## University of Manitoba

## Join us on the dark side

Dark, sexy, haunting: this is a mystery worth unraveling.

John Guare's dark comedy *Landscape of the Body* pulsates with society's tragic obsession with the unattainable American Ideal. In a near dream-state, Guare erodes our lust for fame, wealth, and a perfect family, eventually laying bare a single string of truth – it winds through the city, a river filled with lost hopes, lost lives, and missing heads.

Watch the dreamy, cinematic saga unfold, as you follow the journey of single mother, Betty Yearn, from her sheltered life in Maine, to an interrogation room in New York City where she is questioned in the investigation of her teenaged son's horrific murder.

*Landscape of the Body* is The Black Hole Theatre Company's opening production of the season and is being directed by Black Hole Theatre alumnus Jenette Heinrichs.

Performances run from Nov. 13 to 17 and 20 to 24 at 7 p.m. on Tuesdays and 8pm Wednesday to Saturday in the Black Hole Theatre, University College.

Tickets: \$11 Adults, \$9 Students and seniors. Tickets can be purchased at the door. For reservations and group discounts contact the 24hr box office at 474-6880.

Submitted Photo

Tony Porteous as Durwood, Stephanie Moroz as Betty and Clayton Gray as Bert in the Black Hole Theatre's production of John Guare's *Landscape of the Body*.

*Medical rounds are typically targeted at university staff and professionals directly involved in the medical field.*
