

# MESSAGE FROM THE HEAD

## WHAT A YEAR! AM I RIGHT?: PANDEMIC EDITION

I'm tired, but with my last ounce of energy I want to thank everyone in the department for answering the call of duty this year. Despite the circumstances, we have three new people joining us (welcome Madeleine, Steve, and Sunmee), our teaching mission is healthy and humming, and our research program shows no sign of slowing. Since I'm done as department head, I want to wish everyone some good shore time. The port won't know what hit 'em!

In particular, I want to thank all the people who did my job for me in the front office over the past 12 months (Mary, Jamie, Liana, Suzanne, Gloria, Mindy, Jarod, Larry, and Ferro), the people who ran our department programs (Mel G., Mel S., Corey, and Barry), and the crew that keeps the first floor fed and watered (Matty, Amanda, Alicia, and Josette). I've learned that this all hands on deck, fine-tuned machine is fired by a furious and chaotic engine peopled by a steady crew. Looking back, I'm amazed at how much we got done and I'm left to wonder if holding the ship's wheel played any role in securing our proud and collective survival. At the end of the 12-months, I'm even more impressed by us now than when I started this crazy ride.

I also want to thank the people in the Dean's office who have helped us through the choppy waters (Jeff Taylor, Rory Henry, Jason Leboe-McGowan, Greg Smith, Rob Hoppa, Jan Gripp, Ursule Critoph, and Jonathan Dyck). I've been impressed by the cooperation, time, and support they give to us and can assure you of their recognition and appreciation of the contributions and returns that we bring to the Faculty of Arts at large.

Finally, I want to thank our students (special shout out to my trio: Jackie, Matt, and Brad). It's been quite a year for you and the department appreciates the overtime innings that you've played to keep us on course. Thank you for your help, good nature, patience, and hard work in helping to row the good ship Psychology ashore. I hope you all party hard this summer.

With that, good luck Dan!

# PSYCHOLOGY IN THE SPOTLIGHT

Psychology faculty have been busy sharing their insights and expertise with the media and providing information and assistance to the public during the current pandemic.

Dr. Dan Bailis contributed to an article in the Winnipeg Free Press, [Comfort levels vary in response to economic restart](#), about the difference in how people feel handling the return to “normal” with the ease of restrictions in Manitoba.

Dr. Richard Kruk was a recent contributor to an article in the Winnipeg Free Press, [Reading, writing, reassurance](#), discussing the importance of reassurance, discussing feelings and emphasizing emotional and social well-being over schoolwork during the pandemic.

Dr. Leslie Roos has recently contributed to articles and news programs regarding parenting and parent/child anxieties during the Pandemic. You can view the article on The Conversation co-authored by Dr. Roos with suggestions for reducing parenting stress [here](#). Dr. Roos was also featured in a New York Times article, [Experts Fear Increase in Postpartum Mood and Anxiety Disorders](#). Dr. Roos was also featured in a Winnipeg Free press article, [Kids and COVID-19](#), with expert advice for helping to deter children’s worries and anxieties about the pandemic. In addition to these recent articles, one of Dr. Roos’ recent research initiatives is the focus of a 3.5 minute interview on CBS News Winnipeg on April 23<sup>rd</sup>, which can be viewed [here](#) (12:36-15:58). Dr. Roos’ team will be collecting data via their website [Parentingduringthepandemic.com](#) with the aim of identifying how the pandemic is affecting families with young children and whether those families’ needs are being met.

Dr. Jen Theule’s expertise in School Psych was the subject of a recent article in the Winnipeg Free Press, [Decision not to reopen schools called short-sighted](#), regarding the shortfalls of the province’s plan to keep schools closed for the remainder of the school year.

In non-pandemic related research news, Dr. Melanie Soderstrom and the Baby Language Lab have been featured in several recent media articles including [CTV News](#) and [The Conversation](#), regarding the results of a recent study conducted as part of the Many Babies Project. Findings from their recent study confirm that babies around the world love infant-directed speech (baby talk).

Finally, in student related news, Psychology has the honour of being home to another impressive **Vanier Scholarship** recipient. **Bilal Zia** (advisor Corey Mackenzie) is currently completing his PhD. Through his research he is aiming to improve Canadian Muslims’ access to mental healthcare. You can read more about his research and the plan for his dissertation [here](#).

## STAFF NEWS

### WELCOME

The Department of Psychology has officially announced the three new tenure track hires due to start between July 1<sup>st</sup> - September 1<sup>st</sup> 2020.

**Dr. Steven Greening** is returning to Canada to start his position **July 1<sup>st</sup> 2020** following a term as Assistant Professor at Louisiana State University. His research expertise in cognitive neuroscience of emotion and emotion regulation will be an asset to the **Brain and Cognitive Science** area and the Department.

**Dr. Madeleine Keevy** arrives to the Department on **September 1<sup>st</sup>, 2020**, from the University of Nebraska Medical Center having received her PhD in ABA. Dr. Keevy's research and qualifications will be a benefit to the **Applied Behavior Analysis** area and the Department.

**Dr. Sunmee Kim** comes to Winnipeg from the University of Montreal for a **July 1<sup>st</sup> 2020** start, having completed her PhD in Quantitative Psychology and Modeling at McGill University. Dr. Kim's advanced training in both statistics and quantitative psychology will be a valuable resource in the **Quantitative Methods** area and the Department.

### AWARDS!

**Dr. Kristin Reynolds** was recently awarded **The George & Fay Yee Centre for Healthcare Innovation PREPPP Award** titled Let's Talk About Late-Life Mental Health: Multi-Systemic Collaboration to Inform Better Access to Care. In addition **Dr. Reynolds** has also been announced as the winner of this year's **Psychology Teaching Award** in recognition of outstanding teaching. Congrats! We look forward to hearing her talk during next year's colloquium series.

### Long Service

Congratulations to both **Larry Mitchell** and **Dr. Jacquie Vorauer** on being awarded **Long service awards** in 2020!

### CONGRATULATIONS!

Congratulations **Dr. Launa Leboe-McGowan** on being granted tenure!

Congratulations to **Dr. Johnson Li** on receiving a promotion to Associate Professor and being granted tenure!

**Dr. Johnson Li's** recent study was announced as the **runner-up of the 2020 Quantitative Methods Research Award of the Canadian Psychological Association**. Congratulations!
