INTRODUCTION

Welcome to the Department of Interior Design. This handbook is meant to familiarize students with the operations of the Department. Potential applicants to the MID programs may also find this handbook useful. The ID Handbook is an accompaniment to the University of Manitoba Undergraduate Calendar, Faculty of Graduate Studies Regulations and the Department of Interior Design Supplemental Regulations.

As one of four Departments in the Faculty of Architecture, the Department of Interior Design is responsible for the First-Professional and Post-Professional Master of Interior Design (MID) programs. Our Department also delivers the Interior Environment Option (EVIE) for students in the Bachelor of Environmental Design program. Finally, we offer a Pre-Master program for students who require additional coursework to qualify for our First-Professional Master of Interior Design program.

PROGRAMS

**Interior Environment Option (EVIE)** is part of a four-year interdisciplinary program that is offered in the Faculty of Architecture. Graduates from the Interior Environment Option receive a Bachelor of Environmental Design (B.Env.D.) This is a non-professional; non-accredited program meant to prepare students for further study in Interior Design or employment as design assistants. Visit the Faculty of Architecture website to learn more about the B.Env.D. Program at [http://umanitoba.ca/faculties/architecture/programs/edesign/about_ED.html](http://umanitoba.ca/faculties/architecture/programs/edesign/about_ED.html)

The **Pre-Masters program (PM)** prepares students for application to the Master of Interior Design program. Students in the Pre-Master program are normally required to complete 30-36 credit hours (two terms) of coursework. Students are eligible to apply to the Master’s program after two terms of study. The Admissions Committee reviews the applications and makes an assessment of a student’s academic performance and design ability. Based on that assessment, the Department may require a student to complete a third term of Pre-Masters study.

In instances where students can adequately demonstrate proficiency in any Pre-Masters course, through academic achievement and/or demonstrable work, students may challenge a course for advanced standing within the pre-Master’s program. The Department will consider these situations on a case-by-case basis.

Master of Interior Design (MID)

There are two streams within the Master of Interior Design program offered at the University of Manitoba: first-professional and a post-professional.

The First-Professional Master of Interior Design (MID) is directed towards those who hold a bachelor degree in design and would like to further their education with a professional interior design degree. MID graduates are qualified to work nationally and internationally at the forefront of their profession with a skill-set that includes strategic thinking, entrepreneurship, research and environmentally responsible design. Upon completion of coursework, students complete a comprehensive design project called a Practicum.

The First-Professional Master of Interior Design (MID) program is accredited by the Council for Interior Design Accreditation (CIDA). Graduates usually proceed to certification from the National Council of Interior Design Qualification (NCIDQ) and membership in a professional interior design association. This program requires a minimum of two to two and half calendar years of full-time study to complete.

The Post-Professional Master of Interior Design (MID) is directed to students who hold an accredited, first-professional degree in Interior Design from a recognized institution. The program has a research orientation and is intended to further knowledge in specific areas of the discipline. In addition to required courses, students are required to complete a formal thesis on a chosen topic. The Post-Professional program requires a minimum of one and a half years of full-time study to complete.

To read an overview on MID Practicum and Thesis projects, visit our website at http://umanitoba.ca/faculties/architecture/programs/intdesign/632.html

To see examples of MID Practicum and Thesis projects, visit our website at http://umanitoba.ca/faculties/architecture/programs/intdesign/mid_practicum_and_thesis_projects.html

Access Points to Programs

There are four “access points” to our various programs (Image 1). Access point 1 is the normal entry point for students with no prior post-secondary education. After two years of study in the Environmental Design program, students can apply to the Interior Environments Option (EVIE).

Access point 2, or the Pre-Masters entry point, is for students who hold a bachelor degree in a discipline other than interior design, environmental design or architecture. Students in this program complete a combination of courses from the Interior Environment Option years (ED 3 and ED 4) before applying to the MID first professional program.

Access point 3 is the normal entry point into the First-Professional MID for students who hold a post-secondary degree in interior design or equivalent.

Access point 4 is the entry point for the Post-Professional MID program.

Operation of the Department

Admission
For information on our PM MID admissions, application requirements, and deadlines please refer to our website at http://umanitoba.ca/faculties/architecture/programs/intdesign/ID_admissions.html

Registration
To become familiar with the University of Manitoba Graduate Calendar and Registration Guide, visit the website at http://umanitoba.ca/student/records/registration/index.html
**Communication**
All students must set up a U of M computer account (called the UMnetID). This account provides students with a U of M e-mail address, access to the wireless network, computer labs, printing, and other online services. Instructions for creating an UMnetID can be found at
http://www.umanitoba.ca/computing/ist/accounts/claimid.html

All official correspondence will only be sent to a U of M e-mail address. It is the student’s responsibility to monitor and maintain this account.

**Funding**
For information on funding opportunities, visit the Faculty website at
http://umanitoba.ca/faculties/architecture/award/index.html

For funding opportunities that are specifically for students in the Department of Interior Design, please visit
http://umanitoba.ca/faculties/architecture/award/awardsdatabase.html

ROLES IN THE DEPARTMENT

Department Head
The Department Head is responsible for the administration of the Department. The Department Head acts as Chair of the Graduate Program Committee (GPC) and oversees the completion of each student program of study including a) final approval of the Faculty of Graduate Studies Annual Progress Reports; b) assignment of Academic Advisors; c) ensuring access to a designated Acting Advisor in the case of an Advisor’s absence; d) confirming the internal and external committee members of the Practicum/Thesis Committee.

Graduate Program Committee
The Graduate Program Committee (GPC) is made up of all full-time faculty members of the Department of Interior Design holding graduate degrees. The GPC reviews and approves Thesis/Practicum proposals.

Graduate Student Advisor
The Graduate Student Advisor acts as a liaison between the students, the Faculty of Graduate Studies and the department faculty. They administer each student’s program of study, including academic records, awards and bursaries. The Graduate Student Advisor submits the Master’s Practicum/Thesis Title & Appointment of Examiners form and informs the Faculty of Graduate Studies once the requirements for graduation have been met.

Academic Advisor
Upon entry into the MID or Pre-Master program, all students are assigned an Academic Advisor. The Advisor is responsible for making the Annual Progress Report (APR) to the Faculty of Graduate Studies. Students may remain with this Adviser for their Practicum/Thesis projects or elect to change Advisers after a project proposal has been approved.

Practicum/Thesis Advisor
On approval of the proposal, a Practicum/Thesis Advisor replaces the Academic Advisor. This person is responsible for making the second and any subsequent Annual Progress Reports (APR) to the Faculty of Graduate Studies. They also serve as the student’s main advisor in the practicum or thesis process.

Practicum/Thesis Advisory Committee
The Advisory Committee consists of the Practicum/Thesis Advisor, one internal, and one external examiner. The composition of the committee will be determined in consultation with the Practicum/Thesis Advisor. The internal member will be a full-time or adjunct professor in the Faculty of Architecture. The external member must be from outside the Department of Interior Design and can be external to the Faculty or the University of
Manitoba. Refer to the Faculty of Graduate Studies and Department of Interior Design Supplemental Regulations for further information regarding the qualifications of committee members.

FACILITIES, RESOURCES, SPECIAL PROGRAMS AND STUDENT ASSOCIATIONS

The Faculty of Architecture is housed in two main buildings on the Fort Garry campus, the John A. Russell Architecture Building (JAR or Arch 1) and Architecture 2. The Interior Design studios are located on the upper level of the John A. Russell (JAR) Architecture building.

Students are assigned a small area in a studio from September to April of each year. Studio space for continuing students is also available in the summer months with approval from the Department Head.

Lockers are available in the tunnel between JAR and Architecture 2 Buildings on a first come, first served basis. Students may claim any unclaimed locker by putting a lock on it. Students may also leave supplies in the storage units provided in the studios. Cameras, laptops, and other equipment should never be left unattended in the work areas.

Students should always ensure that someone they trust is aware of their location if they work on campus after hours. No student is allowed to work alone on campus as per the University of Manitoba’s Work Alone Policy. For more information, visit the FAUM website at http://umanitoba.ca/faculties/architecture/workingalone.html

The Architecture/Fine Arts Library houses the largest collection of information on art, architecture, design, and planning in the province of Manitoba. For more information, visit the website at http://libguides.lib.umanitoba.ca/architecture

The Product Catalogue Collection is a design material resource library, intended to serve students and Faculty members. The Collection is home to over 10,000 material resources, including literature binders with technical data and samples. More importantly the Collection is also open to the surrounding local design community. The Product Catalogue Collection would be of particular interest to smaller firms who just do not have the space to house the millions of material resources that are out there today. For more information, visit the website at http://umanitoba.ca/faculties/architecture/facilities/pcc.html

The CADlab operates a student computer lab in addition to wide format printing, scanning, and equipment loan services. For more information, visit the website at http://umanitoba.ca/faculties/architecture/cadlab/index.html
The **FabLab** is equipped with specialized equipment such as a large format lazar cutter, 3d printers and a CNC machine. For more information, visit the website at http://umanitoba.ca/faculties/architecture/fablab/fablabindex.html

The **Workshop** houses a wide range of tools and equipment for woodworking and plastic. For more information, visit the website at http://umanitoba.ca/faculties/architecture/facilities/workshop.html

The faculty **Cultural Events Committee** sponsors **speakers and events** throughout the year. Notices are posted as early as possible and students are strongly encouraged to take advantage of these events. http://umanitoba.ca/faculties/architecture/events/index.html

**The Academic Learning Centre** (ALC) serves graduate and undergraduate, full and part-time students at the University of Manitoba. Students are invited to access the resources available on the ALC web page, drop by the ALC to meet the learning skills instructors, and/or attend workshops in order to further develop academic strengths and skills in writing, learning and research. For more information or to make an appointment with a tutor: http://umanitoba.ca/student/academiclearning/services/services.html

APPENDIX A: SUPPLIES & EQUIPMENT

Art and Drawing Supplies for EVIE 3, 4 & Pre-Masters Students

30”x42” drawing board - 3/4" plywood (good one side)
Borco cover for 42” drawing board
42” parallel ruler
1- 30/60 degree set square
1- 45 degree set square
1 adjustable triangle
Imperial scale drafting ruler
Metric scale ruler
Drawing leads- 2H, 3H, HB
Mechanical drafting pencil
Lead pointer
Eraser
Flexible curve
Circle template
Erasing shield
Dusting brush
X-acto knife and replacement blades
24” Metal ruler with cork backing
24” cutting mat
12” roll of tracing paper
24” roll of tracing paper
Thin black Sharpie markers
2, 4, 6B pencils
Regular pencil sharpener

Note: used drafting boards and equipment can often be purchased from graduates of the ED program.
**Drawing / Graphic Communication / Media Courses**

The instructors will provide a list of required art supplies at the first drawing class. Typical items include: watercolour paint, brushes and mixing tray, Prismacolour pencil crayons, pastels, charcoals, conte crayon, inks, sketching pencils, and sketchbooks (check with the instructors for sizes).

**Photography**

It is not necessary to purchase a camera. If you already own a 35mm SLR camera, a digital still camera or video camera, you will find them useful. Digital cameras are available for short-term loan from the CADlab. **Do not use** camera phones for documenting your work.

**Computer Purchase Specifications**

Please refer to the CADLab website for computer purchase specifications [http://umanitoba.ca/faculties/architecture/cadlab/index.html](http://umanitoba.ca/faculties/architecture/cadlab/index.html)

CADLab is the main provider of computer support for the Faculty of Architecture. They maintain the computer lab, the printing and scanning facilities, as well as provide technical help to staff and students. All students are responsible for installing and configuring the software on their personal laptops. CADLab provides only very basic assistance with troubleshooting student owned equipment.

If you have questions or concerns please contact Chris Leigh, CADLab Coordinator, at 204 474 9945 or by email to chris.leigh@umanitoba.ca
APPENDIX B: THESIS / PRACTICUM DEVELOPMENT GUIDELINES

First-Professional Practicum Proposal

Post-Professional Thesis Proposal

APPENDIX C: FORMS & ADDITIONAL INFORMATION

Practicum/Thesis Required Forms
Review this page to see the forms you will need to complete your practicum/thesis

Ethics Application Information and Form
If you are doing research that involves human subjects you will require approval from the Joint Faculty Research Ethics Board (JFREB). Please refer to the Office of Research Ethics and Compliance for complete information.
http://umanitoba.ca/research/orec/ethics/human_ethics_index.html

SSHRC
If you have received a UMGF you will be required to apply for a SSHRC award. The following outline has been provided to help you complete the two-page “Program of Study.” Please note that the outline is simply a suggestion; you MUST also consult the SSHRC application for additional requirements.

Paragraph 1 – Describe the MID program and its purpose. Make it clear that the First-Professional degree program requires a practicum project, and that the project is a demonstration of the application of research rather than the creation of new information that results from research (as is typical in many/most other master degree programs).

Paragraph 2 – Explain that the practicum project consists of: (a) a document that provides the rationale, design process, theoretical framework, and program for the practicum project, and (b) a drawing set that demonstrates the application of evidence-based or research-informed design.

Paragraph 3 – Explain the actual practicum project topic. Cite sources to demonstrate the relevance of the topic.

Paragraph 4 – Summary or conclusion. Relate the practicum topic back to the discipline of interior design and emphasize the discipline’s concern for the health and well-being of human beings.

For more information:
Asking for Reference Letters

The following are guidelines for requesting reference letters.

1. It is good practice to ask for letters of reference at least one month in advance. Do not assume that the person you are asking will be able to produce a letter in a shorter amount of time even if you have a deadline. Also, please remember that faculty members may receive requests for such letters from more than one student.

2. In a single email, provide the referee (the person you are asking for a reference) with the following:
   - curriculum vitae (CV) (also called a resume)
   - letter of intent (see Appendix X)
   - transcript
   - forms (if required) with your name and other information already filled in
   - clear instructions as to what the referee needs to do (fill in a form, fill in a form and write a letter, write a letter only, etc.)
   - special instructions (i.e., student will pick up a sealed and signed envelope, send letter directly to address provided, mail letter to student at address provided, etc.)
   - the date(s) that the letter/s or form/s are needed by

3. One week before the letter is due, send your referee a reminder email.

If you do not need a reference letter but just want to include a professor as a reference on your CV, then you must still ask the professor for permission to do so.
Requesting Use of Construction Documents

Dear ________,

I am a graduate student in the Department of Interior Design at the University of Manitoba. For my Master of Interior Design practicum, I am required to complete a hypothetical design project. To that end, I am writing to obtain permission to use the drawings for the _________ building located at __________.

Please be aware that only the base drawings will be used; I will be proposing my own, hypothetical original design that take the state of the building, as documented in existing drawings into consideration. As copyright owner for the drawings, you will be acknowledged in my practicum document. This document will appear on MSpace on the University of Manitoba’s library web site.

If you have any questions, please contact myself at ________, or my practicum Advisor, Professor/Dr. ________, at ________. I appreciate your support for my practicum project.

Sincerely,

Sincerely,

Copyright Permission

Copyright Office Resources can be found at https://libguides.lib.umanitoba.ca/c.php?g=375329&p=2539708

Early April

Complete winter terms courses and consider registration for a summer session elective if needed.

Submit project proposal to Advisor for review.

Meet with Advisor to receive feedback on project proposal.

Mid-April

Submit project proposal to Graduate Program Committee (GPC). To graduate within 2 calendar years. The next submission date will be in May.

Begin Work Experience Program.

Mid to Late May

Receive letter from GPC re: Approval of Project Proposal.

Meet with Advisor to receive feedback on project proposal & to discuss who will be your Practicum Advisor.

At the same meeting, complete the FGS Progress Report if you haven’t already done so this year.

Submit proposal (if you missed the previous deadline) or Resubmit Proposal if necessary.

Be sure to submit your proposal to your Advisor at least two weeks in advance of the Project Proposal due date.

Early June – August

Meet with Advisor as necessary.

Determine your Advisor’s vacation schedule.

Refine topic, start literature review, start site and building analyses, start programming, apply for ethics approval if required, collect data (if required), obtain permission to use drawings and images, locate site/building for project.
July and August

Note: Many (but not all) Advisors & Examiners go on vacation and/or focus on research in July and August. Speak to your Advisor and Committee Members about their availability over the summer months.

Review Graduate Studies Practicum/Thesis Guidelines at
http://umanito.ca/faculties/graduate_studies/thesis/guidelines.html

Continue work on Practicum over the summer months.

Mid Year Two

September – December

Complete fall-term courses and any necessary electives.
Continue developing literature review, site and building analysis, programming, data collection if required, and obtain permission to use drawings.

Early January

Take winter MID 2 courses and elective if needed.

January-February

Meet with Advisor on a regular basis.
Determine External Examiner

Complete Examiner’s Form and submit to your Advisor for signature:
https://umanito.ca/faculties/graduate_studies/media/thesis_title_examiners-masters.pdf

Turn in the Examiner form to the Graduate Student Advisor.

Discuss readiness for Intermediate Exam with Advisor and Committee.

Mid-February

Let Graduate Student Advisor know when you intend to present & book a date for the Intermediate Examination (Tip: Use doodle.com to set up a “poll”)

Complete the Presentation Booking form and return it to Graduate Program Assistant:
http://umanito.ca/faculties/architecture/media/ID_Thesis_Presentation_Bookingform.pdf

Notify committee of time, date & room for the Intermediate Examination.

Provide document and drawings to committee two weeks (10 working days) prior to presentation.
Early March  Complete the Intermediate Examination

Meet with Advisor to receive written feedback regarding comments made at the Intermediate Examination.

Mid-March  Complete revisions and further development of the design and document in preparation for the Final Exam.

Mid - Late April  Meet with Advisor to determine date to submit final document to committee and book a time for the final exam. Send out a poll to confirm the availability of committee members.

Let Graduate Student Advisor know that you intend to book a date for the Final Examination

Complete the Presentation Booking form and return it to Graduate Program Assistant:

Notify committee of time, date & room for the Final Examination.

Provide document and drawings to committee two weeks (10 working days) prior to exam.

Late May  Complete the Final Examination

Meet with Advisor to receive written feedback to student regarding comments made at the Final Examination.

Review Graduate Studies Deadlines and Requirements for Graduation:
http://umanitoba.ca/faculties/graduate_studies/media/Information_for_Graduands.pdf

Review Required Forms Checklist:

Early June  Complete revisions to document and design.

Submit revisions to Advisor for approval.

When revisions are approved, the Advisor will sign off on the Final Report form and give it to the Graduate Student Advisor. Students are to pick up the form from the Graduate Student Advisor prior to going to Grad studies to hand in final practicum/thesis.

Hand in the final, bound copy of document and drawings to Advisor.

Contact the Partner's Program about uploading a link to your work on the Department Website.
Complete the FGS Progress Report with Advisor if you haven't already done so.

**July and August**

Note: Many (but not all) Advisors & Examiners go on vacation or focus on research in July and August. Speak to your Advisor and committee members about their availability over the summer months.

**Late August**

Submit final copy to Graduate Studies. Before going to Graduate Studies, pick up Final Report form from the Graduate Student Advisor.

**October**

Mid-April
Submit project proposal to Graduate Program Committee (GPC). The next submission will be in May.
Begin Work Experience Program (if participating).

May
If proposal was submitted, receive letter from GPC re: approval of project proposal. Meet with Advisor to receive feedback on project proposal and to discuss who will be your Practicum Advisor.
If submitting a proposal in May, meet with Advisor to discuss early in May. Submit proposal (if you missed the previous deadline) or Resubmit Proposal if necessary. Be sure to submit your proposal to your Advisor at least two weeks in advance of the Project Proposal due date. Schedule a meeting with your Advisor to discuss GPC feedback.

Note: The next submission date for proposals is in September.

Early June
Complete the FGS Progress Report with Advisor if you haven’t already done so this year.

Early June – August
Meet with Advisor as necessary.
Determine your Advisor’s vacation schedule.
Refine topic, start literature review, start site and building analyses, start programming, apply for ethics approval if required, collect data (if required), obtain permission to use drawings and images, locate site/building for project.

July and August
Note: Many (but not all) Advisors & Examiners go on vacation and/or focus on research in July and August. Speak to your Advisor and Committee Members about their availability over the summer months.

MID Year Two
September – December
Complete fall-term courses and any necessary electives.
Continue developing literature review, site and building analyses, programming, data collection (if required), and obtaining permission to use drawings.
Or, if proposal has not been submitted, prepare to submit in mid-September.
**Mid-September**

Use this Proposal submission date only if you missed the earlier dates or if the GPC has asked for revisions to an earlier submission. Be sure to submit your proposal to your Advisor at least two weeks in advance of the Project Proposal due date. Schedule a meeting with your Advisor to discuss GPC feedback.

**Early January**

Take winter MID 2 courses and elective if needed.

**April – July**

Meet with Advisor on a regular basis.

Continue developing literature review, site and building analyses, programming, data collection and obtaining permission to use drawings.

**July and August**

Note: Many (but not all) Advisors & Examiners go on vacation and/or focus on research in July and August. Speak to your Advisor and Committee Members about their availability over the summer months.

**Late August**

Determine External Examiner

Complete Examiner’s Form and submit to your Advisor for signature: [https://umanitoba.ca/faculties/graduate_studies/media/thesis_title_examiners-masters.pdf](https://umanitoba.ca/faculties/graduate_studies/media/thesis_title_examiners-masters.pdf)

Turn in the Examiner form to the Graduate Student Advisor.

Discuss readiness for Intermediate Examination with Advisor and/or Committee.

**Early / Mid-October**

Let Graduate Student Advisor know when you intend to present & book a date for the Intermediate Examination (Tip: Use doodle.com to set up a “poll”)

Complete the Presentation Booking form and return it to Graduate Program Assistant: [http://umanitoba.ca/faculties/architecture/media/ID_Thesis_Presentation_Bookingform.pdf](http://umanitoba.ca/faculties/architecture/media/ID_Thesis_Presentation_Bookingform.pdf)

Notify committee of time, date & room for the Intermediate Examination.

Provide document and drawings to committee two weeks (10 working days) prior to the presentation.
Late November  
**Complete the Intermediate Examination**

Meet with Advisor to receive written feedback regarding comments made at the Intermediate Examination.

Early December  
Complete revisions and further development of the design and document in preparation for the Final Exam.

Note: Many (but not all) Advisors & Examiners go on vacation and/or focus on research in July and August. Speak to your Advisor and committee members about their availability over the summer months.

Mid-February  
Meet with Advisor to determine date to submit final document to committee and book a time for the final exam. Send out a poll to confirm the availability of committee members.

Let Graduate Student Advisor know that you intend to book a date for the Final Examination

Complete the Presentation Booking form and return it to Graduate Program Assistant:  

Notify committee of time, date & room for the Final Examination.

Provide document and drawings to committee two weeks (10 working days) prior to exam

Early March  
**Complete the Final Examination**

Meet with Academic Advisor to receive written feedback to student regarding comments made at the Final Examination.

Review Graduate Studies Deadlines and Requirements for Graduation:  
[http://umanitoba.ca/faculties/graduate_studies/media/Information_for_Graduands.pdf](http://umanitoba.ca/faculties/graduate_studies/media/Information_for_Graduands.pdf)

Review Required Forms Checklist:  
Early to Late March Complete revisions to the document and design.

Submit revisions to Advisor for approval.

When revisions are approved, the Advisor will sign off on the Final Report form and give it to the Graduate Student Advisor. Students are to pick up the form from the Graduate Student Advisor prior to going to Grad studies to hand in final practicum/thesis.

Hand in the final, bound copy of document and drawings to Advisor.

Contact the Partner’s Program about uploading a link to your work on the Department Website.

Complete the FGS Progress Report with Advisor if you haven’t already done so this year.

Late March Submit final copy to Graduate Studies. Before going to Graduate Studies, pick up Final Report Form from the Graduate Student Advisor.

</tbody>
</table>
Early April

Complete winter terms courses and complete registration for a summer session elective if needed.
Submit project proposal to Advisor for review.
Meet with Advisor to receive feedback on project proposal.

Mid-April

Submit project proposal to Graduate Program Committee (GPC).
To graduate within 2.5 calendar years, the next submission will be in early May.

Early May

If proposal was submitted, receive letter from GPC re: approval of project proposal. Meet with Advisor to receive feedback on project proposal and to discuss who will be your Thesis Advisor.

If submitting a proposal in May, meet with Advisor to discuss.
Submit proposal (if you missed the previous deadline) or Resubmit Proposal if necessary.

Be sure to submit your proposal to your Advisor at least two weeks in advance of the Project Proposal due date. Schedule a meeting with your Advisor to discuss GPC feedback.

Early June

Complete the FGS Progress Report with Advisor.

Early June – August

Meet with Advisor as necessary.

Determine your Advisor’s vacation schedule.

Refine topic, start literature review, start site and building analyses, start programming, apply for ethics approval if required, collect data (if required), obtain permission to use drawings and images, locate site/building for project.

July and August

Note: Many (but not all) Advisors & Examiners go on vacation and/or focus on research in July and August. Speak to your Advisor and Committee Members about their availability over the summer months.

MID Year Two

September – December

Complete any required courses and electives that were not completed in year 1.

Continue to work on literature review, research questions and method, ethics collect data, copyright...

Or, if proposal has not been submitted, prepare to submit in mid-September.
Mid-September

Use this Proposal submission date only if you missed the earlier dates or if the GPC has asked for revisions to an earlier submission.

Be sure to submit your proposal to your Advisor at least two weeks in advance of the Project Proposal due date. Schedule a meeting with your Advisor to discuss GPC feedback.

Early January

Complete any required courses and electives that were not completed in year 1.

January–April

Meet with Advisor on a regular basis.

Continue to work on literature review, research questions and method, ethics collect data, copyright...

Determine External Examiner

Complete Examiner’s Form and submit to your Advisor for signature:
https://umanitoba.ca/faculties/graduate_studies/media/thesis_title_examiners-masters.pdf

Turn in the Examiner form to the Graduate Student Advisor.

Discuss readiness for Intermediate Examination with Advisor and/or Committee.

Early June

Let Graduate Student Advisor know when you intend to present & book a date for the Intermediate Examination (Tip: Use doodle.com to set up a “poll”)

Complete the Presentation Booking form and return it to
Graduate Program Assistant:

Notify committee of time, date & room for the Intermediate Examination.

Provide document to committee two weeks (10 working days) prior to presentation
Late June

**Complete the Intermediate Examination**

Meet with Advisor to receive written feedback regarding comments made at the Intermediate Examination.

July – August

Complete revisions and further development of the design and document in preparation for the Final Exam.

Note: Many (but not all) Advisors & Examiners go on vacation and/or focus on research in July and August. Speak to your Advisor and committee members about their availability over the summer months.

September – October

Meet with Advisor to determine date to submit final document to committee and book a time for the final exam. Send out a poll to confirm the availability of committee members.

Let Graduate Student Advisor know that you intend to book a date for the Final Examination

Complete the Presentation Booking form and return it to Graduate Program Assistant:

Notify committee of time, date & room for the Final Examination.

Provide document to committee two weeks (10 working days) prior to exam

Late November

**Complete the Final Examination**

Meet with Advisor to receive written feedback to student regarding comments made at the Final Examination.

Review Graduate Studies Deadlines and Requirements for Graduation:
http://umanitoba.ca/faculties/graduate_studies/media/Information_for_Graduands.pdf

Review Required Forms Checklist:
Early December

Complete revisions as required.
Submit revisions to Advisor for approval.
When revisions are approved, the Advisor will sign off on the Final Report form and give it to the Graduate Student Advisor. Students are to pick up the form from the Graduate Student Advisor prior to going to Grad studies to hand in final practicum/thesis.
Hand in the final, bound copy of document to Advisor.
Contact the Partner’s Program about uploading a link to your work on the Department Website.
Complete the FGS Progress Report with Advisor.

Early January

Submit final copy to Graduate Studies. Before going to Graduate Studies, pick up Final Report form from the Graduate Student Advisor.

February

Graduation
APPENDIX D: POLICY AND REGULATIONS

Reading Course Policy
The policy for reading courses can be found on the department’s web site at http://umanitoba.ca/faculties/architecture/media/ID_ReadingCoursePolicy.pdf

Department of Interior Design Supplemental Regulations
The department’s Supplemental Regulations are updated regularly and can be found on the Faculty of Graduate Studies’ web site at http://umanitoba.ca/faculties/graduate_studies/media/InteriorDesign_200609.pdf

APPENDIX E: ID STUDIO HOUSEKEEPING RULES

1. All studio areas are to be kept clean, orderly and free of waste paper, wood, laundry, old projects, and large quantities of food.
2. Meals should be taken in the student lounge. This includes potlucks and meetings involving food.
3. Unused samples must be returned to the PCC.
4. The noise level should be kept down during class hours (8:30 – 5:30).
5. No alcohol is allowed in any FAUM buildings.
6. The MID and the Interior Environment studios are allowed one kettle and microwave each.
7. No mini or bar refrigerators are allowed in the studio.
8. No coffee makers, waffle irons, slow cookers, toasters, or other household appliances are allowed in the studio.
9. No bicycles are allowed in any of the FAUM buildings.
10. Aerosol cans MUST be stored in the RED cabinets found in the studio.
11. Do not leave unattended extension cords plugged in.
12. No power tools are allowed in studio areas.
13. Never block electrical panels or fire exits.
14. Do not prop open fire doors.

Non-compliance with these rules will result in a written warning from the Head of the Department. Students may be asked to move out of their studio spot after the second warning.
