1. The cost per FTE student is, by definition, sensitive to the number of FTE students within a given faculty in any given year. Much of the variation in the costs between years can be attributed to the normal fluctuation in student counts. As such, programs of study with smaller numbers of graduate students may record higher degrees of volatility in costs between years as compared to programs with larger populations. Also, graduate programs of study that do not have graduate students will show the entire allocated cost.
2. Effective Fall Term 2014, the Department of Human Nutritional Sciences moved from the Faculty of Human Ecology to the Faculty of Agricultural and Food Sciences. Comparisons with previous years should be made with caution.
3. Effective November 2014, the Faculties of Dentistry, Medicine, Nursing, and Pharmacy became colleges in the Faculty of Health Sciences. The College of Rehabilitation Sciences (formerly, the School of Medical Rehabilitation) and the School of Dental Hygiene also became part of the new faculty.
4. Graduate FTE students in the College of Medicine do not include Post Graduate Medical Education (PGME) students.
