It is our pleasure to write this Seventeenth Annual Department of Psychiatry Research Report. The report highlights a wide range of research and scholarly activities by our department members. Although the department has a relative modest number of faculty members with protected time for research, the collaborative culture within the department has led a numerous publications (2 books, 11 book chapters and 70 peer reviewed publications) and peer-reviewed grants from national bodies. The Annual Faculty Research Forum and Resident Research Day provide an excellent opportunity for department members to share ideas and showcase their scholarly activities. This year three Faculty members were recognized for teaching and research awards (Drs. Altman, Chochinov and Fleisher). Dr. Chochinov received the Order of Canada for his work in Palliative care.

Jitender Sareen, MD, FRCPC
Director of Research
Professor

Murray W. Enns, MD, FRCPC
Professor and Head

July 2015
Table of Contents

A. PUBLICATIONS (CURRENTLY “IN PRESS” AND THOSE PUBLISHED IN 2014)
   A1. Books .................................................................................................................. 4
   A2. Chapters in Books ............................................................................................. 4
   A3. Papers Published in Peer-Reviewed Journals .................................................. 5
