

Concept Dictionary & Glossary Update

The MCHP Concept Dictionary and Glossary has now grown to include over 2,000 glossary terms and over 200 concepts. This update highlights terms completed from recently released deliverables and concepts created for use with studies focusing on child health and development.

Concepts

New operational definitions added to the Concept Dictionary include the following child/adolescent education and health measures:

[Grade 9 Performance Indicators](#)

[Attention Deficit Hyperactivity Disorder \(ADHD\)](#)

[Revised-Graduated Prenatal Care Utilization Index \(G-INDEX\)](#)

[Browse all concepts](#)

Glossary Terms

There are now over 2000 glossary terms in MCHPs database. These are terms commonly used in population health and health services research. Entries contain a brief definition, links to related terms and concepts and links to external sites.
