Course Sequencing Examples for Students **Admitted** to the Asper
School of Business **PRIOR TO** September 2023

Updated: August 30, 2022

Introduction

Foundation courses are defined as courses that are required to be completed early in the degree at the Asper School of Business. These will be denoted as (f) below.

Core courses are defined as courses that are mandatory to be completed throughout the degree at the Asper School of Business, regardless of the major selected. These will be denoted as (c) below.

Major courses are defined as courses that contribute to the progress of the selected major. 12 credit hours of major courses are required. These will be denoted as (m) below. Actuarial majors may choose 12 credit hours from the following list below:

ACT 2120 (3 credit hours)

ACT 2020¹ (3 credit hours)

ACT 3130 (3 credit hours)

ACT 3230 (3 credit hours)

ACT 3340 (3 credit hours)

ACT 4010 (3 credit hours)

ACT 4020 (3 credit hours)

ACT 4030 (3 credit hours)

Option courses are defined as courses taught by the Asper School of Business. Students are required to take 15 (or 18)² credit hours of options courses for their degree, of which only 12 can be ACT courses (this does not include IDM 4050 - this exception is only for ACT MJ students completing the SOA route). These will be denoted as (o) below.

Elective courses are defined as any course that is not taught by the Asper School of Business. Students are required to take 12 (or 15)² credit hours of electives courses for their degree. These will be denoted as (e) below. Required electives will be labelled with their course number, and electives that are free to the student's choice will be labelled with "Electives".

Recommended Commerce Electives³

MATH 2720

STAT 2400

STAT 2800

STAT 2150

STAT 3100

¹ Not recommended to take. ACT 2020 is to be removed from the program effective September 2023.

² Students are required to take 15 credit hours of options and 12 credit hours of electives. They are also required to take an additional 3 credit hours of electives, OR options. This choice is up to the student. In the recommendations below, the student takes an additional 3 credit hours of electives.

³ These courses are built into the course sequencing charts for all students.

ASA pathway courses

Courses towards the SOA exams and VEE credits are highlighted in the notes section.
