

The Quality of Prenatal Care Questionnaire (QPCQ) is a 46-item self-report questionnaire designed to be completed by women who received prenatal care. The development and testing of this instrument is described in the following article:

Heaman, M.I., Sword, W.A., Akhtar-Danesh, N., Bradford, A., Tough, S., Janssen, P., Young, D., Kingston, D., Hutton, E., & Helewa, M. (2014). Quality of Prenatal Care Questionnaire: Instrument development and testing. *BMC Pregnancy and Childbirth*, 14:188. doi: 10.1186/1471-2393-14-188.

The qualitative descriptive study which assisted with generating items for the QPCQ has been published:

Sword, W., Heaman, M., Brooks, S., Tough, S., Janssen, P., Young, D., Kingston, D., Helewa, M., Akhtar-Danesh, N., & Hutton, E. (2012). Women's and care providers' perspectives of quality prenatal care: A qualitative descriptive study. *BMC Pregnancy and Childbirth*, Apr 13:12:29.
