Dr. Mihail Guranda: Brain lesions in MS: all are bright, but some are brighter

Dr. Devon Evans: Hysterectomy: Are we offering women the best options?

Dr. Yiyang Zhang: Cruciate Ligament Reconstruction: A Provincial Epidemiological Study

Why am I receiving this newsletter?

You are listed as the Resident Research Coordinator (RRC) for your program. A copy of this newsletter will also be sent to all Residency Program Directors.

What is this newsletter?

This letter is organized through the Resident Research Coordinator Council (RRCC) to allow all RRCs to share resources, collaborate on initiatives, and improve the resident research experience as a whole.

How can I share a topic?

If you are interested in providing content for this newsletter (news items or requests for input/collaboration) please contact:

Karen Holmes
