

The CAG Undergraduate Award

Each year, The Canadian Association of Geographers presents awards to the most outstanding students graduating in Geography honours/majors programmes at universities or colleges across Canada.

Chairs are invited to submit the name of a student from their department. Winners receive a complimentary membership in the CAG for the following year and, in addition, their names are announced at the Annual General Meeting and published here and in the CAG Newsletter.

If your university or college (bachelor's degree-granting institutions) is not listed below or if you have not yet submitted the name of your student for the current year please contact the CAG office at www.cag-acg.ca.
