

PARTICIPATION OF MALES AND FEMALES AT THE UNIVERSITY OF MANITOBA 1994 - 2024

**Participation Rates for 18–24-year-olds in Manitoba, by gender, 1994-2024. Chart based on most up-to-date Statistics Canada Population Estimates. Prior to 2021, estimates reflect sex at birth; beginning in 2021, estimates reflect gender. Before 1988, more men than women attended the University of Manitoba, but since 1988, more women than men have enrolled. Due to data limitations, the graph excludes students who have declared a gender other than male or female.*
