Practicum
Interdisciplinary Health Program (IHP)

Shahin Shooshtari, Ph.D.
Director, IHP
Alisa Claman
Student Advisor
Faculty of Health Sciences
University of Manitoba
March 3, 2015
IHP Program

- Two separate, four year, 120 credit hour degrees:
  - Bachelor in Health Sciences - B.H.Sc.
  - Bachelor in Health Studies - B.H.St.

- Offered in partnership with the Faculties of Health Sciences, Arts and Science

- Administered by the Faculty of Health Sciences

- Students admitted to the Faculty of Health Sciences
Main Goal:

- To create a broad, comprehensive understanding among people working in health-related settings of the factors that affect health, the needs of clients and the delivery of health services.
Adopting the population health framework and collaborative approach as the basis for development of future health policies and strategies by governments has great potential to improve the health of Canadians...

(Strategies for Population Health Investing in the Health of Canadians, 1994)
Opportunity to learn...

- New approaches to assessment, planning, administration and delivery of health services

- To deal with health issues and promote health at individual, community and global levels.
