Part B - Research Proposal

Section 1: Proposal Abstract

Provide a concise, nontechnical statement of the general objectives and significance of the proposed research (250 words maximum).

Section 2: Research Description

Attach a description of the proposed research following the guidelines document.

In describing the proposed research, be sure to include:

- the **objectives** of the research and the relationship of the research to existing research and literature;
- the potential theoretical and practical **significance** of the proposed research and its ability to have impact within a short time horizon;
- the theoretical/conceptual **framework** guiding the research and, where applicable, the research **hypotheses**;
- the **methods** and **procedures** to be used and the resources that are required, with particular emphasis on those for which funding is requested;
- how this proposal relates to **plans for future applications** for provincial, national, or international funding; and
- how this proposal represents an **innovative** program of research.

Please keep in mind the type, nature, and extent of support provided through this program.

- Grants for high quality, original and innovative projects of a short-term nature that are pre-requisite to long-term provincial, national, or international support.

Part C - Research Funding Plans / Profile

Section 1: Future Funding Plans

MCHP Rady Faculty Research Support Fund grant recipients are expected to use funds awarded to position them to apply for provincial, national, or international research funding. Briefly outline your reasons for seeking support through this program, including your plans for obtaining provincial, national, or international support in the future (50 words maximum):

Section 2: Other Related Funding Sources

Starting with the most recent, list any other granting agencies or programs from which you have requested or received funds within the last three years and indicate the status of this support as well as your role on the grant (PI, Co-I, Other).
