application portal to view the decision. Students that are offered admission will be required to accept or decline within 14 days from the date on the letter of offer. If a response is not provided within 14 days of the date on the letter, the offer will lapse. Lapsed offers will be considered a declined response. It is imperative that emails and application portals are checked regularly.

Please ensure that your email account remains current and will accept emails from the University of Manitoba (check your filters).

10. APPEALS

Individuals who wish to appeal decisions of the Selection Committee should refer to The Faculty of Graduate Studies Academic Guide and the University of Manitoba Policy on [Admission Appeals Procedures and Guidelines](#).

Generally, these policies advise individuals who wish to have their applications reconsidered by the committee to submit their request in writing to the Chair of the Selection Committee within ten days of the committee decision.

Any appeal of a reconsidered decision should be submitted within ten days following the emailing of the reconsidered decision to the University Secretariat, Room 312 Administration Building, for transmission to the University of Manitoba's Senate Committee on Admission Appeals.

Applicants are advised that appeals of the reconsidered decisions by the Senate Committee on Admission Appeals focus on questions of correct adherence to published policies and procedures by Selection Committees, and not on substantive issues or the relative merit of applications. The procedures are listed in the following documents:

- [Faculty of Graduate Studies Academic Guide](#)
- [Physical Therapy Supplementary Regulations](#)
- This Application Guide

11. APPLICATION FORM AND SUPPORTING DOCUMENTATION

Students applying to the Master of Physical Therapy program may start their on-line application with the Faculty of Graduate Studies [here](#).

Applications are not considered received until the on-line application is submitted and the application is paid. The application fee of \$100.00 CDN must be paid by the November 15, 2022 deadline.

It is recommended that all supporting documentation be uploaded in the on-line application in order to meet the documentation deadline of November 15, 2022. An application is considered incomplete until all supporting documentation is received.

SUPPORTING DOCUMENTATION:

- **Unofficial transcripts from all universities/colleges** attended other than the University of Manitoba. All post-secondary institutions attended **must** be disclosed in the application. Transcripts and proof of enrolment in current courses is required as part of the application.

It is the applicant's responsibility to provide updated transcripts and inform the Admissions office at CORS.PTprogram@umanitoba.ca of any deferred exams or grade changes. All final fall 2022 grades, including grade changes must be uploaded through the application portal by the interim transcript deadline of January 31, 2023 in order for them to be included in the final selection process.

University of Manitoba transcripts are not required as we can obtain them confidentially via Aurora. University of Manitoba students with a grade change in Aurora must provide notification to our office prior to the January 31, 2023 deadline.

Official documents will only be required by the Faculty of Graduate Studies from applicants offered admission.

- Proof of **Indigenous descent** if applying under the Canadian Indigenous Peoples Category.
- Evidence of **English language proficiency** where applicable.
- Upload relevant **written correspondence from the MPT Chair of Admissions** or CoRS Admissions Officer in support of your application if a special request has been granted (ex. permission for an alternate prerequisite course or time limit waiver).

12. DEADLINE DATES

November 15, 2022 Deadline for receipt of all applications and supporting documentation

January 31, 2023 Deadline for interim transcripts including Fall 2022 grades
Updated transcripts including fall 2022 grades are to be uploaded through the application portal. It is the responsibility of the applicant to submit Fall 2022 marks prior to the transcript deadline in order to be considered for MMI offers.
Updated transcript are not required for courses completed at the University of Manitoba. UM fall 2022 grades can be accessed internally through Aurora.

June 20, 2023 Deadline for submission of complete and official university transcripts from admitted applicants. Official transcripts are to be mailed to the Faculty of Graduate Studies at:
Faculty of Graduate Studies
500 University Centre
University of Manitoba
Winnipeg MB R3T 2N2

Official transcripts will be accepted by email directly from Canadian post-secondary institutions at graduate.admissions@umanitoba.ca

-----------------------------	--	---	---	--	-----------------------------	--------------------------------------	--

NOTE:

Courses listed in the table above will be accepted for application assessment if completed within the approved time frame for 2023-2024 admission. Human Physiology must be completed no earlier than 2018; all other prerequisite courses must be completed no earlier than 2013. Some courses listed above may no longer be offered or may have undergone changes in course names/numbers. It is recommended that prospective applicants reference current university course catalogues for available options.

Students seeking approval for alternative courses, that is, for courses not included in this table as being equivalent to the University of Manitoba prerequisites, should review the information found under **How to submit a course for prerequisite review** on the Physical Therapy website <https://www.umanitoba.ca/explore/programs-of-study/physical-therapy-mpt>.
