ELECTIVE INSTRUCTIONS

• Visiting students must complete PHIA prior to the start of their elective (University of Manitoba students will have completed PHIA in pre-clerkship); please make arrangements with UGME Electives Administrator, at (204) 789 3820 or ElectivesUGME@umanitoba.ca.
• On the first day of your elective, please report to the MCHP Office, Room 408 on the 4th floor of Brodie Centre, University of Manitoba (727 Mc Dermot Avenue).
• The schedule of the elective will be reviewed on the first day of the rotation by the elective preceptor.
• Parking is the responsibility of the student; there are a number of public parkades and bus routes in the area.
• Business casual attire is appropriate (no jeans, please); white coats are not used in this office setting.

Evaluation / Feedback

• Preceptor and students will both complete an electronic FITER.

LEARNING OBJECTIVES

By the end of this elective period the student shall:
Interact with a variety of researchers at the centre. An area of research will be chosen, based on
the student's topic interest, for a more in depth immersion in that researcher's current research
project(s).

This elective will also provide the applicant with the capacity to demonstrate an understanding of and
be able to describe:

- Role of the Manitoba Centre for Health Policy as a research unit at the Faculty of Medicine,
  University of Manitoba.
- Advantages and disadvantages of research using administrative data.
- Appraise and discuss major research studies produced on health care use in Manitoba (health
deliverables).
- The dissemination and integration process of research findings into policymaking.
