

Good afternoon,

With COVID-19 having a significant impact on the University, Security Services would like to notify everyone that the Safe Walk and Safe Ride programs continue to operate. Security Services is maintaining staffing levels and we continue to conduct our building patrols. We encourage everyone to contact Security Services to report any suspicious activity or concerns at the Bannatyne Campus.

With a significant reduction in staff and student population on campus, some individuals may find themselves working alone if they attend campus. Individuals who are working alone are encouraged to contact Security Services and we will endeavor to conduct period checks on those individuals. In addition, each unit should have their own working alone procedures.

Security Services continues to actively monitor the evolving situation regarding COVID-19 and we will notify the community if there are any changes to our services. We also encourage everyone to monitor the University webpage on coronavirus: <http://umanitoba.ca/coronavirus>

To request a Safe Walk/Safe Ride or to report any suspicious activity or concerns, Security Services can be reached in the following ways:

204-474-9312 (non-emergency)

204-474-9341 (emergency)

555 from University land lines

#555 from Rogers and Bell MTS cell phone customers

The Bannatyne Security Office is located in room S105 Medical Services building. If the door is closed and no one answers, push the red call box and you will be connected with our dispatch office. Safe Walk/Safe Ride cards are located outside S105.

Stay safe!

Christopher Bohonis, B.A. (Adv), CPP, CBCP
