University of Manitoba Department of Psychiatry Research Report

This year’s Departmental Research Report is the tenth report since its re-introduction in 1998. Highlights of research activity this year include 51 peer reviewed papers (published or in press), eight scholarly book chapters, the Fourth Annual Faculty Research Forum, Eleventh Annual Resident Research Day, and sustained funding of two research groups through a variety of national granting agencies. Once again, the areas of research activity represented in this annual report reflect a great diversity of interests and expertise within the Department of Psychiatry. We appreciate the efforts of Brenda Doerksen, Shay-Lee Belik, Natalie Mota and Amber Mather in preparing this report.

Jitender Sareen, MD, FRCPC
Director of Research
Associate Professor

Murray W. Enns MD, FRCPC
Professor and Head

June 2007
